

**Tribal Harvest Projections for 2002**

TABLE 2. Tribal fishery groundfish catch projections (except whiting) for 2002.

Stock	Projected catch (mts)	Comment
canary rockfish	2.5 mt	All tribes
darkblotched rockfish	Prob. minimal	Need better spp. comp. from sampling
lingcod	4-5 mt	All tribes
Minor nearshore rockfish	2 mt	All tribes
Minor shelf rockfish a/	4 mt	All tribes
Minor slope rockfish	4 mt	All tribes
Pacific ocean perch	Trace	
Shortspine thornyhead	1 mt	All tribes
widow rockfish	27 mt	All tribes b/
yelloweye rockfish	1-1.5 mt	All tribes- high end of range unlikely
yellowtail rockfish	300 mt	All tribes

a/ Excludes canary and yelloweye.

b/ June-July 2001 closed, but expected to be open in 2002. Projection factors this in.

The tribes provided updated harvest projections for proposed tribal groundfish fisheries in 2002 (Table 2). These projections are based on the proposed trip limits and seasons proposed to the Council by the tribes on November 1, 2001 (Exhibit C.4, Supplemental Treaty Indian Harvest Levels).
