

Pacific Fishery Management Council Hosting Special Evening Presentations at Their September Meeting

Monday, September 10 at 7:00 pm

GROUND FISH STOCK ASSESSMENT PRESENTATION

Lead authors will provide a brief overview of results of new full assessments for **black rockfish** (off Washington), **chilipepper rockfish**, **darkblotched rockfish**, **cowcod**, **canary rockfish**, and **arrowtooth flounder**, and an updated assessment for **bocaccio**. These will be considered for Council adoption on Thursday, September 13 to be used as the basis for management decisions in 2009-2010.

Pacific Council members, advisors, and other attendees will have an opportunity to pose questions to the assessment authors regarding each of these assessments.

Wednesday, September 12 at 7:00 pm

Olympic Coast National Marine Sanctuary Presentation: DEEP SEA CORALS AND SPONGES OFF THE WASHINGTON COAST

OCNMS Research Coordinator, Ed Bowlby, will give a presentation on deep sea coral and sponges recently surveyed off the Washington coast. The presentation will feature recent photos and videos of:

- o colorful soft corals (gorgonians)
- o a stony coral (*Lophelia*) more commonly found in the North Atlantic
- o rockfish and invertebrates associated with corals
- o evidence of human-caused disturbance to deep sea corals and sponges

These coral and sponge communities were observed within and outside EFH Conservation Area 'Olympic 2', which was closed to bottom trawling in June 2006. A report on these observations was published in July and will be distributed to Council members.

***Both presentations will be held in the Sisters/Bachelor/Hood Ballroom,
Doubletree Hotel Portland Lloyd Center
1000 NE Multnomah Street, Portland, Oregon***
