

## TABLE OF CONTENTS

	<u>Page</u>
COVER SHEET .....	i
EXECUTIVE SUMMARY .....	iii
TABLE OF CONTENTS .....	xv
LIST OF TABLES .....	xxi
LIST OF FIGURES .....	xxix
ABBREVIATIONS AND ACRONYMS, GLOSSARY .....	xxxii
<b>1.0 INTRODUCTION .....</b>	<b>1-1</b>
1.1 How This Amendment is Organized .....	1-1
1.2 Purpose of and Need .....	1-4
1.2.1 The Proposed Action .....	1-4
1.2.2 Need (Problems for Resolution) .....	1-4
1.2.3 Purpose of the Proposed Action .....	1-5
1.3 Background .....	1-5
1.3.1 Requirements for Rebuilding Plans .....	1-5
1.3.2 Stock Status of the Four Species Considered in this Amendment .....	1-6
1.3.3 Summary of the Current Management Regime .....	1-6
1.3.4 Summary of Litigation over Amendment 12 .....	1-7
1.3.5 Development of Rebuilding Plan Adoption Strategy .....	1-7
1.3.6 Relationship Between the Contents of Rebuilding Plans and the Contents of This EIS .....	1-8
1.4 Scoping Summary .....	1-11
1.4.1 Background to Scoping .....	1-11
1.4.2 Council Scoping and Agency NEPA Scoping .....	1-11
1.4.3 Summary of Scoping Comments Received by the Council .....	1-12
1.4.3.1 Identification of Issues .....	1-12
1.4.3.2 Recommendations Brought Forward As Part of the Analysis .....	1-12
1.4.4 Criteria Used to Evaluate the Impacts of the Amendment 16-2 Proposed Action .....	1-17
<b>2.0 REBUILDING PLAN ALTERNATIVES .....</b>	<b>2-1</b>
2.1 The <i>No Action</i> Alternative .....	2-4
2.1.1 Darkblotched Rockfish .....	2-4
2.1.2 POP .....	2-4
2.1.3 Canary Rockfish .....	2-4
2.1.4 Lingcod .....	2-4
2.2 The <i>Maximum Conservation</i> Alternative .....	2-5
2.2.1 Darkblotched Rockfish .....	2-5
2.2.2 POP .....	2-6
2.2.3 Canary Rockfish .....	2-6
2.2.4 Lingcod .....	2-6
2.3 The <i>Maximum Harvest</i> Alternative .....	2-6
2.3.1 Darkblotched Rockfish .....	2-6
2.3.2 POP .....	2-6
2.3.3 Canary Rockfish .....	2-6
2.3.4 Lingcod .....	2-6
2.4 The <i>Council Preferred</i> Alternative .....	2-7
2.4.1 Darkblotched Rockfish .....	2-7
2.4.2 POP .....	2-7
2.4.3 Canary Rockfish .....	2-7

2.4.4	Lingcod	2-7
2.5	The <i>Mixed Stock Exception</i> Alternative	2-7
2.5.1	Darkblotched Rockfish	2-8
2.5.2	POP	2-8
2.5.3	Canary Rockfish	2-8
2.5.4	Lingcod	2-9
2.6	Other Alternatives That May Be Considered	2-9
2.6.1	Darkblotched Rockfish	2-9
2.6.2	POP	2-9
2.6.3	Canary Rockfish	2-9
2.6.4	Lingcod	2-9
2.7	Alternatives Considered, But Rejected	2-9
3.0	AFFECTED ENVIRONMENT	3-1
3.1	Habitat and Ecosystem	3-1
3.1.1	Essential Fish Habitat	3-1
3.1.1.1	Darkblotched Rockfish EFH	3-2
3.1.1.2	POP EFH	3-2
3.1.1.3	Canary Rockfish EFH	3-2
3.1.1.4	Lingcod EFH	3-3
3.1.2	West Coast Marine Ecosystems	3-3
3.2	Biological Environment	3-9
3.2.1	Overfished Species Subject to Rebuilding Plans Evaluated in This EIS	3-9
3.2.1.1	Darkblotched Rockfish	3-9
3.2.1.2	POP	3-10
3.2.1.3	Canary Rockfish	3-12
3.2.1.4	Lingcod	3-13
3.2.2	FMP Species Co-occurring with the Overfished Species Subject to Rebuilding Plans Evaluated in this EIS	3-14
3.2.2.1	Species Co-occurring With Darkblotched Rockfish and POP	3-14
3.2.2.2	Species Co-occurring With Canary Rockfish	3-14
3.2.2.3	Species Co-occurring with Lingcod	3-15
3.3	Management Regime	3-21
3.3.1	Management History	3-21
3.3.1.1	Darkblotched Rockfish	3-21
3.3.1.2	POP	3-22
3.3.1.3	Canary Rockfish	3-22
3.3.1.4	Lingcod	3-23
3.3.2	License Limitation	3-24
3.3.3	Data Systems	3-25
3.3.3.1	Catch Monitoring	3-25
3.3.3.2	The Stock Assessment Process	3-28
3.3.3.3	Research Fisheries	3-29
3.3.4	Enforcement	3-30
3.3.5	Managing with Risk and Uncertainty	3-31
3.4	Socioeconomic Environment	3-56
3.4.1	Overfished Species as a Constraint Over Time	3-56
3.4.1.1	Nonconsumptive versus Consumptive Use	3-56
3.4.1.2	Constraint in Consumptive Use	3-56
3.4.2	Complex Values and Allocation Among Consumptive Sectors Over Time (Including Tribal)	3-57
3.4.2.1	Trip Categorization and Catch Composition	3-57
3.4.2.2	Groundfish Trawl Target Strategies	3-58
3.4.2.3	Other Trawl Strategies with Groundfish as the Predominant Catch	3-74
3.4.2.4	Limited Entry Groundfish Fixed Gears (Longline and Fishpot Gear)	3-74
3.4.2.5	Directed Open Access Gears	3-76
3.4.2.6	Incidental Open Access Gears	3-78
3.4.3	Aggregate Commercial Catch and Recreational Effort for Baseline–Coastwide	3-85

3.4.4	Primary Seafood Producers - Commercial Vessels	3-86
3.4.5	Seafood Distribution Chain	3-86
3.4.5.1	Buyers and Processors	3-86
3.4.5.2	Seafood Markets	3-87
3.4.6	Recreational Fishery - Commercial Charter and Private Vessel Sectors	3-87
3.4.7	Tribal Fishery	3-88
3.4.8	Communities	3-89
4.0	IMPACTS OF THE REBUILDING PLAN ALTERNATIVES	4-1
4.1	Impacts on Habitat and Ecosystem, Including Protected Species	4-1
4.2	Impacts to the Biological Environment	4-2
4.2.1	Impacts to the Darkblotched Rockfish Stock	4-3
4.2.1.1	Impacts of the <i>No Action</i> Alternative	4-3
4.2.1.2	Impacts of the <i>Maximum Conservation</i> Alternative	4-3
4.2.1.3	Impacts of the <i>Maximum Harvest</i> Alternative	4-3
4.2.1.4	Impacts of the <i>Council Preferred</i> Alternative	4-3
4.2.1.5	Impacts of the <i>Mixed Stock Exception</i> Alternative	4-4
4.2.1.6	Impacts of Other Alternatives Considered	4-4
4.2.2	Impacts to the POP Stock	4-4
4.2.2.1	Impacts of the <i>No Action</i> Alternative	4-4
4.2.2.2	Impacts of the <i>Maximum Conservation</i> Alternative	4-4
4.2.2.3	Impacts of the <i>Maximum Harvest</i> Alternative	4-4
4.2.2.4	Impacts of the <i>Council Preferred</i> Alternative	4-4
4.2.2.5	Impacts of the <i>Mixed Stock Exception</i> Alternative	4-5
4.2.2.6	Impacts of Other Alternatives Considered	4-5
4.2.3	Impacts to the Canary Rockfish Stock	4-5
4.2.3.1	Impacts of the <i>No Action</i> Alternative	4-5
4.2.3.2	Impacts of the <i>Maximum Conservation</i> Alternative	4-5
4.2.3.3	Impacts of the <i>Maximum Harvest</i> Alternative	4-5
4.2.3.4	Impacts of the <i>Council Preferred</i> Alternative	4-5
4.2.3.5	Impacts of the <i>Mixed Stock Exception</i> Alternative	4-6
4.2.3.6	Impacts of Other Alternatives Considered	4-6
4.2.4	Impacts to the Lingcod Stock	4-6
4.2.4.1	Impacts of the <i>No Action</i> Alternative	4-6
4.2.4.2	Impacts of the <i>Maximum Conservation</i> Alternative	4-6
4.2.4.3	Impacts of the <i>Maximum Harvest</i> Alternative	4-6
4.2.4.4	Impacts of the <i>Council Preferred</i> Alternative	4-6
4.2.4.5	Impacts of the <i>Mixed Stock Exception</i> Alternative	4-7
4.2.4.6	Impacts of Other Alternatives Considered	4-7
4.2.5	Impacts of Rebuilding Alternatives to Co-Occurring Species	4-7
4.3	Impacts to the Management Regime	4-8
4.3.1	Controlling Fishing-Related Mortality of Species Subject to Rebuilding Plans Evaluated in this EIS	4-8
4.3.1.1	Landed Catch Accounting and Control	4-8
4.3.1.2	Bycatch Accounting and Control	4-8
4.3.1.3	Potential Rebuilding Measures to Consider	4-10
4.4	Socioeconomic Impacts	4-15
4.4.1	Overfished Species as a Constraint Over Time	4-15
4.4.1.1	Darkblotched Rockfish	4-16
4.4.1.2	Canary Rockfish	4-16
4.4.1.3	POP	4-17
4.4.1.4	Lingcod	4-17
4.4.2	Complex Values and Allocation Among Sectors Over Time	4-18
4.4.2.1	Darkblotched Rockfish	4-19
4.4.2.2	POP	4-19
4.4.2.3	Canary Rockfish	4-20
4.4.2.4	Lingcod	4-20
4.4.3	Aggregate Commercial Catch and Recreational Effort for First Year of	

Management- Coastwide .....	<u>4-20</u>
4.4.4 Primary Seafood Producers - Commercial Vessels .....	<u>4-21</u>
4.4.4.1 Short-Term Effects .....	<u>4-21</u>
4.4.4.2 Long-Term Effects .....	<u>4-22</u>
4.4.4.3 Vessels Most Affected .....	<u>4-23</u>
4.4.4.4 Comparison of the Alternatives .....	<u>4-23</u>
4.4.5 Seafood Distribution Chain .....	<u>4-25</u>
4.4.5.1 Buyers and Processors .....	<u>4-25</u>
4.4.5.2 Seafood Markets .....	<u>4-26</u>
4.4.6 Recreational Fishery .....	<u>4-26</u>
4.4.7 Tribal Fishery .....	<u>4-27</u>
4.4.8 Communities .....	<u>4-27</u>
4.5 Social Cost Benefit Analysis .....	<u>4-53</u>
4.5.1 Overall Approach .....	<u>4-53</u>
4.5.1.1 Cost-Benefit vs. Cost Effectiveness .....	<u>4-53</u>
4.5.1.2 Social vs. Private Cost Benefit Analyses .....	<u>4-53</u>
4.5.1.3 Quality of Results .....	<u>4-53</u>
4.5.2 Key Trade-Off for Analysis .....	<u>4-54</u>
4.5.2.1 Risk vs. Uncertainty .....	<u>4-54</u>
4.5.2.2 Risk and Probability .....	<u>4-54</u>
4.5.2.3 Outcomes (Costs and Benefits) .....	<u>4-54</u>
4.5.3 Factors Considered in Assessing Net Social Benefits .....	<u>4-55</u>
4.5.3.1 Producer Surplus .....	<u>4-55</u>
4.5.3.2 Consumer Surplus .....	<u>4-56</u>
4.5.4 Results Summary .....	<u>4-57</u>
4.5.4.1 Introduction .....	<u>4-57</u>
4.5.4.2 Impacts: Biomass and Harvest Levels .....	<u>4-57</u>
5.0 COMBINED EFFECTS ACROSS STOCKS AND CUMULATIVE EFFECTS .....	<u>5-1</u>
5.1 Cumulative Impacts to Habitat and the Ecosystem, Including Protected Species .....	<u>5-2</u>
5.1.1 Ecological Interactions .....	<u>5-2</u>
5.1.2 Interspecies Competition and Trophic Interactions .....	<u>5-3</u>
5.2 Cumulative Impacts to Overfished Species, Other Groundfish, and Nongroundfish Stocks .....	<u>5-4</u>
5.2.1 The <i>Maximum Conservation</i> Scenario .....	<u>5-4</u>
5.2.2 The <i>Maximum Harvest</i> Scenario .....	<u>5-4</u>
5.2.3 The <i>Council Interim</i> Scenario .....	<u>5-4</u>
5.2.4 The <i>Mixed Stock Exception</i> Scenario .....	<u>5-5</u>
5.2.5 The <i>MSY</i> Scenario .....	<u>5-5</u>
5.3 Cumulative Socioeconomic Impacts .....	<u>5-8</u>
5.3.1 Cumulative Impacts of Past Actions .....	<u>5-8</u>
5.3.2 Cumulative Impacts of Current Actions .....	<u>5-8</u>
5.3.2.1 Short Term .....	<u>5-8</u>
5.3.2.2 Intermediate .....	<u>5-9</u>
5.3.2.3 Long-term .....	<u>5-9</u>
5.3.3 Cumulative Impacts of Future Actions .....	<u>5-10</u>
6.0 SUMMARY OF ENVIRONMENTAL MANAGEMENT ISSUES .....	<u>6-1</u>
6.1 Short-term Uses Versus Long-term Productivity .....	<u>6-1</u>
6.2 Irreversible Resource Commitments .....	<u>6-2</u>
6.3 Irrecoverable Resource Commitments .....	<u>6-2</u>
6.4 Energy Requirements and Conservation Potential of the Alternatives .....	<u>6-2</u>
6.5 Urban Quality, Historic Resources, and the Design of the Built Environment .....	<u>6-3</u>
6.6 Possible Conflicts Between the Proposed Action and Other Plans and Policies For the Affected Area .....	<u>6-3</u>
6.7 Mitigation .....	<u>6-3</u>
6.8 Significant and Unavoidable Adverse Impacts .....	<u>6-4</u>

7.0	CONSISTENCY WITH THE GROUND FISH FMP AND MAGNUSON-STEVENSONS ACT	
	NATIONAL STANDARDS	<u>7-1</u>
7.1	FMP Goals and Objectives	<u>7-1</u>
7.2	National Standards	<u>7-3</u>
7.3	Other Applicable Magnuson-Stevens Act Provisions	<u>7-5</u>
8.0	CROSS-CUTTING MANDATES	<u>8-1</u>
8.1	Other Federal Laws	<u>8-1</u>
8.1.1	Coastal Zone Management Act	<u>8-1</u>
8.1.2	Endangered Species Act	<u>8-1</u>
8.1.3	Marine Mammal Protection Act	<u>8-1</u>
8.1.4	Migratory Bird Treaty Act	<u>8-2</u>
8.1.5	Paperwork Reduction Act	<u>8-2</u>
8.1.6	Regulatory Flexibility Act	<u>8-2</u>
8.2	Executive Orders	<u>8-2</u>
8.2.1	EO 12866 (Regulatory Impact Review)	<u>8-2</u>
8.2.2	EO 12898 Environmental Justice	<u>8-3</u>
8.2.3	EO 13132 (Federalism)	<u>8-4</u>
8.2.4	EO 13175 (Consultation and Coordination With Indian Tribal Government)	<u>8-5</u>
8.2.5	EO 13186 (Responsibilities of Federal Agencies to Protect Migratory Birds)	<u>8-5</u>
8.3	Regulatory Impact Review and Regulatory Flexibility Analysis	<u>8-5</u>
8.3.1	EO 12866 (Regulatory Impact Review)	<u>8-5</u>
8.3.2	Impacts on Small Entities (Regulatory Flexibility Act, RFA)	<u>8-8</u>
9.0	LIST OF PREPARERS	<u>9-1</u>
10.0	AGENCIES, ORGANIZATIONS, AND PERSONS TO WHOM COPIES OF THIS STATEMENT WERE SENT	<u>10-1</u>
11.0	LITERATURE CITED	<u>11-1</u>
12.0	RESPONSE TO COMMENTS	<u>12-1</u>
12.1	Bycatch of Overfished Species	<u>12-1</u>
12.2	Impacts on Habitat	<u>12-2</u>

Appendix B.	Rebuilding Analysis for Pacific Ocean Perch	<u>B-1</u>
Appendix C.	Rebuilding Analysis for Canary Rockfish	<u>C-1</u>
Appendix D.	Rebuilding Analysis for Lingcod	<u>D-1</u>
Appendix E.	FMP Amendment Language	<u>E-1</u>
INDEX		<u>Index-1</u>

## LIST OF TABLES

	<u>Page</u>
TABLE 1.3-1. Current parameter/target estimates specified for rebuilding darkblotched rockfish, Pacific ocean perch, canary rockfish, and lingcod . . . . .	1-10
TABLE 2.0-1. Strategic rebuilding parameters associated with darkblotched rockfish, Pacific ocean perch, canary rockfish, and lingcod rebuilding alternatives . . . . .	2-3
TABLE 3.1-1. Latitudinal and depth distributions of groundfish species (adults) managed under the Pacific Coast Groundfish Fishery Management Plan . . . . .	3-6
TABLE 3.2-1. Biological reference points for the overfished species subject to rebuilding plans evaluated in this EIS . . . . .	3-16
TABLE 3.2-2. Allocation of the rockfish species subject to rebuilding plans evaluated in this EIS in the reported foreign rockfish catch (mt) . . . . .	3-17
TABLE 3.2-3. Rockfish species found on the U.S. West Coast continental slope . . . . .	3-18
TABLE 3.2-4. Groundfish FMP species found on the U.S. West Coast continental shelf . . . . .	3-19
TABLE 3.2-5. Groundfish FMP species found on the U.S. West Coast in nearshore areas of the continental shelf . . . . .	3-20
TABLE 3.3-1. Management of commercial trawl groundfish regulations affecting the landings of darkblotched rockfish . . . . .	3-34
TABLE 3.3-2. Regulatory Actions including area closures regarding Pacific ocean perch since groundfish FMP implementation in 1982 . . . . .	3-36
TABLE 3.3-3. Canary rockfish limited entry trawl cumulative limits . . . . .	3-38
TABLE 3.3-4. History of canary rockfish recreational bag limits, 1995-2003 . . . . .	3-38
TABLE 3.3-5. Lingcod commercial trawl trip limits (pounds), 1995-2003 . . . . .	3-39
TABLE 3.3-6. History of lingcod minimum size limits and bag limits, 1995-2003 . . . . .	3-39
TABLE 3.3-7. A comparison of total mortality estimates (mt) of overfished groundfish species analyzed in the Hastie trawl bycatch model under management specifications and measures adopted for 2003 . . . . .	3-40
TABLE 3.3-8. Bycatch rates used in modeling trawl fishery bycatch of Pacific ocean perch for the 2003 season . . . . .	3-41
TABLE 3.3-9. Bycatch rates used in modeling trawl fishery bycatch of canary rockfish for the 2003 season . . . . .	3-43
TABLE 3.3-10. Bycatch rates used in modeling trawl fishery bycatch of lingcod for the 2003 season . . . . .	3-44

**LIST OF TABLES (continued)**

	<u>Page</u>
TABLE 3.3-11. Bycatch rates used in modeling trawl fishery bycatch of darkblotched rockfish for the 2003 season . . . . .	3-46
TABLE 3.4-1. Overview of domestic shoreside landings and at-sea deliveries (round weight mt) from West Coast . . . . .	3-91
TABLE 3.4-2. Overview of domestic shoreside landings and at-sea deliveries (total exvessel revenue in thousands of inflation adjusted [2001] dollars) from West Coast . . . . .	3-92
TABLE 3.4-3. Round weight by species and target fishery, 1998, north of Cape Mendocino . . . . .	3-93
TABLE 3.4-4. Round weight by species and target fishery, 1998, south of Cape Mendocino . . . . .	3-98
TABLE 3.4-5. Round weight by species and target fishery, 2000, north of Cape Mendocino . . . . .	3-103
TABLE 3.4-6. Round weight by species and target fishery, 2000, south of Cape Mendocino . . . . .	3-107
TABLE 3.4-7. Round weight by species and target fishery, 2002, north of Cape Mendocino . . . . .	3-112
TABLE 3.4-8. Round weight by species and target fishery, 2002, south of Cape Mendocino . . . . .	3-116
TABLE 3.4-9. Exvessel revenue by species and target fishery, 1998, north of Cape Mendocino . .	3-121
TABLE 3.4-10. Exvessel revenue by species and target fishery, 1998, south of Cape Mendocino . .	3-126
TABLE 3.4-11. Exvessel revenue of species and target fishery, 2002, north of Cape Mendocino . .	3-131
TABLE 3.4-12. Exvessel revenue by species and target fishery, 2002, south of Cape Mendocino . .	3-135
TABLE 3.4-13. Percent of trips in which the overfished species was taken, by target fishery, 1998, north of Cape Mendocino . . . . .	3-139
TABLE 3.4-14. Percent of trips in which the overfished species was taken, by target fishery, 1998, south of Cape Mendocino . . . . .	3-140
TABLE 3.4-15. Percent of trips in which the overfished species was taken, by target fishery, 2002, north of Cape Mendocino . . . . .	3-141
TABLE 3.4-16. Percent of trips in which the overfished species was taken, by target fishery, 2002, south of Cape Mendocino . . . . .	3-142
TABLE 3.4-17. Catch of overfished species (thousands of pounds) landed and taken as bycatch where bycatch estimates are available . . . . .	3-143
TABLE 3.4-18. Average revenue of target species per pound of overfished species, based on 1998 harvest complex exvessel revenues . . . . .	3-149
TABLE 3.4-19. Average revenue of target species per pound of overfished species, based on 2002 harvest complex exvessel revenues . . . . .	3-156

**LIST OF TABLES (continued)**

	<u>Page</u>
TABLE 3.4-20. Target species trip revenue per pound of overfished species landed and average price per pound of fish landed on the trip, 1998, 2002 .....	3-164
TABLE 3.4-21. Bycatch of overfished groundfish species in the West Coast Pacific whiting fishery, 1998 through 2001 .....	3-168
TABLE 3.4-22. Catch and bycatch in the gillnet fishery, 1996 through 2000, by depth strata, number of fish or number of pounds .....	3-169
TABLE 3.4-23. Summary of pink shrimp Log CPUE for south of Cape Mendocino .....	3-171
TABLE 3.4-24. Estimated bycatch (mt) of overfished groundfish fisheries in the Oregon pink shrimp trawl fishery with and without Bycatch Reduction Devices (BRDs) or fish excluders .....	3-172
TABLE 3.4-25. Incidental overfished groundfish landings (pounds) in non-Indian commercial salmon troll fisheries by salmon management area for 2000 and 2001 .....	3-173
TABLE 3.4-26. Expanded logbook data from the spot prawn trawl and trap fisheries south of Cape Mendocino, by depth strata, 1996 through 2000 .....	3-174
TABLE 3.4-27. Estimated bycatch of overfished groundfish species in spot prawn trawl and trap fisheries south of Cape Mendocino .....	3-175
TABLE 3.4-28. Summary of Ridgeback Prawn Trawl Log CPUE .....	3-176
TABLE 3.4-29. Expanded logbook data from the sea cucumber trawl fishery, by depth strata, 1996 through 2000 .....	3-177
TABLE 3.4-30. Catch and bycatch in the market squid fishery from vessel logbooks .....	3-178
TABLE 3.4-31. Annual coastwide and area participation in the highly migratory species gillnet fishery by open-access vessels, with associated groundfish on the same landing day, 1990 through 2001 .....	3-179
TABLE 3.4.-32. Annual coastwide and area participation in the highly migratory species seine fishery by open-access vessels, with associated groundfish on the same landing day .....	3-181
TABLE 3.4-33. Baseline OYs and landed catch for West Coast groundfish fisheries 1998 and 2002 .....	3-182
TABLE 3.4-34. Number of vessels by vessel primary port and species group for the base period ..	3-184
TABLE 3.4-35. Number of vessels by length class and fisheries category making landings of different species groups caught in different INPFC areas .....	3-187
TABLE 3.4-36. Share of total exvessel revenue derived from landings of the designated species group caught in different INPFC areas for vessels .....	3-190

**LIST OF TABLES (continued)**

	<u>Page</u>
TABLE 3.4-37. Number of buyers and groundfish buyers <sup>a/</sup> on the West Coast in the year 2000 . . .	3-193
TABLE 3.4-38. Value of purchases (\$1,000) by West Coast buyers (groundfish and nongroundfish) in the year 2000 . . . . .	3-193
TABLE 3.4-39. Groundfish buyers' expenditures on all species and groundfish (\$1,000) in the year 2000 . . . . .	3-194
TABLE 3.4-40. Number of buyers by amounts of purchases and proportions of purchases that are groundfish from trawl vessels and from nontrawl vessels in the year 2000 . . . . .	3-195
TABLE 3.4-41. Number buyers (groundfish and nongroundfish) by number of months of buying and exvessel value of purchases in the year 2000 . . . . .	3-196
TABLE 3.4-42. Number of groundfish buyers <sup>a/</sup> by seasonality of activity and amounts of purchases (exvessel value) for the year 2000 . . . . .	3-197
TABLE 3.4-43. Number of processors/buyers by primary port for the base period . . . . .	3-198
TABLE 3.4-44. Number of buyers/processors in each port <sup>area/</sup> by purchase value of raw product (exvessel value) for the base period . . . . .	3-202
TABLE 3.4-45. Number of buyers buying fish caught by the indicated fleet segment from the indicated INPFC area, by species groups and processor's total purchases . . . . .	3-203
TABLE 3.4-46. For buyers of the indicated size (based on purchases) buying the indicated species from the indicated fleet, the percent of those buyers total revenue from the indicated INPFC area . . . . .	3-206
TABLE 3.4-47. Estimated recreational catch in ocean waters by subregion and type of boat (mt) . . . . .	3-209
TABLE 3.4-48. Effort, personal income, and jobs related to the recreational ocean fisheries off Washington, Oregon, and California in 2001 . . . . .	3-210
TABLE 3.4-49. Historical West Coast groundfish catch in ocean areas by tribal fleet for years 1995 through 2001 . . . . .	3-211
TABLE 3.4-50. Historical West Coast groundfish catch in ocean areas by tribal fleet for years 1995 through 2001 . . . . .	3-212
TABLE 3.4-51. Bycatch of groundfish species in Makah trawl and troll fisheries in 2000, 2001, and 2002 . . . . .	3-213
TABLE 3.4-52. Bycatch of groundfish species in tribal longline fisheries in 2000, 2001, and 2002 . . . . .	3-214
TABLE 3.4-53. Local income impacts associated with commercial fishery landings by major port area for 1998 . . . . .	3-216

**LIST OF TABLES (continued)**

TABLE 3.4-54. Estimated exvessel revenue and income* from commercial fishing by major port area in 2000 through 2001 and 2003 .....	3-218
TABLE 3.4-55. Income and employment from commercial fishing activities by port area .....	3-220
TABLE 3.4-56. Coastal counties social profile .....	3-221
TABLE 4.0-1. Ranked relative effects of rebuilding alternatives on potential negative habitat impacts, the probability of rebuilding by $T_{MAX}$ ( $P_{MAX}$ ), and short-term economic costs .....	4-1
TABLE 4.2-1. Estimated harvest levels under the <i>Mixed Stock Exception</i> alternative for sustaining the spawning stock biomass of canary rockfish on the U.S. West Coast under different likelihoods .....	4-8
TABLE 4.3-1. Depth-based restrictions used to manage the West Coast groundfish fishery in 2003 .....	4-14
TABLE 4.4-1. Projected total catch optimum yields for Darkblotched Rockfish under different rebuilding probabilities and the default 40-10 policy. ....	4-29
TABLE 4.4-2. Present values of projected darkblotched rockfish OYs under different rebuilding probabilities and the default 40-10 policy assuming a 5% annual discount rate and a constant 50¢ per pound average exvessel price for rockfish ....	4-30
TABLE 4.4-3. Projected total catch optimum yields for canary rockfish under different rebuilding probabilities and the default 40-10 policy. Actual catches shown for 1998 through 2001 .....	4-31
TABLE 4.4-4. Present values of projected canary rockfish OYs under different rebuilding probabilities and the default 40-10 policy assuming a 5% annual discount rate and a constant 50¢ per pound average exvessel price for rockfish .....	4-32
TABLE 4.4-5. Projected total catch optimum yields (mt) for Pacific ocean perch under different rebuilding probabilities and the default 40-10 policy .....	4-33
TABLE 4.4-6. Present values of projected Pacific ocean perch OYs under different rebuilding probabilities and the default 40-10 policy assuming a 5% annual discount rate and a constant 50¢ per lb average exvessel price for rockfish .....	4-34
TABLE 4.4-7. Projected total catch optimum yields for lingcod under different rebuilding probabilities and the default 40-10 policy .....	4-35
TABLE 4.4-8. Present values of projected lingcod OYs under different rebuilding probabilities and the default 40-10 policy assuming a 5% annual discount rate and a constant 50¢ per lb average exvessel price for rockfish .....	4-35
TABLE 4.4-9. Catch and/or landed catch of darkblotched rockfish and exvessel revenue by trip target type .....	4-36
