a/ Washington sport estimates are through October 9.

b/ All non-Indian coho fisheries are mark-selective.

c/ Treaty Indian effort is reported as landings.

d/ Numbers shown as Chinook quotas for non-Indian troll and recreational fisheries North of Falcon are guidelines rather than quotas; only the total Chinook allowable catch is a quota.

e/ Mark-selective fishery for Chinook

f/ Original quota of 4,800 marked Chinook; unharvested remainder was transferred at an impact-neutral rate (total transfer of 1,200 Chinook) into the sub-area Chinook guidelines assigned to the summer recreational fishery (non-selective for Chinook). Original summer sub-area Chinook guidelines were: 3,200 from the U.S./Canada border to Cape Alava, 1,350 from Cape Alava to the Queets River, 16,900 from Queets River to Leadbetter Pt., and 7,400 from Leadbetter Pt. to Cape Falcon.
