GENERAL MANAGEMENT ACTIONS AND INSEASON CONFERENCES

Mar. 1	National Marine Fisheries Service (NMFS) provides the Council with a letter outlining the 2007 management guidance for stocks listed under the Endangered Species Act (ESA).
Mar. 8	Council recommends first inseason adjustments for: <ol style="list-style-type: none">1. Commercial fisheries between Cape Falcon and the Oregon/California border to be closed March 15 through April 9 and on April 30; landing limit of no more than 100 Chinook per vessel per calendar week in April.2. Commercial fishery between Horse Mt. and Point Arena to be closed March 15 to April 8 and April 28-30; fishery open Monday to Friday, April 9 through the earlier of April 27 of a 2,000 Chinook quota with a landing limit of no more than 20 Chinook per vessel per day, all fish caught in the area must be landed in the area, and all fish must be offloaded within 24 hours of any closure. . New regulations take effect May 1, 2007.
Mar. 9	Council adopts three commercial and recreational ocean salmon fishery management options for public review.
Mar. 13	North of Cape Falcon salmon forum meets in Lacey, Washington to initiate consideration of recommendations for treaty Indian and non-Indian salmon management options.
Mar. 26-27	Council holds public hearings on proposed 2007 management options in Westport, Washington, Coos Bay, Oregon, and Santa Rosa, California.
Mar. 27	North of Cape Falcon salmon forum meets in Lynnwood, Washington to further consider recommendations for treaty Indian and non-Indian salmon management options.
Apr. 5	Council adopts final ocean salmon fishery management recommendations for approval and implementation by the U.S. Secretary of Commerce. The proposed measures comply with the salmon fishery management plan (FMP) and the current biological opinions for listed species. An emergency rule is not required for implementation.
Apr. 20	NMFS inseason conference number two results in increasing the landing limit from 20 Chinook to 30 Chinook per vessel per day in the Horse Mt. to Point Arena commercial all salmon except coho fishery effective April 23 as only 164 fish had been caught to date on the 2,000 Chinook quota.
Apr. 27	NMFS inseason conference number three results in no change to the Horse Mt. to Point Arena commercial all salmon except coho fishery. Only 635 Chinook were caught on the 2,000 Chinook quota, however additional sampling crews would not be available to monitor the fishery through April 30.
May 1	Ocean salmon seasons implemented as recommended by the Council and published in the <i>Federal Register</i> on May 3 (72 FR 24539).
June 21	NMFS inseason conference number four results in changing the U.S./Canada border to Cape Falcon, non-Indian commercial all-salmon-except-coho fishery landing limit from 60 Chinook to 50 Chinook per vessel per open period in the area north of Leadbetter Point, effective June 23 to 26. The fishery then closes through June 30, and reopens July 1 for the all species fishery.
July 19	NMFS inseason conference number five results in no change to the Humbug Mt. to OR/CA border commercial all salmon except coho fishery, as the quota of 1,600 Chinook was projected not to be reached by July 23.
July 23	NMFS inseason conference number six results in no change to the Humbug Mt. to OR/CA border commercial all salmon except coho fishery, as the quota of 1,600 Chinook was projected not to be reached by July 27.
