

ADOPTION OF 2005-06 MANAGEMENT ALTERNATIVES FOR PUBLIC REVIEW

Situation: This is the final step of three at this meeting (C.10 and C.14 being the other two) in the process to adopt a range of 2005-2006 groundfish management measure alternatives that will be fully analyzed in a Draft Environmental Impact Statement (DEIS). The adopted process and schedule for finalizing 2005-2006 management recommendations calls for a draft DEIS to be distributed in late May for public review and used to base final Council decision-making at the June Council meeting. The GMT and GAP are expected to recommend management measure alternatives with accompanying analyses intended to estimate resulting mortalities of groundfish stocks and complexes. The objective of these management measure alternatives is to meet, but not exceed the alternative harvest levels decided under agenda C.8. The Council task under this agenda is to adopt 2005-2006 management measure alternatives for formal analysis and public review.

Council Action:

- 1. Adopt 2005-2006 management measure alternatives for public review.**

References:

None.

Agenda Order:

- Agendum Overview
- GMT Analysis of Impacts
- Reports and Comments of Advisory Bodies
- Public Comments
- Council Action:** Adopt Management Alternatives for Public Review
