

GROUND FISH ADVISORY SUBPANEL REPORT ON FUTURE COUNCIL MEETING
AGENDA
AND WORKLOAD PLANNING

The Groundfish Advisory Subpanel (GAP) has reviewed the materials under this agenda item and offers the following comments.

The GAP supports the inclusion of #G7, FPA for Revised A-21 At-Sea Allocations, and #G8, Omnibus Workload Planning, on the Council's agenda. We also support including #J7, Bycatch Strategy and Reporting Plan, and #J8, White Paper on Best Scientific Information Available Determinations, on the Council agenda.

The Limited Entry Fixed Gear Sablefish ROA, #9, could be an informational item that requires no Council floor time but could be added to the GAP agenda.

Given the GAP's understanding of competing workload, it's unclear whether items #G5, Salmon Bycatch Consultation Analysis and #G6, EFH/RCA Amendment PPA, will be ready for September and could be postponed to a later meeting.
