

Agenda Item C.6.b
Supplemental Public Comment
September 2015

Scope truly new gear options first

Turtle Island Restoration Network
September 16, 2015

Planning for the future

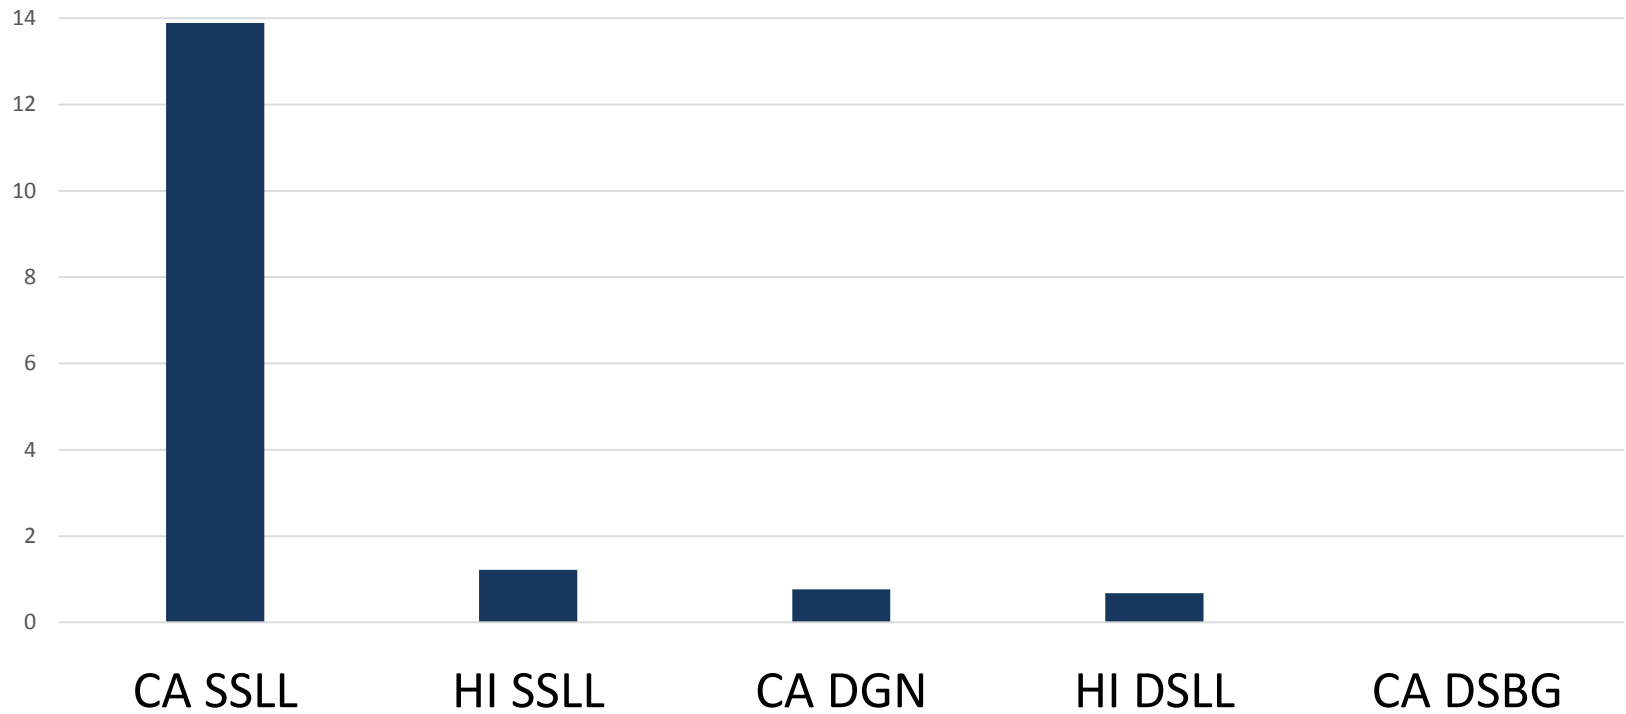

*Let the hard caps work

*Lower bycatch DSBG gear first

*Decide on the right permit later

Which gear option first?

High Priority Species Takes per 100 mt catch.

Source: presentations by Gjertsen, Sepulveda, 2015 U.S. West Coast Swordfish Meeting

Work Timing:

1. Bring new gear on first
2. Scope full FMP amendment
3. Address federal issues, if necessary

Thanks for your work and
safe journeys home!
