INTRODUCTION

This document contains or identifies the various elements, documents, and sources comprising the complete and official record of Council meeting discussions and actions. In addition to the Meeting Summary, which follows this introductory section (see #7 below), it includes information or references that serve as the functional detailed minutes for this Council meeting as required by §302(i)(2)(E) of the Magnuson-Stevens Act. The full record is maintained at the Council office, is available on the Council website (<http://www.pcouncil.org/>) or upon request from the Council office, and consists of the following:

1. **Meeting Notice and Proposed Agenda** – These documents are available on the Council Website prior to and following each meeting at <http://www.pcouncil.org/>.
2. **Attendance Records** – These documents are available for the Council meeting and each advisory body meeting by request from the Council office.
3. **All Documents, Reports, and Presentations for Council Consideration** – These items include (1) all documents produced or received for the meeting briefing book, validated by a label assigned by the Council Secretariat and distributed to Council Members; (2) written public comments received at the Council meeting in accordance with agenda labeling requirements; and (3) electronic material or handout materials used in presentations to Council Members during the open session. They are available from links in the Meeting Summary of this document or at <http://www.pcouncil.org/council-operations/council-meetings/past-meetings/>.
4. **Council Decision Summary Document** – This document is distributed shortly after each Council meeting. It provides very brief descriptions of most key Council decisions and is available at <http://www.pcouncil.org/resources/archives/council-meeting-decisions/> and also provided by agenda item in the Meeting Summary of this document.
5. **Draft or Final Decision Documents Finalized after the Council Meeting** – Documents such as Environmental Impact Statements or Environmental Assessments are available on the Council website as they are completed.
6. **Gavel-to-Gavel Audio Recordings** – These recordings contain the testimony, presentations, discussions, and actions occurring at the meeting and are labeled by date and time (e.g., 04-11-15am1) and have been annotated as to the time on the recording for the start of each agenda line item to help facilitate review. The recordings may be accessed from the links contained within the Meeting Summary of this document or at <http://www.pcouncil.org/council-operations/council-meetings/past-meetings/>.
7. **Meeting Summary** (immediately follows this section) – The Meeting Summary lists, in agenda item order, the briefing book documents, reports, presentations, and Council motions and actions, including a brief summary from the Council Decisions Summary Document for each agenda item. It constitutes the meeting record formally approved by the Council. The agenda heading for each agenda item, and most listed documents, serve as internet links to the actual briefing book documents. Internet links in brackets (e.g., [mp3: [11-11-14pm1@01:21:15](#)]) refer to the audio recording and elapsed time on the recording at which the agenda item was initiated. Links to the audio recordings are annotated by agenda item and may also be accessed at <http://www.pcouncil.org/council-operations/council-meetings/past-meetings/>.
8. **Voting Log** – The voting log lists, in Agenda order, the summarized Council motions and actions for each agenda item that took place during the meeting.

Staff Summary: The Council and its advisors received a briefing on a draft NMFS policy on determining the Best Scientific Information Available (BSIA) for decision-making by Regional Fishery Management Councils. The Council emphasized the Pacific Council's robust scientific peer review and oversight by the Council's Scientific and Statistical Committee in its BSIA determination process. The Council also underscored the need for quick determinations by NMFS at the regional level, given the need to avoid delays in using BSIA, and noted the current strong association of the Pacific Council and the Northwest and Southwest Fisheries Science Centers. The Council directed staff to send a letter to NMFS summarizing these comments. A draft policy paper from NMFS on how to make BSIA determinations is anticipated later this year.

Motion 27: Council elect Mr. David Crabbe as the Council Vice Chair for the August 11, 2017 through August 10, 2018 term.
Marc Gorelnik/Corey Niles (Motion carried unanimously)

Staff Summary: The Council elected Mr. Phil Anderson as the Council Chair and Mr. David Crabbe as the Council Vice-Chair for the August 11, 2017 through August 10, 2018 term.

The Council reviewed and approved the following appointments:

- Ms. Corey Ridings was appointed to the vacant California seat on the Ecosystem Advisory Subpanel.
- Dr. Andrew (Ole) Shelton was appointed to the vacant NMFS Northwest Fisheries Science Center seat on the Scientific and Statistical Committee.

The Council adopted changes to COP 4 regarding SSC membership, replacing the designated Alaska Fisheries Science Center seat with an at-large seat. Additionally, the Council directed staff to solicit nominations for this new at-large seat with an emphasis on seeking expertise in stock assessment science. A formal request for nominations will be posted to the Council webpage in the near future, with an anticipated submission deadline of August 15, 2017.

Motion 13 [mp3: 6-13-17am2 @0:51:08]: Council complete the intersector allocation review with the change recommended by the GMT (Agenda Item F.2.c, Supplemental GMT Report, June 2017) and approve Appendix E with the changes recommended by the GMT except for the section E.2.1.6 the proposed change to the second sentence.

Michele Culver/Rich Lincoln (Motion carried unanimously)

Motion 14 [mp3: 6-13-17am2 @0:59:29]: Council approve the draft report for public review with the following changes:

- Include the Trawl Catch Shares 5-Year Review Community Advisory Board's recommendations #1d (other constraining species), #2 (comparison indicators of profit), and #4 (should be corrected to #5) (ports list) in Agenda Item F.2.c, Supplemental CAB Report, June 2017, pages 1-2;
- Incorporate the recommendations in Agenda Item F.2.b, Supplemental SSC Report, June 2017; and
- Review the Executive Summary and consider revising or adding language to clearly convey that many of the program's economic benefit objectives have not been achieved.

Maggie Sommer/Jeff Feldner (Motion carried unanimously)

Motion 15 [[mp3: 6-13-17am2](#) @1:08:00]: Council announce that any acquisition of CP permits and/or use of CP sector whiting allocation after June 13, 2017 may not be included in any grandfather clause adopted by the Council when establishing ownership and/or use limits for CP permits. Request that NMFS make this announcement in the *Federal Register*. And add the following alternatives for analysis:

- No individual or entity may own or control more than four CP permits.
- No individual or entity owning a CP permit(s) may process more than 45 percent of the total CP sector whiting allocation.

Michele Culver/Rich Lincoln (Motion carried unanimously)

Motion 16 [[mp3: 6-13-17am2](#) @1:13:40]: Council to prioritize as:

Follow-on action high-priority items: Expedite completion of actions already “in the pipeline” (i.e., RCA/EFH, trawl gear regulation changes, and EFPs).

Recommend that the CAB consider the following issues, and provide preliminary alternatives, if possible, for Council consideration in September, 2017:

- Elimination of the sablefish management line at 36° N. for the trawl sector
- Long-term solutions to address at-sea whiting bycatch needs, including but not limited to consideration of a permanent change from allocations/hard caps to set-asides; not including permanent QP trading at this time
- Changing accumulation limits
- Alternative management tools/approaches for choke species
- Gear switching: consider results of further analysis (see below)

Further analysis to support scoping of high-priority follow-on actions: Request that the catch share review analysis team conduct additional analyses necessary to:

- Understand the impacts of accumulation limits, and support evaluation of changing and/or eliminating them
- Understand the nature and extent of gear-switching and sablefish access issues:
 - CAB recommendations 1.a, e, and f in Agenda Item F.2.c, Supplemental CAB Report, June 2017, page 1
 - Factors influencing sablefish quota lease prices
 - Impact of sablefish lease price and availability on economic stability of harvesters and processors
 - Understand the implications of a continuing increase in the ratio of leasing to owner-on-board use of QS/QP

Additional follow-on actions (for subsequent consideration):

- Recommend the CAB further explore and develop alternatives for permanent resolution of AMP.
- Request that NMFS explore options for reducing observer and catch monitor costs and report back to the Council.

Maggie Sommer/Dorothy Lowman

Amendment 1 [[mp3: 6-13-17am2](#) @1:34:21]: Council include for analysis setting a percentage of QS/QP for sablefish that would be designated as trawl only. This could be considered in the context of the AMP or as a stand-alone item.

Michele Culver/Rich Lincoln (amendment carried unanimously)

Main Motion, as amended, carried unanimously

Staff Summary: The Council directed staff to finalize the intersector allocation review document, after incorporating the changes [recommended by the Groundfish Management Team \(GMT\)](#), and to finalize the update of the description of the catch share program contained in Appendix E, after incorporating the changes recommended by the GMT excluding the proposed changes to the review schedule. The Council directed staff to release for public review the draft catch share review document, after incorporating recommendations from the [Scientific and Statistical Committee \(SSC\)](#) and the [Community Advisory Board's \(CAB\) recommendations](#) 1.d (other constraining species), 2 (comparison indicators of profit), and 5 (ports list). The authors were also directed to consider whether to revise or add clarifying language to the executive summary conveying that many of the program's economic benefit objectives have not yet been achieved.

The Council identified possible follow-on actions for the catch share review, but also noted that expedited completion of essential fish habitat (EFH)/Rockfish Conservation Area (RCA) revisions, the trawl gear regulatory package, and EFPs for gear and for year-round coastwide use of midwater gear to target non-whiting species, already under consideration by the Council, was a high priority. Follow-on actions identified included: 1) elimination of the sablefish management line at 36° N. for the trawl sector; 2) long-term solutions to address at-sea whiting bycatch needs; 3) changing accumulation limits; and 4) alternative management tools/management approaches for constraining species. At its July 27-28 meeting in Portland, Oregon, the CAB will work on developing preliminary alternatives on these issues for Council consideration in September 2017.

The Council requested the following specific analyses be provided to the CAB for consideration: the impacts of accumulation limits; the implications of continued increase in the ratio of quota pounds (QP) leasing to quota share (QS) owner use of QS/QP; and gear switching, including the possibility of establishing an amount of sablefish QS/QP that could only be used with trawl gear.

The Council also took action to consider limiting the accumulation of control over access and harvest within the catcher-processor (CP) sector. The Council recommended that NMFS announce that any acquisition of CP permits and/or use of CP sector whiting allocation after June 13, 2017 might not be included in any grandfather clause adopted by the Council when establishing ownership and/or use limits for CP permits. Further, the Council identified the following action alternatives for initial analysis: 1) no individual or entity may own or control more than four CP permits; and 2) no individual or entity owning a CP permit(s) may process more than 45 percent of the total CP sector whiting allocation.

As additional follow-on actions for subsequent consideration, the Council directed the CAB to explore and develop alternatives for permanent resolution of the AMP, and asked that NMFS explore options for reducing observer and catch monitor costs and report back to the Council.

Staff Summary: The Council supported moving forward with the development of alternatives for lingcod and sablefish discard survival credits in the trawl catch share program. The Council recommended adding the agenda item to the list of potential management measures in the 2019-2020 groundfish specifications process versus keeping it as a separate agenda item. The Council asked the GMT and Groundfish Advisory Subpanel (GAP) to assist in the development of alternatives for consideration. If the management measures are analyzed in the specifications process, then the Council requests that the GMT coordinate with the SSC to review the analysis. The Council would also like to include an analysis of how revision or removal of the lingcod size limits may affect all groundfish fishing sectors.

Staff Summary: The Council adopted new update stock assessments for arrowtooth flounder, blackgill rockfish, bocaccio, and darkblotched rockfish; as well as a new cowcod catch report. Arrowtooth flounder status is considered healthy with a depletion of 87 percent at the start of 2017 (relative to the management target of 25 percent) and an increasing biomass due to strong recent recruitments. Blackgill rockfish status is estimated to be close to, but just below, the management target of 40 percent with a depletion of 39 percent at the start of 2017. Bocaccio is estimated to be above their target of 40 percent with a depletion of 48 percent at the start of 2017. Darkblotched rockfish is also estimated to be just above the management target of 40 percent with a depletion of 40.03 percent at the start of 2017. Bocaccio and darkblotched rockfish have been managed under rebuilding plans and have subsequently been declared rebuilt by NMFS. The cowcod catch report indicated that recent year (2013-2016) catches have been well below the ACLs specified under the cowcod rebuilding plan, and the stock remains on track to be rebuilt by 2019.

Motion: None

Staff Summary: The Council received initial scoping comments from the GMT and GAP regarding a multi-year average catch policy which seeks to provide a more flexible ACL management framework. NMFS will inform the Council in September whether establishment of a new multi-year policy will require an amendment to the Groundfish Fishery Management Plan. The Council tasked the GMT and GAP with developing a draft purpose and need statement which articulates the need for such a policy, and report to the Council in September. The Council also tasked the GMT and GAP with providing examples of how a new multi-year average catch policy would work.

Staff Summary: The Council adopted the process and schedule for 2019-2020 specifications and management measures as [proposed by NMFS and Council Staff](#) with regulations scheduled for implementation on January 1, 2019. At the September meeting, the Council is scheduled to adopt stock assessments for lingcod, Pacific ocean perch, yelloweye, yellowtail, blue/deacon rockfishes, and California scorpionfish. The Council is also scheduled to take final action on overfishing limits and sigmas, as well as a range of P* values and acceptable biological catches, if applicable. Further, the Council is scheduled to consider a preliminary range of new management measures. Final action for all matters associated with the 2019-2020 harvest specifications and management measures is scheduled for June 2018.

- Work with NMFS OLE to modify the declaration process in order to accommodate the use of multiple trawl gears on one trip, and to document gear type use at the individual haul level.
- Enable the EFP to test whether observers or EM can confirm the type of gear being used, as recommended by the EC in Agenda Item F.8.a, Supplemental EC Report, June 2017.
- Require EFP participants to provide information on specific gear configurations by haul to NMFS, as recommended by the GMT in Agenda Item F.8.a, Supplemental GMT Report, June 2017.
- Specify an area-based sub-cap of 80 chinook for the area South of 42° N., out of the 800 allowed in the entire EFP area prior to May 15.

Additionally, request NMFS to review the options for decision-making on the operation of this EFP south of 42° N. and report to the Council in September, including consideration of delaying approval of the EFP south of 42 until 2018 pre-season Chinook forecasts are available, and/or approving only limited elements of the EFP for the area south of 42° N.

Maggie Sommer/Marci Yaremko (Motion carried, Mr. Lockhart abstained)

Staff Summary: The Council adopted the preliminary 2018 Year-Round Midwater Rockfish exempted fishing permit (EFP) [as proposed by the proponents](#) with the following additions and recommendations: (1) work with NMFS Office of Law Enforcement (OLE) to modify the declaration process in order to accommodate the use of multiple trawl gears on one trip, and to document gear type use at the individual haul level; (2) enable the EFP to test whether observers or electronic monitoring (EM) can confirm the type of gear being used, as [recommended by the Enforcement Consultants \(EC\)](#); (3) require EFP participants to provide information on specific gear configurations by haul to NMFS, as [recommended by the GMT](#); and (4) specify an area-based sub-cap of 80 chinook for the area South of 42° N., out of the 800 allowed in the entire EFP area prior to May 15. The Council also requested that the EFP holders transmit the additional haul-specific gear configuration information from the 2017 EFP to NMFS for the trips already made, consistent with the GMT recommendation.

Additionally, the Council requested NMFS to review the options for decision-making processes for the operation of the EFP south of 42° N. and report to the Council in September, including consideration of the possibility of delaying approval of the EFP south of 42° N. until the 2018 pre-season Chinook forecasts are available, and/or approving only limited elements of the EFP for the area south of 42° N.

Joanna Grebel/Marc Gorelnik (Motion carried unanimously)

Staff Summary: The Council adopted revised coordinates for the 125 fm line at Usal and Noyo canyons in California, as shown in Table 1 of the [CDFW Report](#), for NMFS implementation. These modifications are intended to provide access to canyons that were previously open when the 150 fm line was in effect (2003-2016). The modifications for Delgada, Point Ano Nuevo, and Cordell Banks contained in the [CDFW Report](#) from the April 2017 Council meeting and any other proposed modifications will be forwarded for consideration in the 2019-2020 harvest specifications and management measures process at the September 2017 Council meeting.

Motion 17 [[mp3: 6-13-17pm1 @1:28:06](#)]: Council to adopt as inseason action:

- North of 40° 10' N. latitude, increase the lingcod trip limits for the limited entry and open access fixed gear sectors to the values in Table 1, Option 2 in Agenda Item F.10.a, Supplemental REVISED GMT Report 2, June 2017.
- South of 40° 10' N. latitude, increase the lingcod trip limits for limited entry and open access fixed gear sectors to the values in Table 3, Option 2 in Agenda Item F.10.a, Supplemental REVISED GMT Report 2, June 2017, and modify the shoreward non-trawl RCA boundary between 40° 10' N. lat. and 34° 27' N. lat. from 30 fathoms to 40 fathoms.

Maggie Sommer/Joanna Grebel (Motion carried unanimously)

Motion 18 [[mp3: 6-13-17pm1 @1:49:24](#)]: Council approve the release of the POP buffer (25 mt) and the Darkblotched buffer (50 mt) to the MS and CP sectors dividing the buffer amounts equally between the two sectors.

Phil Anderson/David Sones (Motion carried, Mr. Lockhart abstained)

Staff Summary: The Council recommended NMFS implement increases to the lingcod limited entry and open access fixed gear limits as soon as possible as follows:

Area	Sector	July-Oct	Nov	Dec
North 40° 10' N. Lat.	LE	1,400 lbs. bimonthly	700 lbs.	400 lbs.
	OA	700 lbs. monthly	700 lbs.	200 lbs.
South 40° 10' N. Lat.	LE	1,200 lbs. bimonthly	600 lbs.	300 lbs.
	OA	600 lbs. monthly	200 lbs.	150 lbs.

The Council also recommended the shoreward boundary of the non-trawl RCA between 40° 10' N. lat. and 34° 27' N. lat. be modified from 30 fathoms to 40 fathoms.

The Council also discussed the challenges the at-sea sectors have experienced managing their rockfish bycatch allocations as the sectors voluntarily move north to avoid Chinook salmon. The at-sea sectors noted the possibility of voluntary agreements to transfer canary and widow rockfish allocations between the mothership and catcher-processor sectors. The Council encouraged

NMFS to implement such allocation changes if the agreements are forwarded to the agency. The Council also recommended NMFS allocate the Pacific ocean perch (25 mt) and darkblotched rockfish (50 mt) buffers equally to the mothership and CP sectors.

Finally, the Council directed the GMT to develop alternatives for potentially distributing the canary rockfish buffers and report back at the September Council meeting in Boise, Idaho.

Motion: None

Staff Summary: The Council began scoping the potential for greater allocation changes for future CSPs than could be accomplished in the standard two-meeting process (i.e., September and November). The Council reviewed the agency and advisory subpanel reports, as well as public comment, and recommended the following options be further developed for Council consideration and NMFS assessment of the required analysis in September:

- Options for the Washington recreational sector, as shown in the [Washington Department of Fish and Wildlife \(WDFW\) Report](#) (starting at the bottom of page 4), intended to provide flexibility to share allocations among the Washington recreational sub-areas; a statewide season in May, along with reducing the possession limit in the field to one fish and an annual bag limit of two halibut per angler.
- Options for a combined commercial and recreational allocation for California as described in the [California Department of Fish and Wildlife \(CDFW\) report](#). The allocation would be 7.51 or 7.15 percent of the non-tribal quota by reducing the non-tribal commercial share by 3.51 or 3.15 percent. The California commercial share would provide for incidental retention in the groundfish and salmon troll fisheries and the non-tribal commercial share would then be for north of 42° N. latitude only. CDFW may also consider an option that limits the California commercial share to incidental retention in the groundfish fisheries only while maintaining the incidental salmon troll allocation.
- Increase the California recreational subarea allocation from 4 to 6 percent by equally reducing the Washington and Oregon recreational subarea allocations as outlined in the [Groundfish Advisory Subpanel Report](#). When considering this option, WDFW may consider reducing the incidental halibut allocation to the primary sablefish north of Pt. Chehalis to provide Washington's proposed 1 percent contribution.
- Options for moving away from 10 hour derby openings, such as managing the non-tribal directed commercial fishery for halibut to provide a 20-day, 30-day, or shorter season managed with per vessel trip limits by vessel length.

The Council is scheduled to adopt for public review proposed changes to the 2018 CSP at their September 2017 meeting with final action scheduled for the November 2017 Council meeting.

- c. **Council Action: Develop a Preliminary Range of Alternatives for Authorizing a Federal West Coast Swordfish Deep-Set Buoy Gear Fishery including Federal Permitting** [[mp3: 6-13-17pm3](#) @0:00:10]

Motion 19 [[mp3: 6-13-17pm3](#) @0:01:59]: Council adopt the purpose and need as described in the HMSMT report (Agenda Item H.3.a), and approve a preliminary range of alternatives for an authorized Federal west coast DSBG fishery including Federal permitting, as described in the HMSMT Report, the Supplemental HMSMT Report, the Supplemental EC Report, and the Supplemental HMSAS Reports 1 and 2, with the following modifications:

1. Under Geographic Area Considerations (p4 of the HMSMT Report), limit further analysis to Alternative 2 (All Federal waters off California and Oregon)
2. Include voluntary trade-in alternatives that would allow DGN permittees to surrender a permit in exchange for one or more DSBG permits.
3. Regarding the Sunset Date:

Request the HMSAS, EC, and HMSMT work to refine an alternative with explicit ‘gear may not be deployed before’ and ‘must be out of the water by’ language, which may be different during different times of year (e.g., summer vs winter months, or PST vs. PDT). Also include an alternative that would allow the use of a strobe light or other device to mark a fish on a single piece of gear for future retrieval after the end time.

4. Request the EC and HMSMT continue development of the Alternative to:
 - 4a. establish a seaward boundary for DSBG of 150 fathoms, as defined by waypoints currently used to define RCA boundaries, including further analysis regarding use of VMS to enforce this line.
 - 4b. develop a definition for maximum gear footprint (per permit) to mitigate potential crowding with other DSBG or other fishing sectors and to facilitate active tending.
5. Acknowledging the desire to allow commingling of fishing activities and gears on a single trip, direct the HMSMT to consult with the GMT on the topic of species retention, transiting through RCAs, and ways to avoid overfished species.
6. Regarding Permitting Alternatives – include among the alternatives the option for a gear endorsement to the existing HMS permit (e.g., a registration requirement)
7. For the Southern California Bight only, include an Alternative to limit DSBG fishing activity to weekdays only.

Marci Yaremko/Buzz Brizendine

Amendment 1 [[mp3: 6-13-17pm3](#) @0:15:59]: under section 4a change “seaward” to “shoreward”

David Crabbe/ Caren Braby: Amendment carried unanimously.

Main Motion, as amended, carried unanimously

Staff Summary: The Council reviewed the range of alternatives described by [the HMSMT](#); considered advice from the HMSMT, HMSAS, EC, and the public; and provided guidance to refine the alternatives for potential adoption at the September meeting. The Council endorsed the range of alternatives proposed by the [HMSMT](#) with the following refinements:

1. Limit further analysis of the area for authorizing the fishery to Federal waters off California

and Oregon.

2. Include voluntary trade-in alternatives that would allow drift gillnet (DGN) permittees to surrender a permit in exchange for one or more deep-set buoy gear (DSBG) permits.
3. Refine gear retrieval requirements so as to discourage the use of gear at night while providing reasonable accommodation for gear retrieval that extends after dusk.
4. Develop an option to restrict the fishery to depths greater than 150 fathoms.
5. Develop guidelines for engaging in other commercial fishing activities on the same trip where DSBG is deployed. Use of other gear would have to be compliant with active tending requirements for DSBG.
6. Develop a permitting alternative to include a DSBG endorsement on the current Federal HMS permit.
7. Develop an alternative that would restrict DSBG fishing in the Southern California Bight to weekdays only.

c. Council Action: Provide Recommendations to NMFS on Exempted Fishing Permit Applications to test Deep-Set Buoy Gear [[mp3: 6-14-17am1 @0:02:07](#)]

Motion 22 [[mp3: 6-14-17am1 @0:52:46](#)]: Council adopt the recommendations to NMFS on EFP applications to test DSBG as described in the Table contained in Agenda Item H.4.a, Supplemental HMSAS Report.

Marci Yaremko/Buzz Brizendine (Motion carried unanimously)

Staff Summary: The Council:

- Adopted the [HMSAS](#) recommendations for issuing EFPs based on the 19 applications reviewed at this meeting.
- Endorsed the [HMSMT](#) recommendations for observer coverage levels.
- Requested NMFS to report on development of a logbook for DSBG EFPs.
- Noted that most applicants proposed fishing in the Southern California Bight and expressed concern about potential gear conflicts depending on the level of fishing effort when recommended EFPs are issued. For that reason, in the future, applications that propose fishing outside the Southern California Bight may be prioritized in the approval process.

Motion 20 [[mp3: 6-13-17pm3](#) @0:54:56]: Council to instruct staff to prepare a letter in response to NMFS regarding the overfished condition of striped marlin to include the language proposed in Agenda Item H.5.b, Supplemental HMSMT Report; page 2 under “Recommendation.”
Rich Lincoln/Buzz Brizendine (Motion carried unanimously)

Motion 21 [[mp3: 6-13-17pm3](#) @0:58:07]: Council adopt the HMSMT recommendation with regard to observer safety (Agenda Item H.5.b, Supplemental HMSMT Report, June 2017).
Marc Gorelnik/David Crabbe (Motion carried unanimously)

Staff Summary: The Council made recommendations in response to the August 17, 2016, notification from NMFS that the Western and Central North Pacific Ocean stock of striped marlin is overfished and subject to overfishing. The Council determined that there is no need for additional domestic regulations pursuant to its HMS FMP, because vessels managed under the FMP do not catch fish from this stock. The Council noted that the objectives in Conservation and Management Measure 2010-01, adopted by the Western and Central Fisheries Commission, are being met.

The Council supported the draft U.S. proposal to the Inter-American Tropical Tuna Commission (IATTC) for a second rebuilding target for Pacific bluefin tuna (20%SSB_{current, F=0}) to be achieved by 2030 with at least 60 percent probability. This target is a reasonable approximation of maximum sustainable yield, and therefore consistent with the harvest specifications framework in the FMP and with past Council recommendations.

The Council also recommends the U.S. delegation to the July 24-28 IATTC meeting advocate for the U.S. proposal on observer safety.

Motion: None

Staff Summary: The Council reviewed a draft of the OLE West Coast Division Enforcement Priorities (2018 – 2022) and expressed its appreciation for the cooperative manner in which the priorities were developed and the cooperative relationship between OLE, state enforcement, and the United States Coast Guard. Appreciation was also expressed for the Joint Enforcement Agreement and the important role that it plays in West Coast enforcement. VOTING LOG

Motion 1: Adopt [Agenda Item A.4, June 7-14, 2017 Council Meeting Agenda](#) with a minor change in Agenda order for F.8 by allowing the EFP proponents to discuss prior to the management team and advisory body statements.

David Crabbe/Mark Gorelnik (Motion carried unanimously)

Motion 2: Council:

1. Approve the Pacific mackerel biomass projection estimate for US management in 2017-18 and 2018-19 ([Agenda Item D.1, Attachment 1, June 2017](#)).

2. Adopt the 'Harvest and Management Specifications' section and tables 1 and 2 described in [Agenda Item D.1.a, Supplemental CPSMT Report, June 2017](#).

Briana Brady/Buzz Brizendine (Motion carried unanimously)

Motion 3: Council approve the aerial survey methodology for use in future Coastal Pelagic Species stock assessments, consistent with the Methodology Review Panel report ([Agenda Item D.2, Attachment 1](#)).

Briana Brady/David Crabbe (Motion carried unanimously)

Motion 4: Council approved the draft Klamath letter ([Agenda Item E.1, Attachment 2](#)).

Marci Yaremko/Marc Gorelnik (Motion carried, Mr. Lockhart abstained)

Motion 5: Council adopt the stock assessments and Cowcod report as endorsed by the SSC ([Agenda Item F.4.a, Supplemental SSC Report, June 2017](#)).

Corey Niles/Rich Lincoln (Motion carried, Mr. Lockhart abstained)

Motion 6: Council adopt the preliminary 2018 Year-Round Midwater Rockfish EFP as proposed in [Agenda Item F.8.b, Supplemental Public Comment PowerPoint, June 2017](#), with the following additions and recommendations:

- Work with NMFS OLE to modify the declaration process in order to accommodate the use of multiple trawl gears on one trip, and to document gear type use at the individual haul level
- Enable the EFP to test whether observers or EM can confirm the type of gear being used, as recommended by the EC in [Agenda Item F.8.a, Supplemental EC Report, June 2017](#)
- Require EFP participants to provide information on specific gear configurations by haul to NMFS, as recommended by the GMT in [Agenda Item F.8.a, Supplemental GMT Report, June 2017](#)
- Specify an area-based sub-cap of 80 chinook for the area South of 42° N., out of the 800 allowed in the entire EFP area prior to May 15

Additionally, request NMFS to review the options for decision-making on the operation of this EFP south of 42° N. and report to the Council in September, including consideration of delaying approval of the EFP south of 42 until 2018 pre-season Chinook forecasts are available, and/or approving only limited elements of the EFP for the area south of 42° N.

Maggie Sommer/Marci Yaremko (Motion carried, Mr. Lockhart abstained)

Motion 7: Council adopt the recommendations of the Budget Committee ([Agenda Item C.2.a, Supplemental Budget Committee Report, June 2017](#))

Dorothy Lowman/Phil Anderson (Motion carried, Mr. Wulff abstained)

Motion 8: Council approve the March 2017 and April 2017 Council meeting records as shown in [Agenda Item C.4, Attachment 1, June 2017](#) and [Attachment 2, June 2017](#) respectively.

David Crabbe/Buzz Brizendine (Motion carried unanimously)

Motion 9: Council adopt the final coordinates for the 125 fathom RCA line in CA as described in [Agenda Item F.9.a, CDFW Report, June 2017](#).

Joanna Grebel/Marc Gorelnik (Motion carried unanimously)

Motion 10: Council adopt the proposed HMS FMP Amendment 4 language as contained in [Agenda Item H.2, Attachment 1](#) for public review.
Michele Culver/Rich Lincoln (Motion carried unanimously)

Motion 11: Council adopt for public review the recommendation for Agenda Item H.2, as described in [HMSMT Report H.2.a, June 2017](#), to modify chapter 5 to address the biennial schedule.
Caren Braby/David Crabbe (Motion carried unanimously)

Motion 12: Council to put out for public review, the wording from [Agenda Item H.2.a, Supplemental HMSAS Report](#), page 1, sections 1.1, modify as follows: 1) delete the last sentence that states “The logic here is to not disadvantage the US fleets in relation to fleets from other countries.” and section 4.5.1 modify by inserting from section 4.5.1 from Attachment 1, the last two sentences from the first paragraph, June 2017.
Buzz Brizendine/David Crabbe with Michele Culver/Marci Yaremko amendment.
Main Motion, as amended, carried unanimously

Motion 13: Council complete the intersector allocation review with the change recommended by the GMT ([Agenda Item F.2.c, Supplemental GMT Report, June 2017](#)) and approve [Appendix E](#) with the changes recommended by the GMT except for the section E.2.1.6 the proposed change to the second sentence.
Michele Culver/Rich Lincoln (motion carried unanimously)

Motion 14: Council approve the [draft report](#) for public review with the following changes:

- Include the Trawl Catch Shares 5-Year Review Community Advisory Board’s recommendations #1d (other constraining species), #2 (comparison indicators of profit), and #4 (should be corrected to #5) (ports list) in [Agenda Item F.2.c, Supplemental CAB Report, June 2017](#), pages 1-2;
- Incorporate the recommendations in [Agenda Item F.2.b, Supplemental SSC Report, June 2017](#); and
- Review the Executive Summary and consider revising or adding language to clearly convey that many of the program’s economic benefit objectives have not been achieved.

Maggie Sommer/Jeff Feldner (Motion carried unanimously)

Motion 15: Council announce that any acquisition of CP permits and/or use of CP sector whiting allocation after June 13, 2017 may not be included in any grandfather clause adopted by the Council when establishing ownership and/or use limits for CP permits. Request that NMFS make this announcement in the *Federal Register*. And add the following alternatives for analysis:

- No individual or entity may own or control more than four CP permits.
- No individual or entity owning a CP permit(s) may process more than 45 percent of the total CP sector whiting allocation.

Michele Culver/Rich Lincoln (Motion carried unanimously)

Motion 16: Council to prioritize as:

Follow-on action high-priority items: Expedite completion of actions already “in the pipeline” (i.e., RCA/EFH, trawl gear regulation changes, and EFPs).

Recommend that the CAB consider the following issues, and provide preliminary alternatives, if possible, for Council consideration in September, 2017:

- Elimination of the sablefish management line at 36° N. for the trawl sector
- Long-term solutions to address at-sea whiting bycatch needs, including but not limited to consideration of a permanent change from allocations/hard caps to set-asides; not including permanent QP trading at this time
- Changing accumulation limits
- Alternative management tools/approaches for choke species
- Gear switching: consider results of further analysis (see below)

Further analysis to support scoping of high-priority follow-on actions: Request that the catch share review analysis team conduct additional analyses necessary to:

- Understand the impacts of accumulation limits, and support evaluation of changing and/or eliminating them
- Understand the nature and extent of gear-switching and sablefish access issues:
 - CAB recommendations 1.a, e, and f in [Agenda Item F.2.c, Supplemental CAB Report, June 2017](#), page 1
 - Factors influencing sablefish quota lease prices
 - Impact of sablefish lease price and availability on economic stability of harvesters and processors
 - Understand the implications of a continuing increase in the ratio of leasing to owner-on-board use of QS/QP
 - Council include for analysis setting a percentage of QS/QP for sablefish that would be designated as trawl only. This could be considered in the context of the AMP or as a stand-alone item.

Additional follow-on actions (for subsequent consideration):

- Recommend the CAB further explore and develop alternatives for permanent resolution of AMP.
- Request that NMFS explore options for reducing observer and catch monitor costs and report back to the Council.

Maggie Sommer/Dorothy Lowman (Motion, as amended (Culver/Lincoln), carried unanimously)

Motion 17: Council to adopt as inseason action:

- North of 40° 10' N. latitude, increase the lingcod trip limits for the limited entry and open access fixed gear sectors to the values in Table 1, Option 2 in [Agenda Item F.10.a, Supplemental REVISED GMT Report 2](#), June 2017.
- South of 40° 10' N. latitude, increase the lingcod trip limits for limited entry and open access fixed gear sectors to the values in Table 3, Option 2 in [Agenda Item F.10.a, Supplemental REVISED GMT Report 2](#), June 2017, and modify the shoreward non-trawl RCA boundary between 40° 10' N. lat. and 34° 27' N. lat. from 30 fathoms to 40 fathoms.

Maggie Sommer/Joanna Grebel (Motion carried unanimously)

Motion 18: Council approve the release of the POP buffer (25 mt) and the Darkblotched buffer (50 mt) to the MS and CP sectors dividing the buffer amounts equally between the two sectors.

Phil Anderson/David Sones (Motion carried, Mr. Lockhart abstained)

Motion 19: Council adopt the purpose and need as described in the HMSMT report ([Agenda Item H.3.a](#)), and approve a preliminary range of alternatives for an authorized Federal west coast DSBG fishery including Federal permitting, as described in the HMSMT Report, the [Supplemental HMSMT Report](#), the [Supplemental EC Report](#), and the [Supplemental HMSAS Report 1 and Supplemental HMSAS Report 2](#), with the following modifications:

1. Under Geographic Area Considerations (p4 of the HMSMT Report), limit further analysis to Alternative 2 (all Federal waters off California and Oregon).
2. Include voluntary trade-in alternatives that would allow DGN permittees to surrender a permit in exchange for one or more DSBG permits.
3. Regarding the Sunset Date:

Request the HMSAS, EC, and HMSMT work to refine an alternative with explicit 'gear may not be deployed before' and 'must be out of the water by' language, which may be different during different times of year (e.g., summer vs winter months, or PST vs. PDT). Also include an alternative that would allow the use of a strobe light or other device to mark a fish on a single piece of gear for future retrieval after the end time.

4. Request the EC and HMSMT continue development of the Alternative to:
 - 4a. establish a shoreward boundary for DSBG of 150 fathoms, as defined by waypoints currently used to define RCA boundaries, including further analysis regarding use of VMS to enforce this line.
 - 4b. develop a definition for maximum gear footprint (per permit) to mitigate potential crowding with other DSBG or other fishing sectors and to facilitate active tending.
5. Acknowledging the desire to allow commingling of fishing activities and gears on a single trip, direct the HMSMT to consult with the GMT on the topic of species retention, transiting through RCAs, and ways to avoid overfished species.
6. Regarding Permitting Alternatives – include among the alternatives the option for a gear endorsement to the existing HMS permit (e.g., a registration requirement).
7. For the Southern California Bight only, include an Alternative to limit DSBG fishing activity to weekdays only.

Marci Yaremko/Buzz Brizendine (Motion, with Crabbe/Braby amendment, carried unanimously)

Motion 20: Council to instruct staff to prepare a letter in response to NMFS regarding the overfished condition of striped marlin to include the language proposed in [Agenda Item H.5.b, Supplemental HMSMT Report](#); page 2 under “Recommendation.”

Rich Lincoln/Buzz Brizendine (Motion carried unanimously)

Motion 21: Council adopt the HMSMT recommendation with regard to observer safety ([Agenda Item H.5.b, Supplemental HMSMT Report](#), June 2017).

Marc Gorelnik/David Crabbe (Motion carried unanimously)

Motion 22: Council adopt the recommendations to NMFS on EFP applications to test DSBG as described in the Table contained in [Agenda Item H.4.a, Supplemental HMSAS Report](#).

Marci Yaremko/Buzz Brizendine (Motion carried unanimously)

Motion 23: Council appoint Ms. Corey Ridings to the vacant California seat on the Ecosystem Advisory Subpanel.

David Crabbe/Buzz Brizendine (Motion carried unanimously)

Motion 24: Council appoint Dr. Andrew Shelton to the vacant National Marine Fisheries Service, Northwest Fisheries Science Center seat on the Scientific and Statistical Committee.

Dorothy Lowman/Caren Braby (Motion carried unanimously)

Motion 25: Council approve the changes to COP 4 as shown in [Agenda Item C.7, Supplemental Attachment 1](#).

Marc Gorelnik/Phil Anderson (Motion carried unanimously)

Motion 26: Council elect Mr. Phil Anderson as the Council Chair for the August 11, 2017 through August 10, 2018 term.

Rich Lincoln/Marc Gorelnik (Motion carried unanimously)

Motion 27: Council elect Mr. David Crabbe as the Council Vice Chair for the August 11, 2017 through August 10, 2018 term.

Marc Gorelnik/Corey Niles (Motion carried unanimously)
