

**ADOPTED SCHEDULE FOR DEVELOPING THE 2015-2016 AND BEYOND  
GROUNDFISH HARVEST SPECIFICATIONS AND MANAGEMENT MEASURES**

Non-italicized font in the table below represents the proposed Council schedule for the activities associated with implementing the 2015-2016 and beyond harvest specifications and management measures. Bold font dates represent Council meeting dates.

Italicized font represents a draft schedule for the National Marine Fisheries Service (NMFS) review and implementation process, including procedures and public comment periods required by the National Environmental Policy Act (NEPA) and the Administrative Procedures Act (APA). This schedule is premised on the preparation of an environmental impact statement (EIS), which has statutorily defined minimum time periods for public comment. Note that, like the last cycle, the draft EIS (DEIS) would be circulated before the June 2014 Council meeting, when final action is scheduled. If the Council’s final preferred alternative represents “substantial changes in the proposed action that are relevant to environmental concerns” (40 CFR 1502.9(c)) NMFS may have to recirculate the DEIS, delaying implementation.

<b>Start Date</b>	<b>End Date</b>	<b>Task</b>
