

LEGISLATIVE MATTERS

The Pacific Fishery Management Council's (Council's) Legislative Committee (Committee) is scheduled to meet Friday, April 9th at 1:00 p.m. to review a variety of legislative matters of interest to the Council. Council staff has provided a summary of legislation introduced in the 111th U.S. Congress of potential interest to the Council and on the Committee's April agenda (Agenda Item K.1.a, Attachment 1).

Among the bills to be discussed is H.R. 4363, the *National Sustainable Offshore Aquaculture Act of 2009* introduced in the U.S. House to establish a regulatory system and research program for sustainable offshore aquaculture in the United States Exclusive Economic Zone, and for other purposes. The Council and the Committee comments on previous bills pertaining to offshore aquaculture have focused on ensuring the ability of the coastal States to "opt-out" of offshore aquaculture activities off their coastlines and in assuring that appropriate environmental reviews are conducted and research and monitoring plans developed prior to the permitting of any proposed aquaculture activities. The Committee is scheduled to focus a considerable portion of their meeting time to this issue and make recommendations to the Council.

The Committee is also anticipated to review S. 2870, the *International Fisheries Stewardship and Enforcement Act* introduced in the U.S. Senate to establish uniform administrative and enforcement procedures and penalties for the enforcement of the High Seas Driftnet Fishing Moratorium Protection Act and similar statutes. Of particular interest to the Council, S.2870 would ratify the Antigua Convention. The Inter-American Tropical Tuna Commission (IATTC) adopted and the U.S. is signatory to the Antigua Convention, but it cannot be fully implemented without U.S. ratification and implementing Federal legislation.

In March, the Committee recommended that the Council's Highly Migratory Species (HMS) Advisory Bodies review this legislation. Central to the previous concerns of the Committee and the Highly Migratory Species (HMS) Advisory Bodies is the membership of the U.S. Delegation and Advisory Bodies to the IATTC and the funding and legal status of such representatives when travelling on IATTC business. S. 2870 includes amendatory language to Title V of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 concerning U.S. representation to the Western and Central Pacific Fisheries Commission and similar language is included in the bill under the implementation the Antigua Convention.

As time allows, the Committee may discuss other Federal legislation of interest to the Council.

STAFF SUMMARY OF FEDERAL LEGISLATION IN THE 111TH U.S. CONGRESS ON
THE LEGISLATIVE COMMITTEE AGENDA

This summary is intended as a general overview for discussion purposes. Full text of these bills, additional summary and background information, and current status can be found by entering the bill number in the search engine at the THOMAS web site of the Library of Congress (<http://thomas.loc.gov>). Portions of this report are derived from summaries provided by the Congressional Research Service of the Library of Congress.

H.R. 4363 - National Sustainable Offshore Aquaculture Act of 2009. A bill to establish a regulatory system and research program for sustainable offshore aquaculture in the United States exclusive economic zone, and for other purposes.

Introduced December 16, 2009 by Congresswoman Capps, California and referred to the U.S. House Subcommittee on Insular Affairs, Oceans and Wildlife on January 4, 2010.

The Council comments on previous bills pertaining to offshore aquaculture have focused on ensuring the ability of the coastal States to “opt-out” of offshore aquaculture activities off their coastlines and in assuring that appropriate environmental reviews are conducted and research and monitoring plans developed prior to the permitting of any proposed aquaculture activities.

H.R. 4363 would, among other things;

- Establish an Office of Sustainable Offshore Aquaculture within the National Marine Fisheries Service,
- Require the U.S. Secretary of Commerce (Secretary) to complete Regional Programmatic Environmental Impact Statements including one for the west coast,
- Establish an application process and allow the Secretary to approve transferrable permits for up to 10-year periods with an option to renew permits for subsequent 10-year periods,
- Require the Secretary to notify a coastal State upon receiving an application for any new aquaculture operation proposed within 12 miles of the coastline,
- Allows a State to submit a list of locations, species or categories of species for which the State opposes the conduct of offshore aquaculture and the Secretary may not issue or renew any permits included in such a list.
- Limit aquaculture to species of a genotype native to the geographic region of operation that have not been genetically altered or are not listed under the Endangered Species Act,
- Require marking of cultured stocks that identify them as belonging to the permittee,
- Prohibit the use of wild fish feed ingredients unless sourced from healthy populations under ecosystem-based management while minimizing the use of fishmeal or fish oil derived from forage species, and
- Establish a research program for sustainable offshore aquaculture.

S. 2870 - International Fisheries Stewardship and Enforcement Act. A bill to establish uniform administrative and enforcement procedures and penalties for the enforcement of the High Seas Driftnet Fishing Moratorium Protection Act and similar statutes, and for other purposes including implement the Antigua Convention.

Introduced December 10, 2009 by Senator Inouye, Hawaii and referred to the U.S. Senate Committee on Commerce, Science, and Transportation.

- TITLE IV – Implementation of the Antigua Convention.
(*Italicized text* represents text directly from S.2870, portions of which are underlined for emphasis.)

The Inter-American Tropical Tuna Commission (IATTC) adopted the Convention for the Strengthening of the [IATTC] (Antigua Convention) in June of 2003 which cannot be fully implemented without U.S. ratification and implementing Federal legislation. S.2870 would implement the Antigua Convention by amending the Tuna Conventions Act of 1950 to, among other things, strengthen enforcement, reduce bycatch, and to specify U.S. representation to the IATTC and its advisory groups. Under this bill, five U.S. Commissioners would be appointed by the President “*among individuals who are knowledgeable or experienced concerning highly migratory fish stocks in the eastern tropical Pacific Ocean, one of whom shall be an officer or employee of the Department of Commerce, one of whom shall be the chairman or a member of the Western Pacific Fishery Management Council, and one of whom shall be the chairman or a member of the Pacific Fishery Management Council. Not more than 2 Commissioners may be appointed who reside in a State other than a State whose vessels maintain a substantial fishery in the area of the Convention.*” Additionally, the IATTC General Advisory Committee would include “*the chair of the Pacific Fishery Management Council's Advisory Subpanel for Highly Migratory Fisheries.*” Members of the General Advisory Committee would receive per diem but no pay and would not have a conflict of interest as they “*shall not be considered Federal employees except for purposes of injury compensation and tort claims liability as provided in chapter 81 of title 5, United States Code, and chapter 171 of title 28, United States Code*”. Regarding the IATTC’s Scientific Advisory Committee the bill states that, “*The Secretary [of Commerce], in consultation with the Secretary of State, shall appoint a Scientific Advisory Subcommittee of not less than 5 nor more than 15 qualified scientists with balanced representation from the public and private sectors, including nongovernmental conservation organizations.*”

10 (D) Native species shall be cultured in a
11 manner that ensures fish escapes will not harm
12 the genetics of local wild fish. Stocked fish shall
13 be no further than two generations from the
14 relevant wild stock, and shall not have been ex-
15 posed to intentional selective breeding.

16 (E) All cultured fish shall be marked,

22 marine environment, or other ocean uses.

23 (F) All facilities and operations shall be
24 designed, operated, and shown to be effective at
25 preventing the escape of cultured fish into the

1 marine environment and withstanding severe

5 caped fish and the circumstances surrounding
6 the incident shall be reported immediately to
7 the Secretary.

8 (G) Wild-caught fish shall not be contained
9 in any research project under section 7 or off-
10 shore aquaculture facility permitted under this
11 Act for the purposes of growing such fish to
12 market size or mass, or with the intention of
13 selling such fish.

14 (2) DISEASE AND PATHOGEN PREVENTION.—

15 The Secretary shall—

16 (A) require offshore aquaculture facilities
17 to be designed, located, and operated to prevent
18 the incubation and spread of disease and patho-
19 gens and ecosystem impacts from disease and
20 pathogen introduction;

21 (B) prohibit the use, including the prophylactic
22 use, of antibiotics, pesticides, prescription
23 and nonprescription drugs, or other chemical
24 treatments; except that—

1 (i) such use may be allowed as nec-
2 essary to treat a diagnosed disease; and

3 (ii) the use of vaccines may be al-
4 lowed;

5 (C) require that if use of antibiotics, pes-
6 ticides, prescription or nonprescription drugs,
7 or other chemical treatments is necessary to
8 treat a diagnosed disease and multiple options
9 for treatment of such disease exist—

10 (i) the option with the least environ-
11 mental impact shall be used; and

12 (ii) such use shall be minimized to the
13 maximum extent practicable;

14 (D) require that the use of antifouling
15 paints on all offshore aquaculture facilities, ves-
16 sels, and in-water structures be minimized to
17 the maximum extent practicable; and

18 (E) prohibit the use of any antibiotic, pes-
19 ticide, prescription or nonprescription drug, or
20 other chemical treatment for marine aqua-
21 culture except after consultation with the Com-
22 missioner of the Food and Drug Administra-
23 tion.

24 (3) HABITAT AND ECOSYSTEM IMPACTS.—The
25 Secretary—

1 (A) shall establish appropriate numerical
2 limitations of nutrient inputs into the marine
3 environment from offshore aquaculture facili-
4 ties—

5 (i) in consultation with the Adminis-
6 trator of the Environmental Protection
7 Agency;

8 (ii) at a local or regional level as nec-
9 essary to protect the environment; and

10 (iii) taking into account cumulative
11 and secondary impacts of such inputs at
12 the local and regional level from the expan-
13 sion of offshore aquaculture; and

14 (B) shall require each permittee under this
15 Act to prevent discharges of pollutants into
16 ocean waters to the maximum extent prac-
17 ticable.

18 (4) INTERACTIONS WITH AND IMPACTS ON MA-
19 RINE WILDLIFE.—The Secretary shall—

20 (A) require each permittee under this Act
21 to develop a comprehensive, integrated predator
22 management plan that—

23 (i) employs nonlethal deterrents as a
24 primary course of action; and

1 (ii) contains measures to prevent en-
2 tanglement, migration disruption, and
3 change in predator behavior, so as to not
4 unreasonably disrupt wildlife or their use
5 of critical marine habitat; and

6 (B) prohibit permittees under this Act—

7 (i) from using underwater acoustic de-
8 terrent devices of any kind; and

9 (ii) from intentionally killing or seri-
10 ously injuring marine mammals and other
11 predators of cultured fish, except if human
12 safety is immediately threatened.

13 (5) USE OF MARINE RESOURCES FOR FEEDS.—

14 The Secretary shall—

15 (A) prohibit the use under permits under
16 this Act of wild fish as feed ingredients for off-
17 shore aquaculture unless—

18 (i) they are sourced from populations
19 with ecosystem-based management meas-
20 ures in place; and

21 (ii) they are sourced from populations
22 whose biomass is at or above maximum
23 sustainable yield;

1 (B) require that use under such permits of
2 fishmeal and fish oil derived from forage fish-
3 eries be minimized;

4 (C) require that alternatives to fishmeal
5 and fish oil, or fishmeal and fish oil made from
6 fish byproducts be utilized under such permits
7 to the maximum extent practicable; and

8 (D) issue guidance that incorporates the
9 results of the joint NOAA–USDA Alternative
10 Feeds Initiative and other research efforts in-
11 vestigating alternative feed ingredients.

12 (6) INTERACTIONS WITH FISHERIES.—The Sec-
13 retary shall minimize displacement of commercial
14 and recreational fisherman and economic harm to
15 fishing communities resulting from activities under
16 permits under this Act.

17 (7) SITING.—The Secretary shall prohibit siting
18 of an offshore aquaculture facility under a permit
19 under this Act—

20 (A) in sensitive habitat, including any ma-
21 rine protected area, marine reserve, Habitat
22 Area of Particular Concern, Special Manage-
23 ment Zone, or National Marine Sanctuary;

24 (B) in an area that is identified in a re-
25 gional programmatic environmental impact

1 statement under section 4(c)(1) as an area that
2 is not an appropriate location for the conduct
3 of offshore aquaculture; or

4 (C) on or attached to any portion of an oil
5 or gas platform, including one that is no longer
6 in service.

7 (k) LIMITED RIGHT.—The Secretary shall not issue
8 any permit under this Act that constitutes a property right
9 for which compensation could be required under the Fifth
10 Amendment to the Constitution.

11 (l) LIMITATION IN THE PUBLIC INTEREST.—The
12 Secretary shall not issue a permit under this Act for an
13 offshore aquaculture project if the Secretary determines
14 that denial of a permit for the project is in the public in-
15 terest.

16 **SEC. 6. FEES.**

17 (a) PERMIT FEES.—

18 (1) IN GENERAL.—The Secretary shall estab-
19 lish, assess, and collect application fees and annual
20 fees with respect to permits under this Act that are
21 sufficient to pay the costs of issuance, monitoring,
22 and enforcement of such permits.

23 (2) DEPOSIT AND USE.—Such fees shall be de-
24 posited as offsetting collections in the Operations,

1 Research, and Facilities account of the Department
2 of Commerce.

3 (b) RESOURCE RENTAL FEES.—

4 (1) IN GENERAL.—The Secretary shall estab-
5 lish, assess, and collect resource rental fees to re-
6 cover from permittees under this Act a reasonable
7 portion of the value of the use under the permits of
8 ocean resources held in public trust.

9 (2) DEPOSIT AND USE.—Amounts received by
10 the United States as fees under this subsection—

11 (A) shall be deposited into a separate ac-
12 count in the Treasury, which shall be known as
13 the Offshore Aquaculture Development and Re-
14 source Trust Fund; and

15 (B) shall be available to the Secretary,
16 subject to the availability of appropriations and
17 review by the Offshore Aquaculture Advisory
18 Board established under section 3(b), to en-
19 hance the research program under section 7.

20 (c) FINANCIAL GUARANTEE.—The Secretary shall re-
21 quire each permittee under this Act to post a bond or
22 other form of financial guarantee, in an amount to be de-
23 termined by the Secretary to be sufficient to cover any
24 unpaid fees, the cost of removing an offshore aquaculture
25 facility at the expiration or termination of offshore aqua-

1 culture operations, and other financial risks as identified
2 by the Secretary.

3 **SEC. 7. SUSTAINABLE OFFSHORE AQUACULTURE RE-**
4 **SEARCH PROGRAM.**

5 (a) PURPOSE.—The purpose of this section is to es-
6 tablish a research program to—

7 (1) inform how offshore aquaculture permitting
8 and regulation can adopt a precautionary approach
9 to industry expansion to ensure ecological sustain-
10 ability and compatibility with healthy, functional
11 ecosystems and fisheries; and

12 (2) develop cost-effective solutions to environ-
13 mental and socioeconomic impacts of offshore aqua-
14 culture.

15 (b) ESTABLISHMENT OF PROGRAM.—The Secretary,
16 in consultation with other Federal agencies, coastal
17 States, Regional Fishery Management Councils, academic
18 institutions, and other interested stakeholders, shall estab-
19 lish and conduct a research program to guide the sustain-
20 able development of offshore aquaculture.

21 (c) TOPICS OF PROGRAM.—The Secretary, through
22 the research program, shall—

23 (1) identify environmental factors, aquaculture
24 technologies, and practices that address the permit
25 terms and conditions required under section 5(j);

1 (2) assess and mitigate the cumulative impacts
2 of multiple offshore aquaculture facilities;

3 (3) analyze potential socioeconomic impacts of
4 offshore aquaculture on fisheries and communities
5 that are dependent on such fisheries;

6 (4) evaluate financial, public policy, and market
7 incentives for sustainable development of offshore
8 aquaculture; and

9 (5) conduct or support research on other topics
10 as considered appropriate by the Secretary to
11 achieve the purpose of this section.

12 (d) GRANT PROGRAM.—

13 (1) IN GENERAL.—The Secretary, subject to
14 the availability of appropriations, shall establish a
15 competitive, peer-reviewed grant program to support
16 research related to the topics of the program under
17 subsection (c).

18 (2) ELIGIBILITY.—The Secretary, in consulta-
19 tion with the Offshore Aquaculture Advisory Board
20 established under section 3, shall establish criteria
21 for determining persons who are eligible for grants
22 under this section.

23 (e) TRANSPARENCY; USE OF RESULTS.—The Sec-
24 retary, in consultation with the Advisory Board, shall—

1 (1) issue rules for the grant program under
2 subsection (d) that enable the public to understand
3 the administration of the grant program, including
4 the process for application, submission of materials,
5 and awarding of grants;

6 (2) utilize and regularly incorporate the infor-
7 mation gathered from the research program to guide
8 Federal permitting and rulemaking decisions relat-
9 ing to offshore aquaculture, with an adaptive man-
10 agement approach; and

11 (3) make the findings of the research and devel-
12 opment program available to the public.

13 (f) COORDINATION WITH OTHER FEDERAL PRO-
14 GRAMS.—The Secretary shall coordinate the research pro-
15 gram with other Federal programs that provide grant
16 funding for purposes similar to that described in this sec-
17 tion, such as grants administered by the National Insti-
18 tute of Science and Technology and its Advanced Tech-
19 nology Program.

20 (g) PERMIT MODIFICATION.—The Secretary shall re-
21 vise permits to accommodate research conducted on or
22 near offshore aquaculture facilities permitted under sec-
23 tion 5.

1 **SEC. 8. COMPATIBILITY WITH OTHER USES; STATE INPUT.**

2 (a) CONSULTATION.—The Secretary shall consult, as
3 appropriate, with other Federal agencies and coastal
4 States to ensure that offshore aquaculture for which per-
5 mits are issued under this Act is compatible with the use
6 of the exclusive economic zone for navigation, resource
7 protection, recreation, fisheries, national defense (includ-
8 ing military readiness), mineral exploration and develop-
9 ment, and other activities.

10 (b) PERMITS FOR REGULATED SPECIES AND
11 AREAS.—

12 (1) IN GENERAL.—The Secretary may not issue
13 a permit under this Act authorizing a person to
14 propagate or rear a species of a fishery for which
15 there is in effect a fishery management plan under
16 the Magnuson-Stevens Fishery Conservation and
17 Management Act (16 U.S.C. 1801 et seq.), or to
18 propagate or rear any species in an area that is
19 within the jurisdiction of a Regional Fishery Man-
20 agement Council, unless all Regional Fishery Man-
21 agement Councils that have authority under such
22 Act to issue such a plan for that fishery or that have
23 jurisdiction over that area, respectively, have rec-
24 ommended approval of issuance of the permit.

25 (2) ENSURING FISHING ACCESS.—The Sec-
26 retary, in consultation with Regional Fishery Man-

1 agement Councils, shall ensure that offshore aqua-
2 culture permits under this Act do not interfere with
3 access to commercial and recreational fish stocks.

4 (c) STATE INPUT.—

5 (1) NOTICE TO STATE.—The Secretary—

6 (A) shall promptly provide to a coastal
7 State notice of the receipt by the Secretary of
8 any application for a permit under this Act for
9 any new offshore aquaculture facility to be lo-
10 cated within 12 miles of the coastline of that
11 coastal State; and

12 (B) shall not issue such permit before the
13 end of the 90-day period beginning on the date
14 the Secretary provides such notice.

15 (2) STATE OPT-OUT.—

16 (A) SUBMISSION OF LIST.—A coastal State
17 may submit to the Secretary a list of locations,
18 species, or categories of species (such as finfish
19 or shellfish) for which the coastal State opposes
20 the conduct of offshore aquaculture, by no later
21 than 180 days after the regional programmatic
22 environmental impact statements under section
23 4 are published.

24 (B) SUBSEQUENT SUBMISSION OR REVI-
25 SION.—A coastal State may submit a list under

1 subparagraph (A), or revise or revoke such a
2 list previously submitted, within 90 days after
3 the review of a regional environmental impact
4 statement under section 4(e) is published.

5 (C) PROHIBITION ON PERMITS.—The Sec-
6 retary may not issue or renew any permit under
7 this Act authorizing offshore aquaculture in any
8 location, or of any species, or category of spe-
9 cies, that is included in a list submitted under
10 subparagraph (A) by the nearest coastal State
11 with respect to that facility.

12 (d) INTEGRATION WITH OTHER FEDERAL PLAN-
13 NING.—The Secretary shall integrate the permitting of
14 offshore aquaculture under this Act with other Federal re-
15 gional marine spatial planning that has as its purpose eco-
16 system-based management of United States marine wa-
17 ters.

18 **SEC. 9. RELATIONSHIP TO OTHER LAWS.**

19 (a) MAGNUSON-STEVENSON FISHERY CONSERVATION
20 AND MANAGEMENT ACT.—Notwithstanding the definition
21 of “fishing” in section 3(16) of the Magnuson-Stevens
22 Fishery Conservation and Management Act (16 U.S.C.
23 1802(16)), the conduct of offshore aquaculture in accord-
24 ance with permits issued under this Act shall not be con-
25 sidered fishing for purposes of that Act, and no Regional

1 Fishery Management Council may issue any permit au-
2 thorizing offshore aquaculture. The Secretary shall ensure
3 that offshore aquaculture does not interfere with conserva-
4 tion and management measures promulgated under the
5 Magnuson-Stevens Fishery Conservation and Manage-
6 ment Act (16 U.S.C. 1801 et seq.).

7 (b) ACTIONS AFFECTING THE OUTER CONTINENTAL
8 SHELF.—

9 (1) CONCURRENCE OF SECRETARY OF THE IN-
10 TERIOR REQUIRED.—The Secretary must obtain the
11 concurrence of the Secretary of the Interior before
12 issuing any permit under this Act for offshore aqua-
13 culture facilities located—

14 (A) on any lease, right-of-use and ease-
15 ments, or right-of-way authorized or permitted
16 under the Outer Continental Shelf Lands Act
17 (43 U.S.C. 1331 et seq.); or

18 (B) within 1 mile of any other facility for
19 which a permit has been issued, or for which a
20 plan has been approved, under that Act.

21 (2) PRIOR CONSENT REQUIRED.—The Sec-
22 retary may not issue any permit under this Act au-
23 thorizing offshore aquaculture on any lease, right-of-
24 use and easements, or right-of-way referred to in
25 paragraph (1)(A) without the prior consent of the

1 lessee, its designated operator, and the owner of the
2 facility concerned.

3 (3) REVIEW OF LEASE, ETC., COMPLIANCE.—

4 The Secretary of the Interior shall review and ap-
5 prove any agreement between a lessee, designated
6 operator, and owner of a facility described in para-
7 graph (1) and a prospective offshore aquaculture fa-
8 cility operator to ensure that it is consistent with the
9 Federal lease terms, Department of the Interior reg-
10 ulations, and the Secretary of the Interior's role in
11 the protection of the marine environment, property,
12 or human life or health. An agreement under this
13 subsection shall be part of the information reviewed
14 pursuant to the Coastal Zone Management Act of
15 1972 review process described in paragraph (4) and
16 shall not be subject to a separate review under the
17 Coastal Zone Management Act of 1972 (16 U.S.C.
18 1451 et seq.).

19 (4) COORDINATED COASTAL ZONE MANAGE-
20 MENT ACT OF 1972 REVIEW.—

21 (A) REVIEW IF CONSISTENCY DETERMINA-
22 TION REQUIRED FOR PERMIT APPLICATIONS.—

23 If the applicant for a permit under this Act for
24 an offshore aquaculture facility that will utilize
25 a facility described in paragraph (1) is required

1 to submit for its offshore aquaculture permit
2 application under this Act a consistency certifi-
3 cation under section 307(c)(3)(A) of the Coast-
4 al Zone Management Act of 1972 (16 U.S.C.
5 1456(c)(3)(A)) to a coastal State, the coastal
6 State's review under such Act and cor-
7 responding Federal regulations shall also in-
8 clude any modification to a lessee's approved
9 plan or other document for which a consistency
10 certification would otherwise be required under
11 applicable Federal regulations, including
12 changes to its plan for decommissioning any fa-
13 cilities, resulting from or necessary for the
14 issuance of the permit under this Act, if infor-
15 mation related to such modifications or changes
16 is received by the coastal State at the time the
17 coastal State receives the offshore aquaculture
18 permit applicant's consistency certification. If
19 the information related to such modifications or
20 changes is received by the coastal State at the
21 time the coastal State receives the offshore
22 aquaculture permit applicant's consistency cer-
23 tification, a lessee is not required to submit a
24 separate consistency certification for any such
25 modification or change under section

1 307(c)(3)(B) of the Coastal Zone Management
2 Act of 1972 (16 U.S.C. 1456(c)(3)(B)) and the
3 coastal State’s concurrence or objection, or pre-
4 sumed concurrence, under section 307(c)(3)(A)
5 of the Coastal Zone Management Act of 1972
6 (16 U.S.C. 1456(c)(3)(A)) in a consistency de-
7 termination for the offshore aquaculture permit,
8 shall apply to both the offshore aquaculture
9 permit and to any related modifications or
10 changes to a lessee’s plan approved under the
11 Outer Continental Shelf Lands Act.

12 (B) REVIEW IF STATE IS NOT AUTHORIZED
13 TO REVIEW PERMIT APPLICATION.—If a coastal
14 State is not authorized by section 307(c)(3)(A)
15 of the Coastal Zone Management Act (16
16 U.S.C. 1456(c)(3)(A)) and corresponding Fed-
17 eral regulations to review an offshore aqua-
18 culture permit application submitted under this
19 Act, then any modifications or changes to a les-
20 see’s approved plan or other document requir-
21 ing approval from the Department of the Inte-
22 rior, shall be subject to coastal State review
23 pursuant to the requirements of section
24 307(c)(3)(B) of the Coastal Zone Management
25 Act of 1972 (16 U.S.C. 1456(c)(3)(B)), if a

1 consistency certification for those modifications
2 or changes is required under applicable Federal
3 regulations.

4 (c) COASTAL ZONE MANAGEMENT ACT OF 1972.—

5 (1) IN GENERAL.—This Act shall not affect the
6 application of the Coastal Zone Management Act of
7 1972 (16 U.S.C. 1451 et seq.), and regulations pro-
8 mulgated thereunder, with respect to offshore aqua-
9 culture.

10 (2) ASSISTANCE TO STATES.—The Secretary
11 shall provide technical and, subject to the availability
12 of appropriations, financial assistance to States to
13 review and, if necessary, revise their management
14 plans under that Act to address offshore aquaculture
15 in State and Federal marine waters.

16 (d) RESERVATION OF AUTHORITIES, ETC.—Nothing
17 in this Act shall be construed to displace, supersede, or
18 limit the jurisdiction, responsibilities, or authorities of any
19 Federal or State agency, or Indian tribe or Alaska Native
20 organization, under any Federal law or treaty.

21 **SEC. 10. UNLAWFUL ACTIVITIES.**

22 It is unlawful for any person—

23 (1) to engage in offshore aquaculture, except in
24 accordance with this Act and valid permits issued
25 under this Act;

1 (2) to falsify any information required to be re-
2 ported, communicated, or recorded pursuant to this
3 Act or any regulation or permit issued under this
4 Act, or to fail to submit in a timely fashion any re-
5 quired information, or to fail to report to the Sec-
6 retary immediately any change in circumstances that
7 has the effect of rendering any such information
8 false, incomplete, or misleading;

9 (3) to refuse to permit an authorized officer to
10 conduct any lawful boarding, lawful search, or lawful
11 inspection in connection with the enforcement of this
12 Act or any regulation or permit issued under this
13 Act;

14 (4) to forcibly assault, resist, oppose, impede,
15 intimidate, or interfere with an authorized officer in
16 the conduct of any boarding, search, or inspection in
17 connection with the enforcement of this Act or any
18 regulation or permit issued under this Act;

19 (5) to resist a lawful arrest or detention for any
20 act prohibited by this section;

21 (6) to interfere with, delay, or prevent, by any
22 means, the apprehension, arrest, or detection of an-
23 other person, knowing that such person has com-
24 mitted any act prohibited by this section;

1 (7) upon the expiration or termination of any
2 offshore aquaculture permit under this Act for any
3 reason, to fail to remove all structures, gear, and
4 other property from the site, or take other measures,
5 as prescribed by the Secretary, to restore the site;

6 (8) to violate any provision of this Act, any reg-
7 ulation promulgated under this Act, or any term or
8 condition of any permit issued under this Act; or

9 (9) to attempt to commit any act described in
10 paragraph (1), (2), (7), or (8).

11 **SEC. 11. ENFORCEMENT.**

12 (a) DUTIES OF SECRETARIES.—This Act shall be en-
13 forced by the Secretary and the Secretary of the depart-
14 ment in which the Coast Guard is operating.

15 (b) POWERS OF ENFORCEMENT.—

16 (1) IN GENERAL.—Any officer who is author-
17 ized pursuant to subsection (a) by the Secretary or
18 the Secretary of the department in which the Coast
19 Guard is operating to enforce the provisions of this
20 Act may—

21 (A) with or without a warrant or other
22 process—

23 (i) arrest any person, if the officer has
24 reasonable cause to believe that such per-

1 son has committed or is committing an act
2 prohibited by section 10;

3 (ii) board, search, or inspect any off-
4 shore aquaculture facility and any related
5 land-based facility;

6 (iii) seize any offshore aquaculture fa-
7 cility (together with its equipment, records,
8 furniture, appurtenances, stores, and
9 cargo), and any vessel or vehicle, used or
10 employed in aid of, or with respect to
11 which it reasonably appears that such off-
12 shore aquaculture facility was used or em-
13 ployed in aid of, the violation of any provi-
14 sion of this Act or any regulation or permit
15 issued under this Act;

16 (iv) seize any marine species (wher-
17 ever found) retained, in any manner, in
18 connection with or as a result of the com-
19 mission of any act prohibited by section
20 10; and

21 (v) seize any evidence related to any
22 violation of any provision of this Act or
23 any regulation or permit issued under this
24 Act;

1 (B) execute any warrant or other process
2 issued by any court of competent jurisdiction;
3 and

4 (C) exercise any other lawful authority.

5 (2) ARRESTS, SUBPOENAS, AND WARRANTS.—

6 (A) ARREST WITHOUT WARRANT.—Any of-
7 ficer who is authorized pursuant to subsection
8 (a) of this section by the Secretary or the Sec-
9 retary of the department in which the Coast
10 Guard is operating to enforce the provisions of
11 this Act may make an arrest without a warrant
12 for—

13 (i) an offense against the United
14 States committed in his or her presence; or

15 (ii) a felony cognizable under the laws
16 of the United States, if he has reasonable
17 grounds to believe that the person to be ar-
18 rested has committed or is committing a
19 felony.

20 (B) SUBPOENAS AND WARRANTS.—Any
21 such authorized officer may execute and serve
22 a subpoena, arrest warrant, or search warrant
23 issued in accordance with rule 41 of the Fed-
24 eral Rules of Criminal Procedure, or other war-
25 rant of civil or criminal process issued by any

1 officer or court of competent jurisdiction for en-
2 forcement of the Act, or any regulation or per-
3 mit issued under this Act.

4 (c) ISSUANCE OF CITATIONS.—If any officer referred
5 to in subsection (b)(2)(A) finds that a person who is the
6 holder of a permit under this Act is engaging in or has
7 engaged in offshore aquaculture in violation of any provi-
8 sion of this Act, such officer may issue a citation to that
9 person for purposes of subsection (d)(1).

10 (d) PERMIT SUSPENSION, MODIFICATION, OR REV-
11 OCATION.—

12 (1) REPEATED CITATION.—If the Secretary
13 finds that a person is repeatedly cited under sub-
14 section (c) with respect to offshore aquaculture
15 under a permit, the Secretary shall immediately sus-
16 pend or revoke the permit for which the citations
17 were issued.

18 (2) EMERGENCY.—If the Secretary determines
19 that an emergency exists with respect to offshore
20 aquaculture under a permit under this Act that
21 poses a risk to the safety of humans, to the marine
22 environment or marine species, or to the security of
23 the United States, the Secretary shall immediately
24 suspend, modify, or revoke the permit for such time

1 as the Secretary may determine necessary to address
2 the emergency.

3 (3) NEW INFORMATION.—The Secretary may
4 suspend, modify, or revoke a permit under this Act
5 at any time if the Secretary determines, based on in-
6 formation obtained after the issuance of the permit
7 (including information obtained under the research
8 program under section 7), that the permit terms and
9 conditions are no longer consistent with the terms of
10 this Act.

11 (4) OPPORTUNITY TO BE HEARD.—The Sec-
12 retary shall afford the permit holder a prompt
13 postsuspension, postmodification, or postrevocation
14 opportunity to be heard regarding the suspension,
15 modification, or revocation.

16 (e) ENFORCEMENT UNDER MAGNUSON-STEVENSON
17 FISHERY CONSERVATION AND MANAGEMENT ACT.—For
18 purposes of sections 308, 309, and 310 of the Magnuson-
19 Stevens Fishery Conservation and Management Act (16
20 U.S.C. 1858, 1859, 1860), a violation of this Act shall
21 be treated as a violation of section 307(1) of that Act (16
22 U.S.C. 1857(1)).

23 (f) CITIZEN SUITS.—

24 (1) IN GENERAL.—

1 (A) ACTIONS AUTHORIZED.—Except as
2 provided in paragraph (2), any person may
3 commence a civil suit on his or her own be-
4 half—

5 (i) to enjoin any person, including the
6 United States and any other governmental
7 instrumentality or agency (to the extent
8 permitted by the Eleventh Amendment to
9 the Constitution), who is alleged to be in
10 violation of any provision of this Act, per-
11 mit, or regulation issued under the author-
12 ity thereof; or

14 is alleged a failure of the Secretary to per-
15 form any act or duty under this Act that
16 is not discretionary with the Secretary.

17 (B) JURISDICTION.—The district courts
18 shall have jurisdiction, without regard to the
19 amount in controversy or the citizenship of the
20 parties, to enforce any such provision or regula-
21 tion or to order the Secretary to perform such
22 act or duty, as the case may be.

23 (2) LIMITATIONS.—

24 (A) ACTION TO ENJOIN.—No action may
25 be commenced under paragraph (1)(A)(i)—

1 (i) prior to 60 days after written no-
2 tice of the violation has been given to the
3 Secretary, and to any alleged violator of
4 any such provision, permit, or regulation;

5 (ii) if the Secretary has commenced
6 action to impose a penalty pursuant to the
7 other provisions of this Act; or

8 (iii) if the United States has com-
9 menced and is diligently prosecuting a
10 criminal action in a court of the United
11 States or a State to redress a violation of
12 any such provision, permit, or regulation.

13 (B) ACTION AGAINST SECRETARY.—No ac-
14 tion may be commenced under paragraph
15 (1)(A)(ii) prior to 60 days after written notice
16 has been given to the Secretary.

17 (3) VENUE.—Any suit under this subsection
18 may be brought in the judicial district in which the
19 violation occurs.

20 (4) INTERVENTION BY ATTORNEY GENERAL.—
21 In any such suit under this subsection in which the
22 United States is not a party, the Attorney General,
23 at the request of the Secretary, may intervene on be-
24 half of the United States as a matter of right.

1 (5) AWARD OF COSTS.—The court, in issuing
2 any final order in any suit brought pursuant to
3 paragraph (1), may award costs of litigation (includ-

LEGISLATIVE COMMITTEE REPORT ON LEGISLATIVE MATTERS

The Legislative Committee (Committee) convened at 1:00 p.m. on Friday, April 9, 2010. In attendance were Committee members Mr. Rod Moore (Vice Chair), Pacific Fishery Management Council (Council) Vice Chair Mr. Dan Wolford, Ms. Dorothy Lowman, Mr. Dale Myer, and Mr. Gordy Williams. Also present were Council Executive Director Dr. Don McIsaac, Council Deputy Director Dr. John Coon, Council Assistant to the Executive Director Mr. Don Hansen, and Council Staff Officer Mr. Mike Burner. Additionally, the following members of the Council's Highly Migratory Species Advisory Subpanel (HMSAS) attended the session; Mr. Doug Fricke (HMSAS Chair), Mr. August Felando, Mr. Peter Flournoy (HMSAS Alternate), Ms. Linda Buell, Mr. Steve Foltz, and Mr. Bill Sutton.

The Committee noted that there has not been a recent Congressional request for Council input on legislative matters, including the two bills the Committee focused on for this meeting, *S. 2870 - International Fisheries Stewardship and Enforcement Act*, and *H.R. 4363 - National Sustainable Offshore Aquaculture Act of 2009*. Therefore, the Committee has prepared the following comments for the purpose of updating the Council on these matters and to provide recommendations that could be submitted in response to future Congressional inquiries at the discretion of the Council or the Council's Executive Director.

S. 2870 - International Fisheries Stewardship and Enforcement Act

This bill would establish uniform administrative and enforcement procedures and penalties for the enforcement of a variety of fishery related statutes (the High Seas Driftnet Fishing Moratorium Protection Act, the Pacific Salmon Treaty Act of 1985, the Dolphin Protection Consumer Information Act, the Tuna Conventions Act of 1950, the North Pacific Anadromous Stocks Act of 1992, the South Pacific Tuna Act of 1988, the Antarctic Marine Living Resources Convention Act of 1984, the Atlantic Tunas Convention Act of 1975, the Northwest Atlantic Fisheries Convention Act of 1995, the Western and Central Pacific Fisheries Convention Implementation Act, and the Northern Pacific Halibut Act of 1982).

The bill would also amend existing legislation by implementing the technical corrections regarding U.S. representation to the Western and Central Pacific Fisheries Commission (WCPFC) and the appropriate criteria specified under the U.S./Canada agreement on Pacific Whiting, implement the Antigua Convention, and reauthorize certain statutes.

The Committee noted that the technical corrections on implementation of the WCPFC and the U.S./Canada agreement on Pacific Whiting under Title III are non-controversial, overdue, and the sole purpose of related legislation (S.2871). Also, implementation of the Antigua Convention will take place in August 2010 and, although the U.S. is signatory to this agreement, legislation similar to that under Title IV is needed to invoke the required instruments of U.S. ratification for full U.S. participation. The Committee agreed that S.2870 addresses too broad a range of issues and recommends that Title III and Title IV under S.2870 be removed and treated expeditiously under separate legislation.

Title I - Administration and Enforcement of Certain Fishery and Related Statutes

Penalties proposed under S. 2870 are considerable and are substantially increased from the penalties in existing statutes. Maximum monetary fines can reach \$250,000 per day and forfeiture provisions could include the confiscation of property other than vessels, gear, and cargo. The Committee believes that these penalties are severe and do not necessarily fit the violations. The Committee notes that penalties under existing acts have been adjusted for inflation over the years and are not in need of revision.

S.2870 establishes uniform enforcement provisions across several fishery statutes. The Committee noted that enforcement and economics vary by fisheries. Therefore, any enforcement program for fisheries under international statute should provide flexibility to ensure that penalties and forfeitures are appropriate for each fishery and its potential violations.

Title II – Law Enforcement and International Operations

Subject to appropriations, S.2870 would authorize \$30 million a year over five years for the purpose of establishing an International Fisheries Enforcement Program within the Office of Law Enforcement of the National Marine Fisheries Service to enhance international fishery enforcement. The Committee does not have any specific comments on Title II other than to recommend that this level of authorization should be accompanied by further explanation of the intent for the funds.

Title III – Miscellaneous Amendments

The Committee continues to support rapid passage of the technical corrections regarding U.S. representation to the Western and Central Pacific Fisheries Commission and the appropriate criteria specified under the U.S./Canada agreement on Pacific Whiting that are included in Title III of S.2870. The Committee notes that a related bill, S.2871 deals solely with these corrections and represents a concise and perhaps more expedient way of achieving their implementation.

Title IV – Implementation of Antigua Convention

S.2870, Title IV, Section 404 would amend the Tuna Convention Act of 1950 to specify that there will be five U.S. Commissioners appointed to the Inter-American Tropical Tuna Commission (IATTC) while the Antigua Convention, Article 6, paragraph 2 specifies that there will be four U.S. IATTC Commissioners. Neither the Committee nor the HMSAS could identify the rationale for this discrepancy and the Committee recommends that this discrepancy be corrected or justified.

S.2870, Title IV, Section 406 would amend language in the Tuna Convention Act of 1950 pertaining to rulemaking provisions and the promulgation of regulations. However, the Tuna Convention Act of 1950 under Section 6 (16 U.S.C. 955) has three subsections [(a)-(c)] pertaining to rulemaking authority and S.2870 only amends subsections (a) and (b) leaving the existing and potentially antiquated language in subsection (c). The Committee recommends that S.2870 be revised to include amendments to subsection (c) per Article VII(c) of the Antigua

Convention to recognize that IATTC recommendations will be made pursuant to the following paragraph under Article VII(c):

“adopt measures that are based on the best scientific evidence available to ensure the long-term conservation and sustainable use of the fish stocks covered by [the Antigua Convention] and to maintain or restore the populations of harvested species at levels of abundance which can produce the maximum sustainable yield, *inter alia*, through the setting of the total allowable catch of such fish stocks as the [IATTC] may decide and/or the total allowable level of fishing capacity and/or level of fishing effort for the [Antigua]Convention Area as a whole”

S.2870, Title IV, Section 408 would amend the tuna Conventions Act of 1950 to include Title I of S.2870 pertaining to enforcement provisions. For the reasons stated above under Title I, the Committee recommends that Section 408 be removed from S.2870.

H.R. 4363 - National Sustainable Offshore Aquaculture Act of 2009.

The Committee reviewed the legislation and provides the following comments by section.

Section 3, NOAA Office; Advisory Board - The Committee recommends the bill be amended to include tribal representation on the Advisory Board.

Section 4, Regional Programmatic Environmental Impact Statements - Subsection (f) prevents the Secretary of Commerce from issuing any permit before all Regional Programmatic Environmental Impact Statements have been issued. The Committee recommends easing this restriction so that permits within a given region cannot be issued until that region's Environmental Impact Statement is issued.

Section 5, Offshore Aquaculture Permitting – Subsection (j)(1)(D) states that “Stocked fish shall be no further than two generations from the relevant wild stock, and shall not have been exposed to intentional selective breeding.” The Committee appreciates the merits of preserving the genetic integrity of native stocks, but requests additional rationale and scientific justification for this restriction and recommends that the bill’s language be amended to clarify which aquaculture facility operations would be subject to this restriction.

Subsection (j)(1)(G) prevents wild-caught fish from being grown out to market size at a facility permitted under the Act. The Committee could not identify a reasonable justification for prohibiting the practice of growing out of fish that are sustainably and legally harvested and recommends the prohibition be removed.

Subsection (j)(5)(A)(i) prohibits the use of wild fish as feed unless they are “sourced from populations with ecosystem-based management measures in place.” The Committee noted that ecosystem-based management principles around the country vary by degree and practice. The Committee recommends that this term be explicitly defined because it is not clear to the Committee which populations would and would not qualify for use as feed as currently described.

Subsection (j)(5)(C) expresses a desire to maximize the utilization of alternatives to fishmeal, fish oil and fish byproducts when sourcing aquaculture feeds. The Committee noted that the term “fish byproducts” is defined in Section 14 to not include bycatch. Overall, the Committee agreed with the bills apparent precautionary approach regarding the use of wild-caught species as feed, but noted that unavoidable bycatch and offal from well-managed fisheries could serve as a responsible source of fishmeal. The Committee recommends that the bill be amended to both maximize the use of alternate feeds while minimizing the waste of fish byproducts and unavoidable bycatch.

Subsection (j)(7)(C) prohibits siting an offshore aquaculture facility on or attached to an oil or gas platform. The Committee described this provision as overly prohibitive and recognized potential efficiencies in siting aquaculture facilities in areas already occupied by such platforms. The Committee recommends that the bill be amended to include provisions for using these existing structures in an environmentally and economically sensible manner.

Section 8, Compatibility with Other Uses; State Input - Subsection (a) describes the entities the Secretary shall consult with when assessing the compatibility of aquaculture facilities with other activities within the Exclusive Economic Zone, but does not specifically mention tribal entities. The Committee recommends that the bill be amended to require tribal consultation regarding the compatibility of aquaculture facilities with tribal activities and tribal usual and accustomed areas.

Subsection (e)(2)(A) allows coastal States to opt-out of aquaculture activities either by location, by species category, or both. The Committee continues to prefer that these provisions be specified as a requirement for a State to out-in rather than opt-out. Like the existing opt-out provisions, the Committee recommends that States have the ability to opt-in to aquaculture activities by location and/or by species category.

Section 11, Enforcement – Subsection (f) allows any person to commence a civil suit regarding permitted aquaculture activities. This provision creates an unnecessary disincentive to participate in aquaculture and would likely generate a litigious atmosphere. The Committee recommends that provisions for civil suits be removed.

Section 14, Definitions – As noted above, the Committee recommends that H.R.4363 be amended to include explicit definitions of the terms “ecosystem-based management measures” and “native fish” relative to their use in the bill.

Emergency Temporary Water Supply Amendment

At its March meeting, the Committee reviewed a February 18, 2010 letter to U.S. Senator Feinstein (CA) signed by 11 members of Congress (March 2010, Agenda Item D.3.a, Supplemental Attachment 4) regarding legislation proposed by Senator Feinstein that may override protection for threatened and endangered fish stocks and fisheries of the San Francisco Bay-Delta system for the purpose of easing the effects of an ongoing drought in the region. The Committee recommended the Council Executive Director send a letter to Senator Feinstein requesting the specific language of the proposed legislation and clarification on whether or not the amendment would address potential disaster relief for salmon fishermen.

Since the March Council meeting Council staff have been in contact with Senator Feinstein and have learned that Senator Feinstein and others, working with the U.S. Department of the Interior and stakeholders, has addressed the drought concerns through other means such as delaying scheduled diversions to municipalities in lieu of irrigation needs. At this time, Senator Feinstein does not have plans to introduce legislation. Council staff will continue to track this matter, including the potential for legislation pertaining to salmon disaster relief, and will report back to the Committee.

Future Meeting Plans

The Committee did not identify an urgent need to meet at the June 2010 Council meeting and recommends that the Council balance the need for a June Committee meeting with the heavy proposed workload of the June Council meeting under Agenda Item K.3.

The Committee adjourned at 3:30 p.m.

Legislative Committee Recommendations

- 1. Review and approve Committee recommendations on S.2870 and H.R.4363 with the expectation that these recommendations could be submitted in response to future Congressional inquiries at the discretion of the Council or the Council's Executive Director.**
- 2. Balance the need for a June Legislative Committee meeting with the heavy proposed workload of the June Council meeting under Agenda Item K.3.**

PROPOSED NEW AD HOC COMMITTEES

Council Operating Procedure 8 establishes procedures for creating, operating, and terminating ad hoc committees. Ad hoc committees are created to address specific (or short-term) issues and are intended to be in place for a limited duration. Ad hoc committees are created and terminated by vote of the Council and their objectives, duties, and expected duration are specified at the time the committee is created. Committee members are appointed by the Council Chair based on the advice of Council members and advisory committees.

Council staff proposes two new ad hoc committees for Council consideration.

The first proposed ad hoc committee could be called the Groundfish Regulatory Workgroup (or something similar). Proposed regulations to implement Groundfish Amendments 20 (Catch Shares) and 21 (Trawl Allocation) have been before the Council since March 2010 and the deeming of these regulations is scheduled to be completed at the June 2010 Council meeting. Because of the voluminous and complex nature of these implementing regulations, an ad hoc committee with special expertise in regulatory issues associated with the groundfish trawl Catch Shares program could be of great assistance to expediting the Council’s deeming process and ensuring a timely and successful implementation of the Catch Shares Program.

The second proposed ad hoc committee could be called the Tule Chinook Abundance-Based Management Workgroup (or something similar). Its purpose would be to take the lead in a focused effort to explore abundance-based approaches to setting allowable fishing rates in the long-term to protect Lower Columbia River tule Chinook. Its recommendations would be reported to the Council which could adopt specific recommendations to provide National Marine Fisheries Service (NMFS) for their consideration in the development of future biological opinions.

Criteria for the committees are described below.

Ad Hoc Groundfish Regulatory Workgroup (GRW)

Objective:	Assist the Council and NMFS in the process of reviewing and deeming regulations implementing Groundfish Amendment 20 (Catch Shares) and, if necessary, Amendment 21 (Trawl Allocation).
Duties and Process:	Develop recommendations to the Council on the consistency of proposed regulations implementing Amendment 20 (and, if necessary, Amendment 21) with the Council’s final action. Specifically, the committee would review Agenda Item I.1.b, Supplemental NMFS Report 7, April 2010; and any other pertinent documents to identify consistency or implementation issues. The committee would provide a statement for the June Council meeting advance Briefing Book, due May 26, 2010. The Committee might also meet at the June Council meeting if new or revised regulatory language materials are made available by NMFS.
Members:	Ten or so members representing a cross-section of expertise and experience in the Council action and regulatory issues for the fisheries that would be managed under Amendments 20 and 21.
Duration:	Terminate when the Council submits a letter to NMFS deeming a set of regulations as accurate and consistent with the Council’s final action.

Ad Hoc Tule Chinook Abundance-Based Management Workgroup (TCAMW)

Objective:	Assist the Council in exploring the development of abundance-based management approaches to allow fishing on abundant salmon stocks while protecting the recovery of Lower Columbia River tule Chinook (LCRT).
Duties and Process:	Examine various models currently in use for abundance-based management approaches with the charge to develop a usable approach, if possible, for LCRT. Committee work would be integrated with the Council's annual salmon methodology review process that produces recommendations in November of each year. Any fishing mortality rate ceilings developed and approved by the Council would be submitted to NMFS for possible use in the next LCRT biological opinion for ocean salmon seasons in 2012 and beyond. The process would include establishing the committee in the near term, a review of intermediate results via a progress report in the fall of 2010, and final recommendations to be made in the fall of 2011 through the salmon methodology review process. In the event a usable approach emerges from this process, the Council might consider a possible FMP amendment process beginning after November 2011.
Members:	Approximately a dozen members with technical expertise in salmon harvest modeling and management representing those entities involved with management of Columbia River salmon stocks. Expertise could include members of the salmon Model Evaluation Workgroup.
Duration:	Meet in the near term and as necessary to complete the work and final recommendations to the Council by no later than the November 2011 Council meeting. Terminate the committee no later than April 30, 2012.

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL REPORT
ON FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The Highly Migratory Species Advisory Subpanel (HMSAS) suggests that the Council consider issues that need to go before the Northern Committee (NC) of the Western and Central Pacific Fishery Commission at the June meeting and for an Ad Hoc Committee composed of Council members to meet with the HMSAS in August to further refine the recommendations to the delegations to the NC and the Inter-American Tropical Tuna Commission (IATTC) at a time when more information comes available. This should include preparation for definitions that will be favorable to the U.S. fisheries in negotiations with other countries on a definition of current effort that is currently scheduled for October in conjunction with the IATTC meeting.
