

HMS Landings Update

*Pacific Fishery Management Council
Agenda Item H.2 - 17 November 2017*

HMS Landings Data Improvement

- CDFW developed a programmatic approach to enhance the accuracy of HMS commercial landings data sets
- Automated error checking protocol that flags landings information containing potential errors.
- Incorporates:
 - State and federal regulations
 - Common reporting issues
 - Known data caveats
 - License and permitting lists
 - Fishing practices

HMS Landings Data Improvement

- Identify and code landings made with DSBG prior to development of gear-specific DSBG codes
- Commercial landings for the 2016 calendar year have been checked and corrected
- Next Steps: Transition from paper receipts to E-Tix
 - Voluntary use beginning July 2018
 - Mandatory use July 2019

Pacific Bluefin Tuna

- Commercial: As of November 2 2017, 480.37 mt of PBF have been landed
- Recreational: As of August 2017, 6,813 PBF have been landed by the CPFV and private vessel fisheries

Bigeye Tuna

*2017 data are preliminary

Swordfish

*2017 data are preliminary

Swordfish

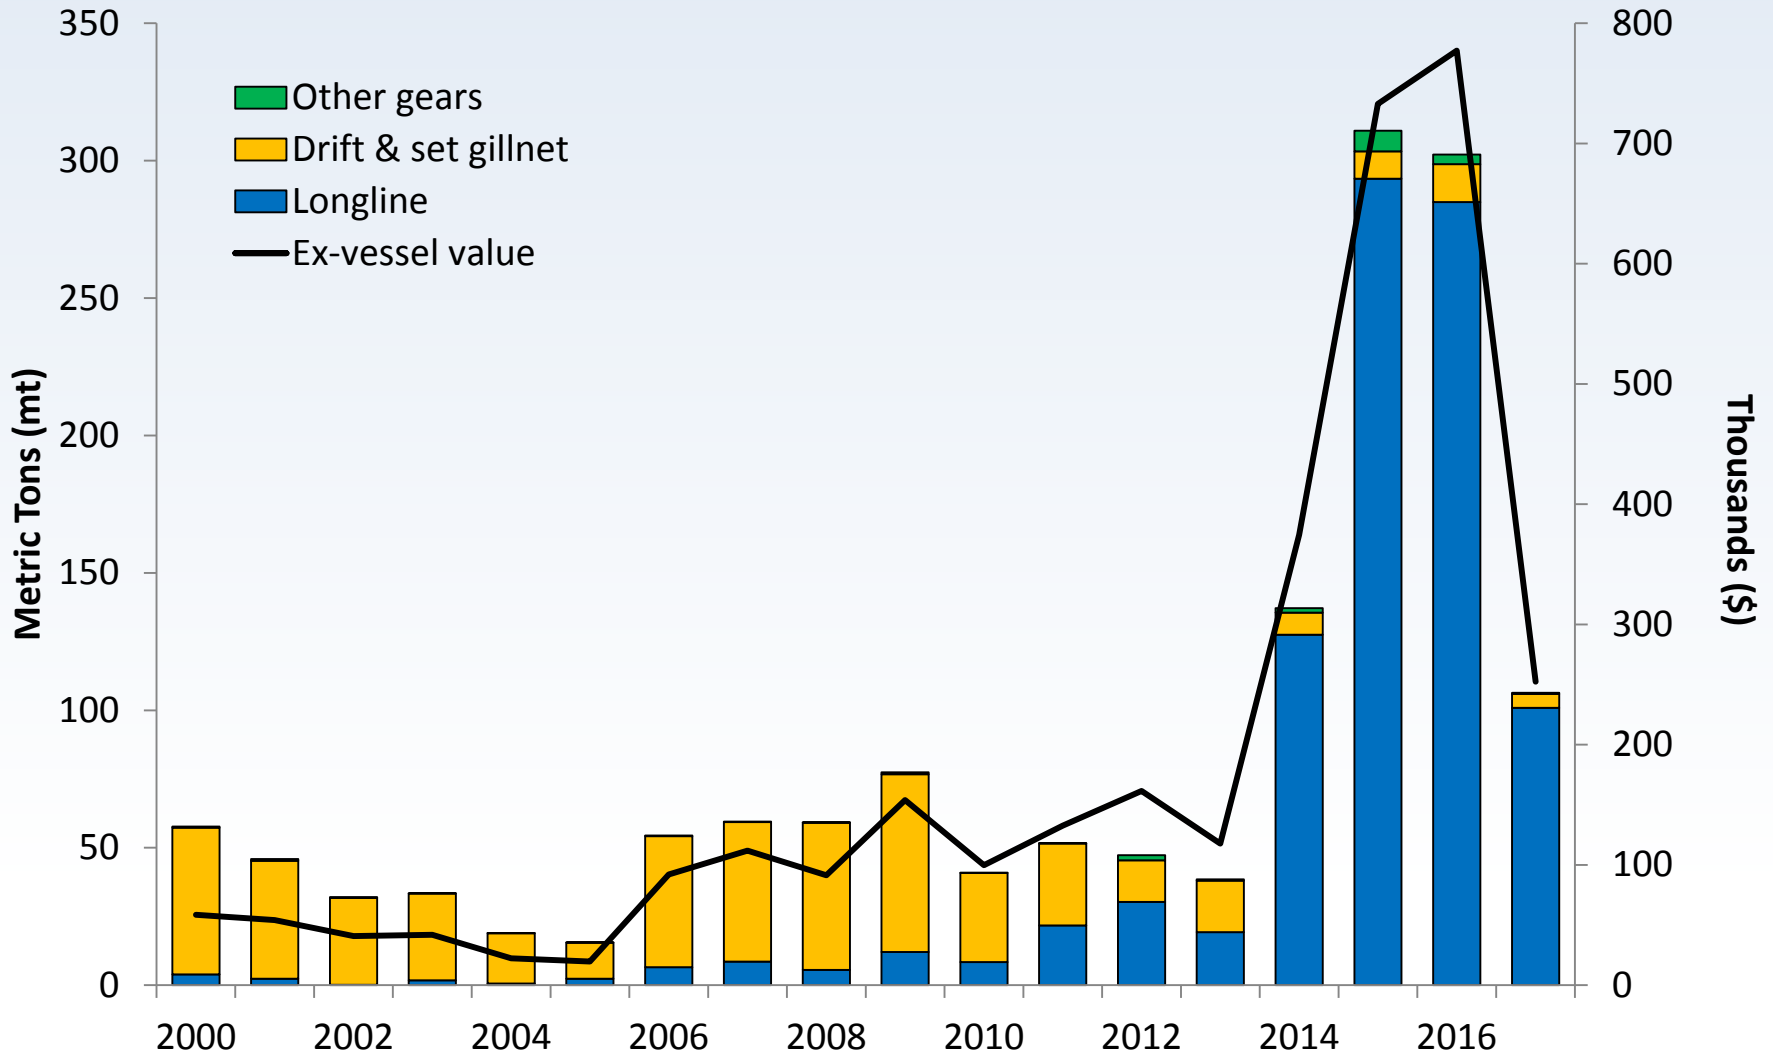

Total Swordfish Ex-vessel Price Per Pound in California by Gear, 2011-2016*

Year	DGN	Harpoon	Longline	DSBG
2011	\$4.63	\$7.38	\$3.47	-
2012	\$4.76	\$9.94	\$3.05	-
2013	\$4.59	\$9.25	\$3.16	-
2014	\$4.41	\$9.02	\$3.28	-
2015	\$4.01	\$9.03	\$3.78	\$6.60
2016	\$4.18	\$7.53	\$3.29	\$7.22

*2016 data are preliminary
