

PROPOSED AGENDA

Ad Hoc Groundfish Trawl Individual Quota Committee

Pacific Fishery Management Council
Alexandria II and III Room
Crowne Plaza Hotel
1221 Chess Drive
Foster City, CA 94404
650-570-5700

SUNDAY, JUNE 11, 2006 - 1 P.M.

A. *Call to Order* Dorothy Lowman, Acting Chair
1. Approve Agenda (1 P.M.)

B. *Review Individual Fishing Quota (IFQ) Project Status* (1:20 P.M.) Jim Seger

C. *Review Issues Related to Alternatives*

1. Reorganization of the Management Regime Alternatives (1:30 P.M.)

Working with Northern Economics, Inc. (NEI), the staff has recommended for consideration some reorganization of the management regime alternatives to facilitate more efficient analysis. This reorganization is explained in Agenda Item F.3.a, Attachment 2 of the briefing book. The reorganization involved moving some provisions from one alternative to another. The Ad Hoc Groundfish Trawl Individual Quota Committee (TIQC) should review the proposed reorganization and provide comments to the Council.

2. Processor definition and qualification for IFQ initial allocation (2:15 P.M.)

The definition of processor and processing history needs some additional clarification, as indicated in Agenda Item F.3.a, Attachment 2 of the briefing book. Additionally, in order to proceed with the analysis, the documentation that would be used for an initial allocation of processing history needs to be specifically identified. Until this is done, it will be difficult to proceed with an analysis of alternatives that allocate to processors.

BREAK (3 P.M.)

3. Reorganization of the IFQ program Alternatives (3:15 P.M.)

The staff has recommended for consideration some reorganization of the IFQ program alternatives to facilitate more efficient analysis. This reorganization is explained in Agenda Item F.3.a, Attachment 2 of the briefing book. The reorganization involved moving some provisions from one alternative to another. The committee should review the reorganization and provide comments to the Council.

4. Review Provisions of Management Regime Alternatives (4 P.M.)

Working with NEI, the staff has restructured the management regime alternatives and reworded some of the text to clarify the interrelationship of various provisions. The TIQC should review the provisions to ensure the original intent is met. Additionally, in the course of restructuring the alternatives, a number of areas were identified in which some additional guidance is needed to fully specify the alternatives. The areas where additional guidance is needed are highlighted by shaded text (Tables 2-1 and 2-3, Agenda Item F.3.b, Stage I Draft Analysis). In some cases, the shaded text includes recommended modifications. In other cases the shaded text indicates areas where some attention is needed and additional explanation will be provided by Council staff during the meeting.

DINNER BREAK (6:30 P.M.)

C. *Review Workshop Report* (8:30 P.M.)

The workshop report (Agenda Item F.3.b, Workshop Report) has been provided to the Council. While there is no Council action scheduled directly related to the workshop report, the TIQC may want to review the report and provide comments.

D. *Review Summary of Comments to be Provided to the Council* (9 P.M.)

During the dinner break a draft of the comments will be summarized and a draft provided for TIQC committee review.
