### **Where to Go for Recreational/Commercial Nearshore Information**

#### **Chapter 2**

##### Description of Action Alternatives (Proposed Management Measures)

- No Action Alternative (pages 30-60)
  - Table 2-5 (p. 31) – Scorecard for No Action Alternative (Note: For recreational fisheries, for canary and yelloweye, the harvest guidelines are listed)
  - Management Measures
    - Washington Sport (p.51)
    - Oregon Sport (p. 54)
    - California Sport (p. 57)
    - Oregon/N. California Commercial Nearshore (p. 48)
    - California Commercial Nearshore (p.50)
- Action Alternative 1 (most restrictive) (pages 60-75)
  - Table 2-14 (p. 61) – Scorecard for Action Alternative 1
  - Management Measures
    - Washington Sport (p.72)
    - Oregon Sport (p. 72)
    - California Sport (p. 73)
    - Oregon/N. California Commercial Nearshore (p. 70)
    - California Commercial Nearshore (p.70)
- Action Alternative 2 (moderately restrictive) (pages 75-84)
  - Table 2-19 (p. 77) – Scorecard for Action Alternative 2
  - Management Measures
    - Washington Sport (p.81)
    - Oregon Sport (p. 81)
    - California Sport (p. 82)
    - Oregon/N. California Commercial Nearshore (p. 80)
    - California Commercial Nearshore (p.80)
- Action Alternative 3 (least restrictive) (pages 84-92)
  - Table 2-21 (p. 86) – Scorecard for Action Alternative 3
  - Management Measures
    - Washington Sport (p.89)
    - Oregon Sport (p. 89)
    - California Sport (p. 90)
    - Oregon/N. California Commercial Nearshore (p. 88)
    - California Commercial Nearshore (p.88)

## Description of Estimated Impacts for Action Alternatives

## **Chapter 4**

### Recreational Harvest Guidelines/Targets

- Table 4-43 (p. 133) – Scorecard with canary OY = 44 mt; with yelloweye ramp-down; apply 2006 catch sharing
- Table 4-44 (p. 134) – Scorecard with canary OY = 44 mt; with yelloweye ramp-down; apply 2005 actual catches for sharing
- Table 4-45 (p. 136) – Scorecard with canary OY = 32 mt; with yelloweye OY = 12.6 mt; apply 2006 catch sharing
- Table 4-46 (p. 137) – Scorecard with canary OY = 32 mt; with yelloweye OY = 12.6 mt; apply 2005 actual catches for sharing
- Tables 4-47 (p. 139) and 4-48 (p. 140) – Scorecards allocate all harvest to recreational
- Tables 4-49 (p. 141) and 4-50 (p. 142) – Scorecards allocate all harvest to commercial

### Estimated Impacts of Status Quo and Action Alternatives for Recreational Fisheries

- Table 4-59 (p. 152) Washington recreational fishery impacts for canary and yelloweye
- Table 4-60 (p. 153) Oregon recreational fishery impacts for canary, yelloweye and widow and target species impacts
- Table 4-61 (p. 154) California recreational fishery impacts for depleted species (NOTE: There are harvest guidelines listed for canary and yelloweye for the No Action alternative)

### Estimated Impacts of Status Quo and Action Alternatives for Commercial Nearshore Fisheries

- Table 4-57 (p. 151) Commercial nearshore fishery impacts for canary and yelloweye and target species
