

FINAL INCIDENTAL LANDING RESTRICTIONS FOR 2016-2017  
SALMON TROLL FISHERY

The 2016 Pacific halibut Catch Sharing Plan (CSP) for Area 2A allocates 15 percent of the non-Indian commercial halibut allocation to the salmon troll fishery as incidental catch. The primary management objective outlined in the CSP is to harvest the incidental quota during the April through June salmon troll fishery, with a secondary objective to harvest any remaining quota from July through the remainder of the salmon troll fishery.

The Council has successfully used landing ratios and a total trip limit to ensure a manageable progression of the fishery in past years. A summary of management information for the incidental halibut fishery since the initial season in 1995 is provided in Agenda Item I.1, Attachment 1. The April 1-30, 2016 landing restrictions are no more than one halibut per each four Chinook, except one halibut may be landed without meeting the ratio requirement and no more than 12 halibut may be landed per trip. For the rest of the season, the Council adopted the following options for public review. Final action to implement the limits is scheduled under this agenda item.

Alternative 1 (Status Quo): May 1, 2016 through December 31, 2016 and April 1-30, 2017, license holders may land no more than one Pacific halibut per each four Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 12 halibut landed per trip.

Alternative 2: May 1, 2016 through December 31, 2016 and April 1-30, 2017, license holders may land no more than one Pacific halibut per each three Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 15 halibut landed per trip.

Alternative 3: May 1, 2016 through December 31, 2016 and April 1-30, 2017, license holders may land no more than one Pacific halibut per each three Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 20 halibut landed per trip.

The landing restrictions adopted for the start of the season in 2016 would be in effect from April 1-30, 2017 (pre-May 1 fisheries) unless modified by the Council through a recommendation for inseason action at the March 2017 meeting.

**Council Action:**

**Adopt final landing restrictions for Pacific halibut caught incidentally in the non-Indian salmon troll fishery May 1, 2016 through December 31, 2016 and April 1-30, 2017.**
