

ENFORCEMENT CONSULTANTS REPORT ON  
ELECTRONIC TICKET REPORTING TIMELINE REQUIREMENTS

The Enforcement Consultants (EC) has reviewed Agenda Item F.6, Supplemental Attachment 1, and appreciates representatives of the Groundfish Advisory Subpanel (GAP), Pacific Council staff, and Pacific States Marine Fisheries Commission staff meeting with Mr. Dayna Matthews of NOAA to develop the options summarized in the document. During the April 2017 Pacific Council meeting, the EC was tasked by the Council to work with the GAP to explore possible non-regulatory solutions to address industry concerns with meeting the electronic ticket reporting timeline requirements and to present them at this meeting. The EC feels both Options 1 and 2 adequately fulfill the Council's request.
