a/ All non-Treaty coho fisheries are mark selective

b/ Treaty troll effort is reported as landings.

c/ Numbers shown as chinook quotas for non-Indian troll and recreational fisheries North of Falcon are guidelines rather than quotas.

Only the total chinook allowable catch is a quota.

d/ The 800 chinook guideline is included in the 40,000 chinook guideline for the May/June opening.

e/ The 32,400 quota includes the preseason quota of 24,400 plus 3,000 remaining from the May/June opening and 5,000 chinook transferred from the recreational guideline for the Cape Falcon to Leadbetter Point area.

f/ 5,000 chinook from the preseason guideline of 12,700 for the Cape Falcon to Leadbetter Point recreational fishery were transferred to the north of Cape Falcon commercial non-Indian troll fishery, leaving 7,700 in the guideline.
