

COVER FOR  
APPLICATION FOR EXEMPTED FISHING PERMIT FOR YELLOWTAIL ROCKFISH  
JIG FISHING FOR THE 2019-2020 FISHING SEASON

The following is intended as a cover from Barbara Emley to supplement Agenda Item E.2, Attachment 1.

Here are some changes to note from previous applications.

1. Some time ago, we agreed amongst ourselves to change the length of the breakaway from 30 feet to 50 feet but that has never actually been added to the text.
2. We started with 4 boats participating but now we are allowed 7.

We are requesting an increase in the amount of harvest for some species:

Yellow-eye from .03 to .06 mt because we have an increased number of boats and

Canary from 1 to 2mt because we can market this species and this may lead to increased effort.
