Move that the Council adopt the revised stock assessment schedule shown as Agenda Item F.3.b, Supplemental Revised Attachment 1, and that the Council adopt the revised STAR Panel Terms of Reference (Agenda Item F.3.c Supplemental Attachment 2) with the following changes:

adopt the recommendations on NMFS responsibilities, STAT Team identification of data sources, and GMT and GAP responsibilities as referenced in the Supplemental GMT Report (Agenda Item F.3.d);

on page 8, modify the Terms of Reference so that the number of reviewers on a STAR Panel will be set at 3, unless extenuating circumstances such as inclusion of a large number of assessments in a single STAR Panel session require more than 3 reviewers.
