

GROUND FISH ADVISORY SUBPANEL REPORT ON FUTURE COUNCIL MEETING  
AGENDA AND WORKLOAD PLANNING

The Groundfish Advisory Subpanel (GAP) reviewed the documents under this agenda item and offers the following comments.

March 2018

The GAP wishes to see the trawl gear switching and 36° line issues included in the March agenda. These issues might be included under the *G.4, Catch Shares 5-Year Review* agenda item. If not, those two items need to be added to the Council agenda.

The GAP requests updates be provided regarding this issue if available prior to the meeting.

April 2018

The GAP has noticed that the agenda item *F.5 EFH-RCA Amendment 28, FPA* is shaded and therefore tentative on the agenda. The EFH-RCA issue is a very high priority for the GAP. It should be made permanent on this agenda. Another concern for the GAP is that the agenda item *F.4 Flexibility in ACL Management Response ROA/PPA* is also shaded.

Generally speaking, the GAP would like to receive early updates on any matters of interest.
