

INFORMATIONAL SESSION

This voluntary Informational Session is a briefing by Council staff on items that will be helpful to Council members conducting Council business. The briefing will have three topics:

1. Ms. Jennifer Gilden, Staff Officer for Outreach and Habitat, will provide a briefing on the new and improved Council website, providing a tour of the site and explaining the new features of the site.
2. Ms. Sandra Krause, the Council's Information Technology staff, will demonstrate some "tricks of the trade" for efficient use of laptops at the Council table for Council members looking to become less reliant on paper copies. Council members may also demonstrate individually developed ways to use laptops more efficiently at Council meetings.
3. Dr. Donald McIsaac will review miscellaneous small changes in Council meeting procedures designed to enhance efficiency of proceedings, as well as solicit ideas from Council members as to any improvements.
