

SABLEFISH PERMIT STACKING REVIEW CALENDAR

	Council's Review Activity
September	<ul style="list-style-type: none"> • Approve calendar for review process. • Decide on need for and composition of advisory body(ies). • Provide guidance on report outline and content, including identification of an initial list of issues for particular attention in the review.
November	<ul style="list-style-type: none"> • Decide on which additional program changes should be considered in Phase 1 and whether or not a second phase will be required. • Provide further guidance on report content, including finalizing issues for particular attention in the review.
Winter 13/14	<ul style="list-style-type: none"> • Develop draft program review document. • Hold advisory body review of preliminary draft program review document.
April	<ul style="list-style-type: none"> • Adopt draft program review document for public review. • Consider a draft range of alternatives for assessing control of limited entry sablefish tier permits.^{a/}
June	<ul style="list-style-type: none"> • Adopt final program review document. • Adopt final preferred alternative to address the permit control issue. • Prioritize issues identified for possible Council action in Phase 2 of the process and adopt calendar for consideration.^{b/}

a/ Under the sablefish program review item in September, the Council directed that if any concerns come up around implementation of the Council's previous action on trawl/fixed gear permit stacking that these issues be brought back to the Council at its April 2014 meeting. This issue originally came up as a trawl catch share program trailing action item and was presented by NMFS in September under both the fixed gear program and trawl trailing actions. If this issue comes back to the Council for some reason, a determination will be made as to the most appropriate agenda item for addressing it.

b/ At its November 2013 meeting, the Council may decide not to schedule a second phase.
