

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL SUPPLEMENTAL REPORT ON
FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The Coastal Pelagic Species Advisory Subpanel (CPSAS) reviewed supplemental public comment presented under this agenda item. Stock assessments for anchovy have been limited by available data. The CPSAS supports including northern anchovy on a future agenda to hear an update from NMFS on the status of research for northern anchovy, plans for gathering more scientific data, and any proposed schedule for future assessments of the northern or central subpopulations.
