

My Name is Bill James. I am a California Commercial Nearshore Fisherman. I am the Fisheries Consultant for PSLCFA. I am here representing the Nearshore Commercial Fishermen from PSLCFA and MBCFA. The ports of PSL (Avila) and Morro Bay land the greatest amount of "high value" Nearshore Finfish of any port Complex on the west coast. We have a very sustainable fishery. We would like the following Trip limits for the area south of 40:10 for the years of 2019-2020:

| | | |
|-------------------|--------------------|---------------------|
| Shallow Nearshore | 1200 lbs/ 2 months | Closed March-April |
| Deeper Nearshore | 1000 lbs/ 2 months | Closed March-April |
| Lingcod | 300 lbs month | Closed March April. |
| Canary Rockfish | 200 lbs/ 2 months | Closed March-April |
| Shelf Rockfish | 600 lbs month | Closed March-April |

Thank you for the opportunity to offer comment.

Sincerely,
Bill James
