Hello Pacific Fisheries Management Council,

I hope this message finds you well. I work for Congressman Jimmy Panetta (CA-20) and handle his ocean and natural resources portfolio.

On Thursday, October 12th, the House Natural Resources Committee discussed H.R. 3916, the Federally Integrated Species Health Act. I was hoping to receive an opinion from the PFMC on your take of the bill and if this would be helpful or harmful for salmon. My boss is interested on how this will impact salmon management in California, since many of our constituents fish salmon.

Thank you for your time and consideration. If you have additional follow up questions, please do not hesitate to reach out.

Best,

Tori
