

**Motion by Dale Myer: With regard to inseason management, I move the following:**

- 1. The Council adopt the following redistribution of the canary rockfish that the GMT identified is available (4.1 mt):**

**4.1 mt**  
**- 0.4 mt** to reopen the non-whiting bottom trawl fishery between 60 fms  
and 75 fms

**3.7 mt**  
**- 2.0 mt** to reopen the primary whiting fishery

**1.7 mt** remaining residual in the scorecard

- 2. Relative to the 2.0 mt canary for the whiting fishery, specify that the whiting fishery is to reopen as soon as possible with a bycatch cap of 1.7 mt. An additional 0.3 mt would be subsequently released, through an automatic action by NMFS, two weeks later, but not later than November 1, 2008. If the 1.7 mt cap is not reached, any remaining canary would rollover to be added to the 0.3 mt. In all cases, the canary rockfish bycatch in the whiting fishery would not exceed 2.0 mt.**
- 3. This action would not directly affect a long-term allocation of canary rockfish.**

**Amendment by Rod Moore:**

**Add 12 mt of widow to existing whiting bycatch cap of 275 mt for a new cap of 287 mt**
