Dear

We are seeing seal pups sick and dying on our shores. Why is that?

If we allow this what else are we allowing? If we do not take action on this, we will make excuses and become habituated in making them as these deaths and extinctions continue to eat away our ecosystem.

Plz not only protect the seals but also us as a civilization.

John Contreras

Dear PFMC/NPFMC,

This E-mail is sent to encourage you to "rise to the occasion" and protect the remaining fish in the Pacific Ocean. The "blob" and the new "abnormal" norm is very dangerous for all marine life. Please step up to the plate and stop over fishing now.

Thank you.

Sincerely,

Phoebe
