

GROUND FISH ADVISORY SUBPANEL COMMENTS ON
CONSISTENCY OF CALIFORNIA ROCKFISH SIZE LIMITS WITH GROUND FISH PLAN

The Groundfish Advisory Subpanel (GAP) received a presentation on California groundfish regulations from Mr. Tom Barnes of California Department of Fish and Game. Mr. Barnes provided detailed information on how California's regulations complied with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Based on this information, the GAP believes California's groundfish regulations are consistent with the Magnuson-Stevens Act and the Pacific groundfish FMP, and the GAP recommends the Council make that determination.
