

# Observer Data Flow 2004

	January	February	March	April	May	June	July	August	September	October	November	December
<b>Trawl</b>	Report available for year-2 data 1/30								Debrief 9/03-8/04 data			
	Conduct evaluation of representativeness of year-2 data, using fishtickets			Recommendations for data stratification and modeling are made, in conjunction with preliminary '05-'06 mgmt. measures		Final analysis of 2005-'06 measures, based on the updated model and data, is presented to the Council				Reconcile observer data with fishtickets		
	Revise trawl model, as necessary										Internal review of bycatch data and model design	
<b>Fixed Gear</b>		GMT receives overview of fixed gear modeling	Recommendations are made for discard/bycatch accounting in the 2004 primary sablefish fishery	Model revisions are made, as necessary to address SSC comments, before final modeling of 2005-'06 management measures begins							Debrief 11/03-10/04 data	Reconcile observer data with fishtickets

# Observer Data Flow 2005

	January	February	March	April	May	June	July	August	September	October	November	December
<b>Trawl</b>	Report available for year-3 data	Conduct evaluation of representativeness of year-3 data, using fishtickets Revise existing bycatch models, as necessary	SSC is briefed on bycatch rate and modeling developments	Recommendations for changes in data stratification and modeling are made, as necessary, for 2005 inseason tracking					Debrief 9/04 8/05 data	Reconcile observer data with fishtickets	Internal review of bycatch data and model design	
<b>Fixed Gear</b>	If possible GMT receives overview of bycatch rate and modeling changes	SSC is briefed on bycatch rate and modeling developments									Debrief 11/04-10/05 data	Reconcile observer data with fishtickets
<b>Open Access</b>	Dependent on data availability, develop model for estimating bycatch in the open access fishery											

Presentation of data and modeling results

Debrief 9/04-6/05 data
