

## IDENTIFICATION OF MANAGEMENT OBJECTIVES AND PRELIMINARY DEFINITION OF 2002 OPTIONS

**Situation:** Using the Salmon Advisory Subpanel (SAS) management recommendations as a base, the Council should identify the range of management elements in the options for public review (harvest ranges, special restrictions, and basic season structure). The Salmon Technical Team (STT) will attempt to collate the Council's identified management elements into coordinated coastwide options. The collated options will be returned to the Council for review and any further direction on Wednesday, March 13, 2002 followed by STT analysis and final adoption of the options on Friday, March 15, 2002. Exhibit B.5, Attachment 1 provides guidance for developing and assessing the options.

Before defining the options, the Council should be briefed on any pertinent management constraints resulting from: actions by the Pacific Salmon Commission, recommendations of the Klamath Fishery Management Council, and action by the California Fish and Game Commission to set the allocation of Klamath River fall chinook for the inside recreational fishery and constraints for stocks listed under the Endangered Species Act.

Any option considered for adoption which deviates from fishery management plan (FMP) objectives will require implementation by emergency rule. If an emergency rule appears to be necessary, the Council must clearly identify and justify the need for such an action consistent with emergency criteria established by the Council (Exhibit B.5, Attachment 2).

### **Council Task:**

- 1. Using the SAS proposals and other agency and public input, define basic management elements and alternatives for STT collation into coastwide management options.**

### **Reference Materials:**

1. Guidance for Option Development and Assessment (Exhibit B.5, Attachment 1).
2. Emergency Changes to the Salmon FMP (Exhibit B.5, Attachment 2).
3. Integration of Management in Ocean and Columbia River Fisheries in 2002 to Meet Conservation Requirements for Oregon Coastal Natural and Lower Columbia River Wild Coho Salmon (Exhibit B.5.g, ODFW Recommendations).
4. Public Comment (Exhibit B.5.i).
5. SAS Proposed Initial Salmon Management Options for 2002 Non-Indian Ocean Fisheries (Exhibit B.5.h, Supplemental SAS Report).

### **Agenda Order:**

- |                                                                         |                                 |
|-------------------------------------------------------------------------|---------------------------------|
| a. Agendum Overview                                                     | Chuck Tracy                     |
| b. Report from the Pacific Salmon Commission                            | B. Bohn/J. Harp                 |
| c. Report of the Klamath Fishery Management Council (KFMC)              | Dan Viele                       |
| d. Report of the California Fish and Game Commission                    | Bob Treanor                     |
| e. NMFS Recommendations                                                 | Bill Robinson                   |
| f. Tribal Recommendations                                               | Jim Harp                        |
| g. State Recommendations                                                | P. Anderson/B. Bohn/LB Boydston |
| h. Reports and Comments of Advisory Bodies                              |                                 |
| i. Public Comment                                                       |                                 |
| j. Council Recommends Initial Options for STT Collation and Description |                                 |
