

**SALMON ADVISORY SUBPANEL REPORT ON
RECREATIONAL MANAGEMENT MEASURES PROPOSED BY THE SAS
FOR NON-INDIAN OCEAN FISHERIES, 2008**

After receiving guidance from the Council the following changes have been made to Agenda Item F.1.i. This new proposal transfers fishing opportunity (and Sacramento River fall Chinook (SRFC) impacts) from the Fort Bragg, San Francisco, and Monterey areas to the Oregon and California Klamath Management Zone. Based on the impact table in Preseason Report II, the net effect will reduce impacts on SRFC, and should provide additional harvest of Klamath and other less critical stocks in ocean recreational fisheries.
