

Bait Fishing has been very good!
Consistent for our preferred 4 and 5 inch
size sardines and fish have been very
plentiful along the beaches from Malibu to
Redondo Beach.

Rick Oefinger, Marina del Rey Sportfishing,
and Marina del Rey Bait Company.

Our Mona Lisa, a 50' drum seiner, provides live bait for our five party and charter boat sportfishing fleet, and we are pretty much the only viable year 'round provider of live bait to all of the private boaters in The Santa Monica Bay.

For the last probably ten or so years, 90+ % of our sardine fishing has been in less than SIXTY feet of water and often as close to the surf as legal. This is out of necessity, not choice, because well, that's where the sardines are!
