

**SALMON ADVISORY SUBPANEL REPORT ON THE PROPOSED SCHEDULE AND  
PROCESS FOR DEVELOPING THE 2018 OCEAN SALMON FISHERY MEASURES**

The Salmon Advisory Subpanel (SAS) has reviewed the proposed schedule and public comment submitted under Agenda Item D.4. The SAS encourages the solicitation and facilitation of public comment on the proposed salmon season alternatives. The SAS recommends that the Council and the Federal agencies continue to staff one public meeting in each state (Washington, Oregon, and California). The SAS encourages the state agencies to hold additional concurrent public meetings if warranted, to expand the geographic scope of public comment. If these additional state meetings do occur, comment received should be summarized and submitted by state staff for inclusion in the Hearings officer's report to the Council.
