

HABITAT COMMITTEE REPORT ON
NATIONAL MARINE SANCTUARIES COORDINATION REPORT

The Habitat Committee (HC) heard a presentation on the Office of National Marine Sanctuaries (ONMS) coordination report from Dr. Lisa Wooninck (ONMS). The purpose of the annual ONMS report is to enhance communication and to present opportunities to more closely coordinate and collaborate on activities of shared interest among National Marine Fisheries Service, Pacific Fishery Management Council and ONMS.

The HC appreciates the enhanced communication from ONMS and encourages continued sharing of an annual coordination report to improve coordination of habitat research and climate change science and assessments.
