Dear Council Members

This letter of correspondence is in regard to Agenda Item J.3 Supplemental Attachment 7 March 2017 Deep Set Buoy Gear EFP application Roger Cullen. We will not be using braided dacron line as suggested in our original application but the standard configuration with mono line. Also I would like to make a clarification requesting 10 fishing days per year in the area of the San Lucia Bank as indicated with in our application,

Thank You for the Council's consideration. We look forward to participating and adding value to this EFP Project.

Sincerely,

Roger Cullen

Deep-Set Buoy Gear Exempted Fishing Permit Application Form

Please reference the instructions for specifics on filling out your application.

1) Application Date: 2/16/17

2) Applicant(s):

a) Name: ROGER CULLEN Phone No: (805) 9091025
Email: DORADO 032002 @ YAHOO.COM
Address: 1040 PINERIDGE DR. CAMBRIA CA 93428
Commercial Fishing Permits Held: SABLE ENDORSED FIXED GEAR, NEARSHORE SALMON AND SOUTHERN ROCK CRAB.

b) Name: _____ Phone No: _____
Email: _____
Address: _____
Commercial Fishing Permits Held: _____

*List additional applicants on a separate page.

3) Number of vessels: 1

a) Vessel Name: DORADO Registration Number: 1176889
Name of Operator: ROGER CULLEN
Commercial Fishing Permits Held: SEE ABOVE

b) Vessel Name: _____ Registration Number: _____
Name of Operator: _____
Commercial Fishing Permits Held: _____

*List information for additional vessels and operators on a separate page.

4) Commercial Fishing Experience of EFP Participants:

1a) DSBG - Years: 10 Type of participation: GROUNDFISH LONGLINE
1b) Other Swordfish gear - Type(s): _____
Years: _____ Type of Participation: _____
1c) Other gear(s) - Type(s): DEEP SET VERTICAL HOOK AND LINE
Years: 30 Type of Participation: GROUNDFISH

2a) DSBG - Years: 2 Type of participation: EFP PARTICIPANT (ROD FISH R&E PROJECT)
2b) Other Swordfish gear - Type(s): _____
Years: _____ Type of Participation: _____
2c) Other gear(s) - Type(s): GROUNDFISH FISH TRAPS
Years: 30 Type of Participation: NEARSHORE AND RESEARCH

*List information for additional EFP participants on a separate page.

5) Proposed EFP duration: TWO TO FIVE YEARS

Justification: BEING SEASONAL THIS WILL ALLOW ADEQUATE TIME
TO PERIOD

6) Intended DSBG Configuration: Standard (Attachment A) Modified (please explain)

WE WILL BE USING A HYDROIL SNAPPER HAULER, 10
SPONS OF 600 LB BRADED OARON, LINE WITH ATTACHMENTS
AS INDICATED IN ATTACHMENT A

7) Target Species: Swordfish Other (please list):

BIGEYE TUNA, THRENSHER SHARK, BLUEFIN TUNA

8) Fishing Area and Effort (indicate all that apply):

a) Southern California Bight (Point Conception to the U.S.-Mexico Border):

i) Vessels: _____

ii) Estimate of fishing effort: _____

iii) Additional details: _____

b) Central California (Point Reyes to Point Conception):

i) Vessels: ONE

ii) Estimate of fishing effort: AUGUST THROUGH DECEMBER EACH YEAR

iii) Additional details: PRIMARILY THE LUCIA BANK

(LUCIA)

c) Northern California (42° N. latitude to Point Reyes):

i) Vessels: _____

ii) Estimate of fishing effort: _____

iii) Additional details: _____

d) Oregon (Columbia River to 42° N. latitude):

i) Vessels: _____

ii) Estimate of fishing effort: _____

iii) Additional details: _____

9) Data Gaps: Which of the following data gaps are addressed by your Exempted Fishing Permit application, and how will they be addressed? (See Attachment B) Check all that apply:

a) Bycatch & protected species interactions How? *DAY FISHING ONLY, DEEP HOOK SETS TO AVOID PROTECTED SPECIES INTERACTION. ALL FISHING ACTIVITY DOCUMENTED BY OUR OBSERVER AND/OR LOG BOOK. FISHING SETS WILL BE BELOW THE MORGUE. SEE ATTACHMENT B*

b) Active gear tending How? *GEAR WILL BE CONSISTENTLY MONITORED DURING FISHING ACTIVITY. ONLY ONE OR TWO SETS WILL BE DEPLOYED UNTIL CURRENT IS OBSERVED TO ENSURE A ACCEPTABLE GROUPING, THEREAFTER ONLY THE ONLY THE QUANTITY OF GEAR THAT CAN BE OBSERVED PROPERLY. GEAR WILL BE SET COHERENT FOLLOWING FATHOM CURVE APPROPRIATE DISTANCE BETWEEN SETS, TWO LD 2 BOOYS WITH MARKERS.*

c) Gear conflicts/number of vessels How? *CLOSE RADIO COMMUNICATIONS IS STANDBY WITH DSBC. SET POINTS ARE COMMUNICATED WITH APPROXIMATE FISHING VESSELS. SET AREA IS CONSISTENTLY MONITORED WITH RADAR AND AIS. SEVERAL VESSELS COULD POTENTIALLY WORK IN THE PROPOSED AREA (SAN LUCIA BANK)*

d) DSBC time and area use How? *WITH THE USE OF TWO HYDROLINE SNAP POLE REELS WITH PLICKS, 10 ALUMINUM SPOOLS WITH ATTACHMENT SNAPS THIS GEAR CAN BE DEPLOYED AND RETRIEVED IN A VERY EFFICIENT MANNER. THIS WILL ENSURE GEAR WILL BE WITHIN PERMITTED FISHING DAY HOURS.*

e) Gear configuration How? *SPEC ATTACHMENT "A", MONOFILAMENT LINE MAY BE SUBSTITUTED WITH HIGH STRENGTH BRAIDED KACRON LINE. THIS WILL PROMOTE EFFICIENT DECK SPACE. (MAIN LINE ON COMPACT REELS)*

f) Concurrent gear use How? *TO MAINTAIN GOOD OBSERVATION OF SET GEAR DEPLOYED WE WILL NOT BE ENGAGING IN ANY OTHER FISHING ACTIVITY THAT MAY DISTRIBUTE FROM DSBC. WE WILL HAVE A CONTINGENCY PLAN TO SET DEEP WATER LONGLINE SETS FOR SABLE FISH IF THERE IS NO PRODUCTION WITH DSBC. THIS WILL TAKE PLACE AFTER DSBC DAY GEAR IS RETRIEVED AND WILL HELP PAY FOR OBSERVATION COSTS.*

10) Reporting Requirements: Please answer questions identified in application instructions.

ALL TERMS AND CONDITIONS OF THIS PROPOSED EFP WILL BE STRICTLY FOLLOWED AS INDICATED IN ATTACHMENT C PARAGRAPH F. THIS EFP WILL BE THE THIRD WE WILL HAVE PARTICIPATED IN. THREE YEARS WITH THE TRAWL GEAR SWITCHING EFP WITH TNC. TWO RECENT YEARS PART-TIME IN THE ROCKFISH RGA PROJECT AND SEVERAL PAST YEARS WITH GRUNOFISH RESEARCH PROJECTS (MOSS MARINE LAB, CAL POLY LCT. WE ARE VER. FAMILIAR WITH AND FOLLOWING REPORTING REQUIREMENTS.

11) Observer Coverage:

I acknowledge that observer coverage may be required on up to 100% of my EFP fishing trips, and verify that I am willing and able to cover the cost of such coverage.

If you are unable to cover the entire cost of the observer coverage requirement, please explain what portion you may be able to cover and identify other sources of funding which may be available to help you cover observer costs.

WE WILL HAVE A CONTRACT PLAN FOR UNSUCCESSFUL TRIPS AFTER HOURS WE WILL SET OUT LONGLINE GEAR FOR SABREFISH AND SHORTSPINN TO COVER TRIP COSTS INCLUDING OBSERVER COVERAGE.

12) Applicant(s) Signature:

2/14/17

Date

Attachment A: Specification of Standard DSBG Configuration

The following description is based on the gear description in the February 1, 2015, PIER EFP application (Agenda Item H.3.a, Attachment 2, March 2016. See also C. A. Sepulveda, C. Heberer, and S. A. Aalbers. 2014. Development and Trial of Deep-set Buoy Gear for Swordfish, *Xiphias gladius*, in the Southern California Bight. *Marine Fisheries Review* 76(4): 28-36.).

DSBG configuration

The DSBG configuration consists of a three-float system which includes two strike-indicator floats (3.2 kg) and one 36 cm diameter (21 kg), non-compressible longline float. The configuration also includes a hi-flyer locator flag and a radar reflector or strobe to prevent gear loss (see diagram below). Collectively, each piece of DSBG includes from 270 to 320 m of monofilament mainline rigged with 1-3 monofilament gangions.

Gear may contain up to three monofilament gangions branching from the mainline, all of which must be positioned at depths below 100 m (see diagram below). Gangions are to be constructed of monofilament (no-wire) with a single 18/0 circle hook (Mustad model 39960D) baited with either squid or mackerel. Battery-operated illumination may be used at the juncture of the mainline and gangion. One or two of the branching gangions are used to target swordfish at depths between 700 and 1200m. A third optional hook can be fished at >90m to target opah and common thresher shark when available.

One full set of DSBG is defined as 10 individual pieces of gear deployed simultaneously (maximum of 30 hooks/set).

Gear Deployment

DSBG is deployed along a maximum horizontal distance of 6 km. Once deployed, DSBG is continually monitored visually and vessels must remain within the immediate area (<3 nm) of any one piece of gear. All gear must be labelled with the vessel's name, official number, or other designation as specified by NMFS.
