

Agenda Item E.4 Council Action:

- 1. Adopt final treaty Indian troll, non-Indian commercial and recreational ocean salmon fishery management measures for submission to the U.S. Secretary of Commerce.**
- 2. If necessary, identify and justify any regulations requiring implementation by emergency rule.**

DRAFT NOT FOR ADMINISTRATION

(Adicks/Anderson)

I move that the Council adopt the non-Indian commercial and recreational salmon management measures for the area north of Cape Falcon as presented in Agenda Item E.4.a, Supplemental STT Report, April 14, 2016.

For analysis the STT will model fisheries such that the combined ocean and Puget Sound fisheries do not exceed:

- 1. 10% Southern U.S. exploitation rate for each of the following Puget Sound coho management units: Skagit wild, Stillaguamish wild, Snohomish wild and Strait of Juan de Fuca wild coho.**
- 2. 45% total exploitation rate for the Hood Canal wild coho management unit.**
- 3. The exploitation rates and escapement goals for each of the Puget Sound Chinook management units included in Table 2 of NMFS' guidance letter, after applying the appropriate regime to the status of each management unit anticipated in 2016.**

(Kern/Feldner) Amendment:

I would move to make the following amendment:

On Page 1, Table 1. Commercial troll management measures: U.S./Canada Border to Cape Falcon in both the May-June and July-August seasons strike where it is written, "...or, when the area between Cape Falcon and Humbug Mt. is closed to all salmon fishing, vessels may transit south of Cape Falcon and land into Newport, Oregon (fish must be landed and delivered prior to any reopening of salmon fishing in the area from Cape Falcon to Humbug Mt.)."

Amendment carried unan.

Motion as amended carried unan.

(Kern/Feldner)

Adopt the season structures, size limits, quotas, and other management measures for the commercial and recreational non-Indian fisheries from Cape Falcon south to the U.S./Mexico Border for submission to the U.S. Secretary of Commerce as shown in Agenda Item E.4.a, Supplemental STT Report, dated April 14, 2016, including the commercial and recreational requirements, definitions, restrictions, or exceptions contained in that document with the following change:

Page 2, Table 1. Commercial troll management measures: Humbug Mt. to OR/CA Border: Change the June quota from 690 Chinook to 720 Chinook.

Motion carried unan.

DRAFT NOT FOR ADMINISTRATION

(Sones/Anderson)

I move the Council adopt the management measures and quotas for the Treaty Troll Fishery south of the U.S./Canadian border to Cape Falcon, Oregon including requirements, definitions, restrictions, or exceptions as shown in Agenda Item E.3.a, Supplemental STT Report, dated April 10, 2016, table 3, except as follows.

The Treaty Indian ocean troll fishery would have a quota of:

- ❖ 40,000 Chinook and**
- ❖ 0 coho**

The overall chinook quota would be divided into a 20,000-Chinook sub-quota for the May 1 through June 30 Chinook only fishery and a 20,000-Chinook sub-quota for the fishery in the time period of July 1 through August 31.

Motion carried unan.
