Honorable Rep.Jean Cowan
and All Members of he Oregon State Legislature:
:

I am writing in response to HB 3609 and any other
BILLS that destroys Oregon's FREEDOM. There are many
provisions in it that I MAY agree with and Possibly
will totally support. But there is one that is a
"ringer."

How BIG are the "only nine" marine reserves going to
be? If they are relatively small, then perhaps they
can be arranged to not damage the local economy, allow
for the local counties to participate in their
control, let people feed themselves (like myself To
keep my Dignity) and not block our access to any part
and use of our Oregon Ocean. If they are too big then
they will be a disaster. Further, I would add, there
no should be no access fee's at all to the ocean, the
reserves and to walking and Fish on any beach out to
the one mile line.

I think the approach this bill takes is deceitful and
therefore shameful. The bill should expressly state
the maximum size of the reserves or the maximum size
of their total ocean acreage. Without that, it is
asking us to buy the classic pig-in-a-poke. (Attempt in
claiming our Constitutional Born Rights to use our
public land)

Another point worth noting is that there may be a
prohibition of beach use off these reserves. That
would, of courts, violate the spirit and letter of
Tom McCall's guarantee of the Oregon Coast beaches for
Oregonians to use and enjoy. It would also impair the
ability of elderly, ill and disabled Oregonians to use
and enjoy the beach as part of their physical ad
personal therapy. I believe you are now head of the
committee that has jurisdiction over services to, and
maintenance of the independence of, seniors and the
disabled. Isn't there a conflict between your duties

as head of that committee to the elderly an disabled,
and a program of exclusion from the Oregon Coast
beaches?

Finally, I want to suggest that if the reserves do not
begin to show A Real measurable benefits to the ocean
ecosystem, the fisheries(Public And Commercial) or to
the local economies, Lets say, five or ten years,
their continued status as reserves should be put up
for a vote of the people of Oregon Coast.(YEA OR NAY)
If the reserves produces measurable benefits, great;
if not, how about letting the people decide if they
wish to continue their existence and Finical burden?

"Please lets not forget you took a Constitutional OTHA
to Protect Legal Americans "

YOU HAVE TO ASK AS WELL TO PROTECT OUR FAMILY'S AND
Small BUSINESS Constitutional rights, And keep them
working, Because ODFW OSU, Oregon state parks an
associates are going to bankrupt our communities

Re: Marine Reserves and the Oregon State Beaches

Dear Ms. Burke and Ms. Goblirsch:

Based on comments that both of you made at the Marine
Reserves forum held in Newport City Hall on or about
Feb. 21 I want to ask you both to answer a very simple
question. Is it your plan or intention, or that of
others above you in the marine reserves plan for
Oregon, to exclude the public from the public Oregon
beaches, Head to Tidewaters, Bays, in part or in
whole, permanently or temporarily, as a result of or
in connection with, the creation of any Oregon marine
reserves, marine preserves or marine state parks?
Also we would have to buy special lures made for OSU
and ODFW. "No more God or mother nature's bait". For
example sand shrimp, mussels, clams, Worms, small
fish, etc, MADE BUY <GOD>
Not buy any Public agency's.
The agency's maneges people.
God and or Mother nature manges the oceans
They have failed in the jobs to the taxpayers.

Please read
http://oregontrackers.com/Evolution_of_ODFW.html

If your answer is in any way "yes" please also explain
how you plan to compensate the legal Americans of
Oregon for this exclusion and loss of access to
resources and loss of constitutional BORN rights? If

you disagree that this involves a loss of constitutional rights, please answer the rest of the question anyway.

For Example lets say.,
I'm not saying this is This is a FACT AT ALL.
This is "HEAR SAY"

President OSU will have the rights to sell Could sell any{Let say it turns in to Concessions), "AKA reserved " for research"

as well 10% from any sales to the president of any universities,He or she sees fit to sell any concessions.The Governor as well Senate And House an taxpayer have no say in any proposes of the presidents actions.This is the WAVE ENERGY way(We can eliminate this tax burden), to pay OSU to control our OREGON coastal Communities."No American FREEDOM" Today we have NO SAY AT ANY PUBLIC MEETINGS Just dog and pony shows,State Police and local informant Protection at taxpayers expenses to keep Americans from using their Birth Rights.{I would to Apologies to the State Police and local enforcement that you might have to turn on thy Neighbor and families(this is scary divide and Concord).Lets Not forget the Cruise Ships industry and what else I may have forgotten.

Please have the courtesy to reply simply and straight-forwardly.
As of march 17 2007 no response.

How about March 30 2008 beach Bonn-fire party;s from border to border to celebrate are FREEDOM to use are coast line.

Sincerely

Edward Johnston.
