

**Economic Impact of Loss of or Severe Cuts in  
Commercial and Charter Ground Fishing**

The Embarcadero Resort Hotel & Marina estimates 1,650 occupied rooms would be lost to the Resort with severe cuts or complete stoppage of ground fishing. This would further impact the restaurant with local fishing families no longer being able to have a night out, come for Sunday brunch, or have banquets. In addition, the transient tourist who does charter fishing would not be dining either, nor would some of the groups come who focus on fishing as their extracurricular activity.

**Economic Impact:**

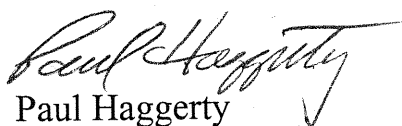

Lost Rooms occupied	1,650
Lost Room Revenue	\$ 206,250
Lost Room Tax to City	\$ 14,437
Lost Food Revenue	\$ 75,000
Lost Beverage Revenue	\$ 32,000
Lost Trade in Store	\$ 6,000

Jobs lost - one cook, two room cleaner, one desk clerk, one  
restaurant host, one dishwasher  
Payroll lost is..... \$ 88,200

Total Economic Loss \$ 421,887

Quite an impact to what you know will devastate the economy of Newport, Lincoln County, the Oregon Coast, Oregon, the Northwest, and the West Coast. It is obvious the disaster ahead and the many who will suffer.

Respectfully Submitted:
