PFMC Total	155,888	142,221	210,047	183,600	174,276	371,629	58,319	20,284	85,447

a/ Inseason estimates are preliminary.

b/ Non-Indian coho fisheries prior to Sept. are mark-selective and non-mark-selective recreational fisheries occur in Sept., (except NOF rec.) see the regulations for details.

c/ Effort is reported as landings. Chinook summer quota of 20,000 increased by adding spring quota rollover on an impact neutral basis by 16,720 fish. Total allow able catch is 40,000 Chinook for Treaty Indian fisheries in 2017.

d/ Numbers show n as Chinook quotas for non-Indian troll and rec. fisheries North of Falcon are guidelines not quotas; only the total Chinook allow able catch is a quota.

e/ NOF non-Indian troll coho quota is adjusted from preseason due to impact neutral transfer to recreational fishery. The preseason quota was 5,600 coho.

f/ NOF recreational coho quotas are adjusted from preseason due to impact neutral transfers between areas and from the NOF non-Indian troll fishery. The preseason quotas were: U.S./Canada Border to Cape Alava- 4,370 coho; Cape Alava to Queets River - 1,090 coho; Queets River to Leadbetter Point - 15,540 coho; Leadbetter Point to Cape Falcon - 21,000 coho.

g/ Cape Falcon to Humbug Mt. recreational coho quota for September is adjusted from preseason due to an impact neutral transfer from the recreational (mark-selective) coho quota for June-July. The preseason quota for September was 6,000 coho.
