

**CALIFORNIA WETFISH PRODUCERS ASSOCIATION (CDFW) PROPOSAL FOR 2018
 EXEMPTED FISHING PERMIT
 – ERRATA –**

An error in Table 1 of Agenda Item C.2 Attachment 1 (California Wetfish Producers Association Revised Exempted Fishing Permit Proposal) was discovered during discussion with the Scientific and Statistical Committee. The correct value for the proportion of sardine to combined sardine and anchovy observed in 2016-2017 aerial surveys is 32 percent, not 47 percent. This is reflected in revised Table 1 below. This results in a minimum of 408 mt of sardine necessary to catch the total target of 23 CPS schools.
