

AGENDA ITEM I.9 ACTION ITEM CHECKLIST

<b>Ecosystem Component Species and 2017-2018 Stock Complexes – Supplemental GMT Report 2</b>			
#	Category	Sector	Measure
1	Stock complex	Shorebased IFQ	Adopt FPA for managing big skate <ul style="list-style-type: none"> <li>• No Action: Big skate remain an EC species, managed with shorebased IFQ trip limits</li> <li>• Modify FMP designation for big skate from “ecosystem component” to “in the fishery”               <ul style="list-style-type: none"> <li>○ Alt. 1 Manage Big Skate with Stock-Specific Harvest Specifications</li> <li>○ Alt. 2 Manage Big and Longnose Skate in a Skate Complex</li> </ul> </li> <li>• Provide guidance on management measures               <ul style="list-style-type: none"> <li>○ Option 1: Add trip limits for limited entry and open access fixed gears</li> <li>○ Option 2: Add sorting requirement for landings in the limited entry and open access sector</li> <li>○ Option 3: Establish shorebased IFQ for big skate</li> </ul> </li> </ul>
2	Stock complex		Other Flatfish <ul style="list-style-type: none"> <li>• No Action: Manage starry flounder with stock-specific harvest specifications</li> <li>• Alternative: Manage starry flounder within the Other Flatfish Complex</li> </ul>
3	Stock complex		Other Fish <ul style="list-style-type: none"> <li>• No Action: Kelp greenling (coastwide), cabezon (WA), and leopard shark</li> <li>• Alternative: Manage kelp greenling in Oregon with stock specific harvest specifications</li> </ul>

**2017-2018 Allocations and Harvest Guidelines (HG) – Supplemental GMT Report 3**

#	Category	Sector	Measure
4	Off-the-top deductions		Adopt preliminary amounts to be deducted from the ACL to account for groundfish mortality in research, incidental open access, Tribal, and EFPs <sup>1</sup> .
5	ACT		Consider ACTs for cowcod and California scorpionfish
6	HG		Adopt preliminary HGs for species managed within a complex for: <ul style="list-style-type: none"> <li>• Blue rockfish within the nearshore rockfish complexes, south of 42° N lat.</li> </ul>
7	Allocations	Trawl/Non-Trawl	Adopt preliminary 2-year trawl and non-trawl allocations for: <ul style="list-style-type: none"> <li>• Overfished species: bocaccio, cowcod, canary, and yelloweye rockfish</li> <li>• Longnose skate: trawl and non-trawl allocation</li> <li>• Big skate: trawl and non-trawl allocation</li> <li>• Shelf rockfish north and south of 40°10' N: trawl and non-trawl allocation</li> </ul>
8	Set-Aside	Within Trawl, At-Sea	Adopt preliminary set-asides for Pacific whiting at-sea sectors
9	HG	Non-Trawl	Adopt preliminary 2-year within non-trawl HGs or shares for: <ul style="list-style-type: none"> <li>• Overfished species: bocaccio, cowcod, and yelloweye</li> <li>• Blue rockfish: 40-10 adjustment for CA</li> <li>• Blackgill south of 40°10': 40-10 adjustment; 60% limited entry and 40% open access fixed gears</li> <li>• Sablefish south of 36° N lat.: 55% limited entry and 45% open access fixed gears</li> <li>• Nearshore rockfish HG north of 40°10' N lat.</li> </ul>

<sup>1</sup> Off-the-top deductions for EFPs, if any, were decided under Agenda Item I.2.

**Provide Guidance on 2017-2018 Season Structures – Supplemental GMT Report 4**

<b>#</b>	<b>Category</b>	<b>Sector</b>	<b>Measure</b>
10		Treaty Fisheries	Management measures – <a href="#">Supplemental Tribal Report</a> , Supplemental GMT Report 3
11		Shorebased IFQ	Trawl RCA, non-IFQ trip limits
12		Non-Nearshore	Non-Trawl RCA seaward configuration, trip limits (including sablefish)
13		Nearshore	Non-Trawl RCA shoreward configuration, trip limits
14		WA Recreational	Season dates, bag limits, length limits, area closures
15		OR Recreational	Season dates, bag limits, length limits, area closures
16		CA Recreational	Season dates, bag limits, length limits, area closures

**New Management Measures for Implementation in 2017-2018 – See GMT Report and Supplemental GMT Report 4**

<b>#</b>	<b>Category</b>	<b>Sector</b>	<b>Measure</b>
17	ACL		“Green light” Policy for Stocks Rebuilt Mid-Biennium: bocaccio, darkblotched, Pacific Ocean perch, and yelloweye rockfish.
18	Stock complex	Trawl/Non-trawl	Ecosystem Component Designation for Big Skate
19	Mortality rates	Recreational	Descending Device/Recompression Management Measures
20	RCA		Rockfish Conservation Area Changes in California
21	Inseason		Automatic Inseason Action for Fisheries in California
22	QP transfer	At-Sea	At-Sea Trawl Buyback Movement
23	Retention	LE FG, OA FG, Directed OA	Canary Rockfish Retention in the Commercial Fixed Gear Fisheries
24	RCA		Yelloweye Rockfish Conservation Area Considerations for California
25	RCA		Cowcod Conservation Area and Hotspot Analysis
26	Retention	OR Recreational	Retention of Flatfish Species Outside of the Seasonal Depth Restriction in the Oregon Recreational Fishery
27	Allocation	IFQ	Ecosystem Component Designation for Big Skate – IFQ Issuance
28	Allocation	Within Trawl, At-Sea	Amendment 21 within-Trawl Allocations for Darkblotched and Pacific Ocean Perch
