

SCIENTIFIC AND STATISTICAL COMMITTEE REPORT  
ON FMP AMENDMENT 20 – TRAWL RATIONALIZATION – COMMUNITY FISHERY  
ASSOCIATION (CFA) AND MISCELLANEOUS CLARIFICATION ISSUES

The Scientific and Statistical Committee (SSC) was briefed by Mr. Merrick Burden and Ms. Heather Brandon on consideration being given to higher accumulation limits for community fishery associations (CFAs) as part of trawl rationalization. The SSC notes the need for clear goals and objectives to inform the analysis of this provision and for tightly specified qualification requirements consistent with the objectives.
