

SCIENTIFIC AND STATISTICAL COMMITTEE REPORT ON
SALMON METHODOLOGY REVIEW

The Scientific and Statistical Committee (SSC) met with Mr. Andy Rankis and other members of the Model Evaluation Workgroup (MEW) to identify items for review by the SSC Salmon Subcommittee at its October meeting. The following items were identified as ready for review:

- Chinook and Coho Fishery Regulation Assessment Model (FRAM) Documentation. The MEW indicated that the FRAM Overview document that was submitted previously has been updated. This update includes the addition of some previously undocumented model equations.
- Documentation of the base data development process for Chinook FRAM.
- Documentation of the base data development process for Coho FRAM.
- Ocean abundance predictor methodologies for Columbia River Fall Chinook salmon.

The SSC Salmon Subcommittee will review these products in October prior to the to the full SSC meeting in November.
