Here you are:

On August 18th Heather Sagar announced to the CCC that NOAA Fisheries is drafting an Ecosystem Based Fisheries Management Policy. Over the past few months a working group worked on developing a draft policy. At the September CCC Meeting Jason Link will provide an overview of the draft Policy to the CCC. Both Jason and Heather will be traveling to all of the Councils to answer any questions and take comments on the Policy. NOAA Fisheries plans to finalize the Policy in early 2016.

OK; please send a short description of what this is all about and why it should be on the November 14-19 agenda, and I we will get it in front of the Council for the competition and a decision September 16. Please provide by COB Augusts 10, with a copy to Chuck Tracy.

Thanks,
Don

Thanks for getting back to me, Don!

Unfortunately, I think March will be too late. We can certainly present in less then an hour if that helps!

Thanks,
Heather

Heather-

Thanks for the email and the intent to keep the Pacific Council directly in the loop on these kinds of things.

Our current planner for floor time agenda items for the November Council meeting shows 6.6 days, but the our final agenda will total 5.5 days. Thus, some candidate agenda items are going to have to be postponed or eliminated, and new incoming agenda items will need to compete for floor time.

Is there a chance this matter can wait until our March Council meeting? Jason came to our March 2015 CM in Vancouver, WA; I don't recall from Key West how much more is different from the discussions in Vancouver.

If not, we will put this in front of the Council at our upcoming September meeting, when the Council Members will deal with the prioritization of all candidate items to get down to a 5.5 day meeting for the November CM.

Thanks,
Don

Hi Don-

I am writing you today to secure time on the agenda for the November 13-19 Pacific Council Meeting in Orange Co Garden Grove, CA. As you know, at the last CCC call I announced that NOAA Fisheries is working on Ecosystem Based Fisheries Management Policy. At the next CCC call we will discuss the policy in a bit more depth and then we would like to get the Councils input on this important policy. We are hoping for 45 min to an hour.

Let Jason and me know if this is possible.

Thanks-
Heather
