

SALMON ADVISORY SUBPANEL REPORT ON FINAL 2016 CATCH SHARING PLAN  
AND MANAGEMENT MEASURES AND PRELIMINARY SABLEFISH FISHERY  
INCIDENTAL LANDING REGULATIONS

The Salmon Advisory Subpanel (SAS) met via webinar on November 4, 2015 and discussed the 2016 Catch Sharing Plan (CSP) and Management Measures. The SAS does not have comments or recommendations regarding plans for the 2016 CSP or regulations. The SAS notes that the Council's Year-at-a-Glance Summary (Agenda Item F.6, Attachment 1) includes the consideration of changes to Pacific halibut allocations beginning at the June 2016 Council meeting. The SAS is very interested in this topic and would prefer to be in attendance at any Council meeting where allocation is discussed and would appreciate the inclusion of a salmon fishery representative to any Council advisory group that may be formed to address Pacific halibut allocation.
