

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL REPORT ON
PLANNING SESSION ON ENHANCING COMMUNICATION WITH FISHING COMMUNITIES

The Coastal Pelagic Species Advisory Subpanel (CPSAS) heard a presentation from Ms. Jennifer Gilden on the report "An Investment in Trust." The CPSAS unanimously agrees that communications between fisheries managers and the fishing industry are critically important. The CPSAS is pleased the Council is working in this important area and supports any efforts by the Council to improve communications between managers and the industry, including allocating funds to distribute additional copies of the report "An Investment in Trust."
