

GROUND FISH MANAGEMENT TEAM REPORT ON EXEMPTED FISHING PERMITS

**Table 1. Potential 2017 canary rockfish sector-specific allocations (based the 2 ACL alternatives and the September 2015 scorecard sharing) at the lowest and highest requested canary rockfish set-asides for this EFP (assuming the EFP set-aside is taken off the top and the remaining fishery HG is allocated pro rata), and the 2014 mortality and 2015 scorecard projected impacts for those sectors for comparison.**

<b>2017 ACL = 857 mt</b>	How the fishery allocations change with the range of EFP off-the-top deductions:		How the allocations compare to the most recent year's estimate of mortality	How the allocations compares to the current year's projections:
	<b>Low CAN (3.77 mt)</b>	<b>High CAN (30.16 mt)</b>	<b>2014 Total Mortality (mt)</b>	<b>Nov 2015 Scorecard Projected Impacts (mt)</b>
Shorebased IFQ	337.8	327.1	10.48	43.3
At-sea Whiting	106.9	103.5	0.63	13.7
Nearshore	52.3	50.6	4.73	7.8
Non-Nearshore	29.6	28.7	0.43	1.1
Rec: WA	26.5	25.7	0.93	2.0
Rec: OR	91.3	88.4	3.03	14.8
Rec: CA	189.6	183.6	15.60	29.5
<b>Sub-total (fishery HG)</b>	833.9	807.5	35.83	112.2

<b>2017 ACL = 1,714 mt</b>	How the fishery allocations change with the range of EFP off-the-top deductions:		How the allocations compare to the most recent year's estimate of mortality	How the allocations compares to the current year's projections:
	<b>Low CAN (3.77 mt)</b>	<b>High CAN (30.16 mt)</b>	<b>2014 Total Mortality (mt)</b>	<b>Nov 2015 Scorecard Projected Impacts (mt)</b>
Shorebased IFQ	684.9	674.2	10.48	43.3
At-sea Whiting	216.7	213.3	0.63	13.7
Nearshore	106.0	104.3	4.73	7.8
Non-Nearshore	60.1	59.2	0.43	1.1
Rec: WA	53.8	52.9	0.93	2.0
Rec: OR	185.1	182.2	3.03	14.8
Rec: CA	384.4	378.4	15.60	29.5
<b>Sub-total (fishery HG)</b>	1690.9	1664.5	35.83	112.2
