Thank you for coming down to Salinas and listening to all of us speak. I unfortunately am reporting a 50k commercial salmon vessel investment that I will have to sell later this week for a lower price do to your desisions on our season. I have a mortgage and two kids and did speak at the meeting. Making us gamble with our families future is not right and im sure this will not be the last story you'll hear from our dying communities. This salmon epidemic is not our fault and you should be fixing it and not ruining our plans to one day pay off our house and send our kids to college. We wouldn't do that to you!
