

TENTATIVE ADOPTION OF  
2005 OCEAN SALMON MANAGEMENT MEASURES  
FOR ANALYSIS

The Council adopted four salmon management options in March, which were published in Preseason Report II and sent out for public review. In action under this agenda item, the Council must narrow the March management options to the final season recommendations. To allow adequate analysis before final adoption, the tentatively-adopted recommendations should resolve any outstanding conflicts and be as close as possible to the final management measures. This is especially important to ensure final adoption is completed on Thursday afternoon.

The Council's procedure provides any agreements by outside parties (e.g., North of Cape Falcon Forum, etc.) to be incorporated into the Council's management recommendations must be presented to the Council in writing prior to adoption of the tentative options. The procedure also stipulates any new options or analyses must be reviewed by the Salmon Technical Team (STT) and public prior to the Council's final adoption.

If necessary, the STT will check back with the Council on Wednesday (Agenda Item C.5) or at other times to clarify any questions or obvious problems with the tentative measures. The Council must settle all such issues on Wednesday to allow time for STT analysis and to meet the final adoption deadline of Thursday afternoon.

Summaries of the testimony presented at public hearings will be provided at the meeting in the supplemental reports noted below (Agenda Item C.2.c). Public comment letters received at the Council office by March 29 are summarized and included in Agenda Item C.2.k.

**Council Action:**

**Adopt tentative treaty Indian commercial and non-Indian commercial and recreational management measures for STT analysis.**
