a/ Although the Skagit River escapement goal would not be achieved, management was based on meeting WDFW's escapement goal for Hoh River coho and allocation based on aggregation to Washington coastal tribes.

b/ The Council management regime was not expected to meet equitable adjustment requirements for Skagit River coho.

c/ Plus 7,430 hooking mortality for pink fishery.

d/ Plus 3,250 hooking mortality for pink fishery.

e/ Hooking mortality of 2,800 coho for June 1-15 fishery not included.

f/ Plus 1,200 hook-and-release mortality for the Neah Bay all-salmon-except-coho fishery.

g/ Marked hatchery coho only (healed adipose fin clip). Except 2004 non-Indian troll Sept. 1-5 between Queets River and Cape Falcon, and sport Aug. 29-Sept. 6 between Queets River and Leadbetter Point.

h/ Sharing of impacts on ESA listed Puget Sound Chinook also affected the shaping of ocean and inside fisheries.

i/ For 2002, the Council elected to constrain fishing so that the OCN exploitation rate would not exceed 12.5 percent per ODFW's recommendation to provide additional protection for lower Columbia River natural coho, which are listed as endangered under the Oregon State-ESA. The FMP objective for OCN coho was 15 percent.

GENERAL MANAGEMENT ACTIONS AND INSEASON CONFERENCES

Feb. 26	National Marine Fisheries Service (NMFS) provides the Council with a letter outlining the 2008 management guidance for stocks listed under the Endangered Species Act (ESA).
Mar. 13	Based on Council recommendations, NMFS takes inseason action to: <ol style="list-style-type: none"> 1. delay the opening for the commercial salmon fishery between Cape Falcon, Oregon and the OR/CA border from March 15 to April 15; 2. close the commercial salmon fishery from Horse Mt., California to Point Arena effective April 7; 3. delay the opening for the recreational salmon fishery between Cape Falcon, Oregon and Humbug Mt., Oregon from March 15 to April 15; 4. close the recreational salmon fishery from Horse Mt., California to Point Arena effective April 1; 5. close the recreational salmon fishery from Point Arena, California to the U.S./Mexico border effective April 5. <p>New regulations to take effect May 1, 2008.</p>
Mar. 14	Council adopts three commercial and recreational ocean salmon fishery management options for public review.
Mar. 18	North of Cape Falcon Salmon Forum meets in Olympia, Washington to initiate consideration of recommendations for treaty Indian and non-Indian salmon management options.
Mar. 31-Apr. 1	Council holds public hearings on proposed 2008 management options in Westport, Washington, Coos Bay, Oregon, and Eureka, California.
Apr. 1	North of Cape Falcon Salmon Forum meets in Lynnwood, Washington to further consider recommendations for treaty Indian and non-Indian salmon management options.
Apr. 9	Based on Council recommendations, NMFS takes inseason action to: <ol style="list-style-type: none"> 1. close the commercial salmon fishery between Cape Falcon, Oregon and the OR/CA border effective April 15; 2. close the recreational salmon fishery between Cape Falcon, Oregon and Humbug Mt., Oregon effective April 15. <p>New regulations to take effect May 1, 2008.</p>
Apr. 10	Council adopts final ocean salmon fishery management recommendations for approval and implementation by the U.S. Secretary of Commerce. The proposed measures comply with the salmon fishery management plan (FMP) and the current biological opinions for listed species except that the Sacramento River fall Chinook spawning escapement is projected to be 59,000 hatchery and natural adults, less than the 122,000-180,000 FMP conservation objective; therefore, an emergency rule is required for implementation of fisheries south of Cape Falcon, Oregon.
May 4	Ocean salmon seasons implemented as recommended by the Council and published in the <i>Federal Register</i> on May 1 (73 FR 23971).
June 19	NMFS inseason conference number three for the U.S./Canada border to Cape Falcon, non-Indian commercial all-salmon except coho fishery results in: <ol style="list-style-type: none"> 1. changing the landing and possession limit to 35 Chinook north of Leadbetter Point or 35 Chinook south of Leadbetter Point, per open period effective June 21; 2. closing the fishery effective 11:59 p.m. June 24.
June 20	NMFS inseason conference number four results in changing the bag limit to allow retention of two Chinook effective June 21 for the U.S./Canada border to Cape Falcon, non-Indian recreational Chinook only fishery and the all species fishery scheduled to open June 29 in the Columbia River and Westport subareas and July 1 in the La Push and Neah Bay subareas.
July 30	NMFS inseason conference number five for the U.S./Canada border to Cape Falcon, non-Indian commercial all-salmon except coho fishery results in changing the landing and possession limit to 50 Chinook and 25 marked coho north of Leadbetter Point or 50 Chinook and 25 marked coho south of Leadbetter Point, per open period effective August 2.

TABLE C-9. Sequence of events in ocean salmon fishery management, 2008.^{a/} (Page 2 of 4)

GENERAL MANAGEMENT ACTIONS AND INSEASON CONFERENCES (continued)

- Aug. 12 NMFS inseason conference number six results in closing the recreational mark selective coho fishery between Cape Falcon, Oregon and the OR/CA border effective 11:59 p.m. August 14 as the quota was reached.
- Aug. 13 NMFS inseason conference number seven for the U.S./Canada border to Cape Falcon, non-Indian commercial all-species fisheries results in lifting the 6-inch plug only gear restriction effective August 16.
- Aug. 15 NMFS inseason conference number eight for the U.S./Canada border to Cape Falcon, non-Indian commercial and Leadbetter Point to Cape Falcon recreational all-species fisheries results in:
1. trading 1,000 coho from the commercial fishery quota for 500 Chinook from the recreational fishery quota, resulting in increasing the commercial Chinook quota by 500 to 8,800, and increasing the Columbia River subarea coho quota by 1,200 to 11,380. The coho trade was impact neutral for lower Columbia River natural coho due to lower hook and release mortality in the recreational fishery.
 2. closing the Columbia River subarea recreational fishery effective 2:00 p.m. August 17 as the coho quota was reached.
- Aug. 25 NMFS inseason conference number nine for the U.S./Canada border to Leadbetter Point, recreational all-species fishery results in:
1. closing the Neah Bay subarea fishery west of the Bonilla-Tatoosh line effective August 25 as the coho quota was reached. The state waters Area 4B add-on fishery east of the Bonilla-Tatoosh line opens August 26;
 2. allowing fishing seven days per week in the La Push and Westport subarea recreational fisheries effective August 26.
